Mizora A Prophecy Writing American Women:

Gender, Race, and American Science Fiction Jason Haslam, 2015-05-08 This book focuses on the interplay of gender race and their representation in American science fiction from the nineteenth century through to the twenty first and across a number of forms including literature and film Haslam explores the reasons why SF provides such a rich medium for both the preservation of and challenges to dominant mythologies of gender and race Defining SF linguistically and culturally the study argues that this mode is not only able to illuminate the cultural and social histories of gender and race but so too can it intervene in those histories and highlight the ruptures present within them The volume moves between material history and the linguistic nature of SF fantasies from the specifics of race and gender at different points in American history to larger analyses of the socio cultural functions of such identity categories SF has already become central to discussions of humanity in the global capitalist age and is increasingly the focus of feminist and critical race studies in combining these earlier approaches this book goes further to demonstrate why SF must become central to our discussions of identity writ large of the possibilities and failings of the human past present and future Focusing on the interplay of whiteness and its various others in relation to competing gender constructs chapters analyze works by Nathaniel Hawthorne Mary E Bradley Lane Edgar Rice Burroughs Philip Francis Nowlan George S Schuyler and the Wachowskis Frank Herbert William Gibson and Octavia Butler Academics and students interested in the study of Science Fiction American literature and culture and Whiteness Studies as well as those engaged in critical gender and race studies will find this volume invaluable *Mizora: A Prophecy* Mary Bradley, 2018-01-29 The narrative of Vera Zarovitch published in the Cincinnati Commercial in 1880 and 1881 attracted a great deal of attention It commanded a wide circle of readers and there was much more said about it than is usual when works of fiction run through a newspaper in weekly installments Quite a number of persons who are unaccustomed to bestowing consideration upon works of fiction spoke of it and grew greatly interested in it **Redefining the Political Novel** Sharon M. Harris, 1995 While critical studies of the American political novel date from the 1920s such considerations of the genre have failed whether wittingly or unwittingly to recognize works by women The exclusion is usually based on a distinction between social novels and political novels and the result is an understanding of the political as a largely male province In this thought provoking collection of essays the contributors seek not simply to add works by women to the canon of political novels but rather to demand a conceptual revolution one that questions the very precepts on which the canon is based This redefinition of the political novel takes many factors into account including gender race and class and their relation to our most basic conceptions of literary and aesthetic value *A Companion to the American Novel* Alfred Bendixen, 2014-11-17 Featuring 37 essays by distinguished literary scholars A Companion to the American Novel provides a comprehensive single volume treatment of the development of the novel in the United States from the late 18th century to the present day Represents the most comprehensive single volume introduction to this popular literary form currently

available Features 37 contributions from a wide range of distinguished literary scholars Includes essays on topics and genres historical overviews and key individual works including The Scarlet Letter Moby Dick The Great Gatsby Beloved and many more

Bradley Lane, 2000-05-01 This new edition of Mizora about an 1880s radical feminist utopia includes a new extensive introduction a groundbreaking scholarly treatment of the work that provides a critical apparatus to appropriately place Mizora and author Mary E Bradley Lane in the cultural and historical context of the nineteenth century A precursor to Edward Bellamy's Looking Backward Mizora is the first all female utopian novel in American literature The novel follows its heroine Vera Zarovitch a stalwart husky woman from the Russian nobility who after exile to Siberia withstands the rigors of the Arctic wastelands to become the first woman to reach the North Pole She becomes caught up in a whirling current that rushes her through walls of amber mists and drops her in the sweet scented atmosphere of a land lying in the earth's interior Mizora a three thousand year old feminist utopia

America's Darwin Tina Gianquitto, Lydia Fisher, 2014 An engaging collection of interdisciplinary essays on the distinctive qualities of America's textual engagement with Darwinian evolutionary theory especially in regard to On the Origin of Species which highlights the influence of prevalent cultural anxieties on interpretation

Frankenstein's Daughters Jane L. Donawerth, 1997-04-01 Women Science fiction authors past and present are united by the problems they face in attempting to write in this genre an overwhelmingly male dominated field Science fiction has been defined by male centered scientific discourse that describes women as alien others rather than rational beings This perspective has defined the boundaries of science fiction resulting in women writers being excluded as equal participants in the genre Frankenstein's Daughters explores the different strategies women have used to negotiate the minefields of their chosen career they have created a unique utopian science formulated by and for women with women characters taking center stage and actively confronting oppressors This type of depiction is a radical departure from the condition where women are relegated to marginal roles within the narratives Donawerth takes a comprehensive look at the

field and explores the works of authors such as Mary Shelley Marion Zimmer Bradley Ursula K Le Guin and Anne McCaffrey
