Steven M. Buechler

Mobilizing Democracy Globalization And Citizen Protest Themes In Global Social Change:

Mobilizing Democracy Paul Almeida, 2014-08 What are the conditions and factors that drive people to protest against government economic policies in the developing world Distinguished Scholarship Award of the Pacific Sociological Association 2015 Paul Almeida's comparative study of the largest social movement campaigns that existed between 1980 and 2013 in every Central American country Costa Rica El Salvador Guatemala Honduras Nicaragua and Panama provides a granular examination of the forces that spark mass mobilizations against state economic policy whether those factors are electricity rate hikes or water and health care privatization Many scholars have explained connections between global economic changes and local economic conditions but most of the research has remained at the macro level *Mobilizing Democracy* contributes to our knowledge about the protest groups on the ground and what makes some localities successful at mobilizing and others less successful His work enhances our understanding of what ingredients contribute to effective protest movements as well as how multiple protagonists labor unions students teachers indigenous groups nongovernmental organizations women's groups environmental organizations and oppositional political parties coalesce to make protest more likely to win major concessions Based on extensive field research archival data of thousands of protest events and interviews with dozens of Central American activists *Mobilizing Democracy* brings the international consequences of privatization trade liberalization and welfare state downsizing in the global South into focus and shows how persistent activism and network building are reactivated in these social movements Almeida enables our comprehension of global and local politics and policy by answering the question If all politics is local then how do the politics of globalization manifest themselves Detailed graphs and maps provide a synthesis of the quantitative and qualitative data in this important study Written in clear accessible prose this book will be invaluable for students and scholars in the fields of political science social movements anthropology Latin American studies and labor studies

Mobilizing Democracy Paul Almeida, 2014-08-01 What are the conditions and factors that drive people to protest against government economic policies in the developing world Distinguished Scholarship Award of the Pacific Sociological Association 2015 Paul Almeida's comparative study of the largest social movement campaigns that existed between 1980 and 2013 in every Central American country Costa Rica El Salvador Guatemala Honduras Nicaragua and Panama provides a granular examination of the forces that spark mass mobilizations against state economic policy whether those factors are electricity rate hikes or water and health care privatization Many scholars have explained connections between global economic changes and local economic conditions but most of the research has remained at the macro level *Mobilizing Democracy* contributes to our knowledge about the protest groups on the ground and what makes some localities successful at mobilizing and others less successful His work enhances our understanding of what ingredients contribute to effective protest movements as well as how multiple protagonists labor unions students teachers indigenous groups nongovernmental organizations women's groups environmental organizations and oppositional political

parties coalesce to make protest more likely to win major concessions Based on extensive field research archival data of thousands of protest events and interviews with dozens of Central American activists Mobilizing Democracy brings the international consequences of privatization trade liberalization and welfare state downsizing in the global South into focus and shows how persistent activism and network building are reactivated in these social movements Almeida enables our comprehension of global and local politics and policy by answering the question If all politics is local then how do the politics of globalization manifest themselves Detailed graphs and maps provide a synthesis of the quantitative and qualitative data in this important study Written in clear accessible prose this book will be invaluable for students and scholars in the fields of political science social movements anthropology Latin American studies and labor studies **Handbook of Social**

Movements across Latin America Paul Almeida, Allen Cordero Ulate, 2015-07-14 This handbook covers social movement activities in Latin American countries that have had profound consequences on the political culture of the region It examines the developments of the past twenty years such as a renewed upswing in popular mobilization the ending of violent conflicts and military governments new struggles and a relatively more democratic climate It shows that from southern Chiapas to Argentina social movements in the 1990s and especially in the 2000s have reached new heights of popular participation There is a lack of research on the politics of this region in the contemporary era of globalization this volume partially fills the void and offers a rich resource to students scholars and the general public in terms of understanding the politics of mass mobilization in the early twenty first century The contributors each address social movement activity in their own nation and together they present a multidisciplinary perspective on the topic Each chapter uses a case study design to bring out the most prominent attributes of the particular social struggle s for instance the main protagonists in the campaigns the grievances of the population and the outcomes of the struggles This Handbook is divided into seven substantive themes providing overall coherence to a broad range of social conflicts across countries issues and social groups These themes include 1 theory of Latin American social movements 2 neoliberalism 3 indigenous struggles 4 women s movements 5 movements and the State 6 environmental movements and 7 transnational mobilizations Social Movements in a

Globalized World Cristina Flesher Fominaya, 2020-03-03 As the world experiences social unrest polarization and faces complex challenges citizens are taking to the squares and streets to demand change From climate change protests to far right extremism social movements are mobilizing around the key social and political issues of our times In this extensively revised and updated book the author offers a cutting edge and original analysis to generate new insights into 21st Century social movements in a globalized world Written in clear and accessible language this book will appeal to both students new to the field and established scholars Drawing on a wealth of examples from around the world from Anonymous and Occupy Wall Street to Wikileaks the Tea Party and the Zapatistas it develops a compelling framework with which to understand the important role movements play in contemporary politics This expanded and revised second edition includes a comprehensive

overview of social movement theory a new chapter on Movements on the Right a wider discussion of Information and Communication Technologies and Media including new sections on hacktivism and leaktivism and up to date case studies and references

Global Justice Movement Donatella Della Porta, Massimiliano Andretta, Angel Calle, Helene Combes, Nina Eggert, Marco G. Giugni, Jennifer Hadden, Manuel Jimenez, Raffaele Marchetti, 2015-11-17 Della Porta has assembled a distinguished group of scholars who have made great strides in illuminating the early phases of the movement The book includes especially keen analyses of the movement against global capitalism particularly in its European manifestations John D McCarthy Pennsylvania State University Della Porta has skillfully coordinated a comparative study in six European countries and the US Renowned scholars give testimony of the movement in their countries This is the first attempt to document a genuine transnational movement Bert Klandermans Vrije Universiteit Amsterdam You G 8 we 6 billion So went the chant at the international parade leading into the summit in Genoa Italy The global justice movement has led to a new wave of protest building up transnational networks inventing new strategies of action constructing new images of democracy and boldly asserting that another world is possible This book examines all this and more with case studies drawn from seven different countries covering transnational networks and making cross national comparisons Leading European and American scholars analyze more than 300 organizations and 5 000 activists looking at mobilizations that bridge old and new movements and bring politics back to the street Contributors include Massimiliano Andretta Angel Calle Helene Combes Donatella della Porta Nina Eggert Marco Giugni Jennifer Hadden Manuel Jimenez Raffaele Marchetti Lorenzo Mosca Mario Pianta Herbert Reiter Christopher Rootes Dieter Rucht Clare Saunders Isabelle Sommer Sidney Tarrow Simon Teune Mundo Yang

Civic Activism Unleashed Richard Youngs, 2019-01-08 One of the signal events in global politics in the last decade has been the transformation of political and civic activism Not only is the new activism qualitatively different in character from what it was in 2000 its intensity and frequency have dramatically increased Activists are developing a new type of civic movement applying innovative forms of direct action against governments and often operating without leaders or even any well defined set of aims In *Civic Activism Unleashed* Carnegie scholar Richard Youngs examines the changing shape of contemporary civic activism He shows how the emerging civic activism has important implications for the whole concept of civil society and for the relationship between citizens political institutions and states Youngs contends that the rise and spread of these new forms of direct action civic activism and the way the trend has driven the dramatic events in global politics in recent years requires us to update our understanding of what civil society actually is and which types of organizations are in its vanguard He further looks at the global impact of recent civic activism and offers a set of variables to help explain cases of success and failure Youngs larger aim is to explore in depth the new forms of civic activism that are emerging around the world and assess how they differ from more established practices of civil society activity Theoretically ambitious and global in scope *Civic Activism Unleashed* forces us to reconsider the nature of contemporary social and civic

activism and how it is reshaping contentious politics in countries across the world Understanding Social Movements
Steven M. Buechler, 2016-01-08 In thirteen succinct chapters Buechler traces movement theories from the classical era of sociology to the most recent examples of transnational activism He identifies the socio historical context central concepts and guiding logic of diverse movement theories with emphasis on Comparisons of Marx and Lenin Weber and Michels and Durkheim and LeBon The Chicago School of the inter war period The political sociological approaches of the 1950s The varieties of strain and breakdown theories at the dawn of the 1960s Major paradigm shifts caused by the cascade of 1960s social movements Vivid examples of movements worldwide and coverage of all major theorists Critiques debates and proposed syntheses dominating the turn of the 21st century Recent trends such as cyberactivism and transnational movements and their theoretical implications **Yearbook of International Organizations 2014-2015 (Volume 4)**
Union Of International Associations, Union of International Associations, 2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations **Global Politics** Ben Whitham, Andrew Heywood, 2023-03-31 In turbulent global times your study of this subject is increasingly necessary and urgent Featuring a new chapter on critical theories and revised to take a less Eurocentric approach to concepts and case studies this new edition allows you to tackle global politics important concepts debates and problems How can theories help us to understand the politics of a global pandemic Do we live in a post truth world of fake news and disinformation Does international aid work Does the United States remain a global hegemon What is the Anthropocene and how does it shape global politics Are global politics constrained by a North South divide What are the possible futures of global politics and the politics of outer space Delving into topics as diverse as anarchy intersectionality Confucianism and neoconservatism boxed features give you confidence in political analysis Focus on learn more about the global colour line or the tragedy of the commons Key figures discuss the ideas of Hans Morgenthau Frantz Fanon or bell hooks Debating argue whether the United Nations are obsolete or whether nuclear weapons promote peace Global politics in action apply your learning to the migration crisis in Europe or the Arab Spring Approaches to consider human rights or the Covid 19 pandemic from the perspective of realist liberal postcolonial Marxist feminist constructivist and post structuralist theory Global actors understand the significance of Black Lives Matter

Amnesty International or the International Monetary Fund Spanning the development of global politics from the early origins of globalization through to the return of multipolarity in the twenty first century this is an essential text for undergraduates studying global politics and international relations Global Justice Activism and Policy Reform in Europe Peter Utting, Mario Pianta, Annekathrin Ellersiek, 2012 Civil society activism around issues of global justice has proliferated in Europe during the past two decades Has such contestation and advocacy made a difference This book examines whether and how the organizations networks and campaigns involved have attained their policy objectives in the areas of debt relief international trade international taxation and corporate accountability The analysis also considers the relationship between national and transnational activism By comparing variations in the activism policy nexus in France Italy and the United Kingdom it seeks to understand how such interaction and policy outcomes vary in different institutional and political contexts
