Modern Aesthetics Global Aesthetic Research:

Early Modern Aesthetics J. Colin McQuillan, 2015-11-30 Early Modern Aesthetics is a concise and accessible guide to the history of aesthetics in the early modern period J Colin McQuillan shows how philosophers concerned with art and beauty positioned themselves with respect to the ancients and the moderns how they thought the arts were to be distinguished and classified the principles they proposed for art and literary criticism and how they made aesthetics a part of philosophy in the eighteenth century The book explores the controversies that arose among philosophers with different views on these issues their relation to the philosophy science and art and their legacy for contemporary aesthetics Eroticizing Aesthetics Tim Themi, 2021-06-03 Bringing together Bataille with Lacan and Nietzsche Tim Themi examines the role of aesthetics implicit in each and how this invokes an erotic process celebrating the real of what is usually excluded from articulation Bataille came to deem eroticism as the standpoint from which to grasp humanity as a whole based on his understanding of our transition to humanity being founded on a series of taboos placed on inner animality An erotic outlet for the latter was historically the aesthetic dimensions of our religions but Bataille's view of how this was gradually diminished has much in keeping with Nietzsche's critique of Christian Platonic dualism and Lacan's of the desexualised Good of Western metaphysics Building from these often surprising proximities Themi closely examines Bataille's many interventions into the history of aesthetics from his confrontations with Breton's surrealism to his own novels and encounter with the animal cave paintings of Lascaux radically re illuminating the corollary phenomena of Dionysos in Nietzsche's philosophy and the jouissance enjoyment of transgression in the psychoanalysis of Lacan A new ethical criterion for aesthetic works and creations on this basis becomes possible Baumgarten's Aesthetics J. Colin McQuillan, 2021-07-07 The German philosopher Alexander Gottlieb Baumgarten 1714 1762 introduced aesthetics as a new science in his Reflections on Poetry 1735 and developed this new part of philosophy in a series of later works culminating in his unfinished Aesthetics 1750 1758 This volume is the first collection of essays in the English language devoted to Baumgarten's aesthetics The essays highlight the distinguishing features of Baumgarten's aesthetics situate it in its historical context document its reception and examine its contributions to contemporary philosophy What Art Does Ryan Mitchell Wittingslow, 2023-10-03 We derive a great deal of cognitive pleasure from asking what artworks mean And yet despite the seriousness with which we approach these questions they all too often rely on theories of art that fail to adequately explain how art conveys meaning This book proposes a new theory In contrast to more conventional definitions of art What Art Does defends the claim that artworks constitute a class of tool Like other tools artworks are objects that have functions and that furnish affordances However thanks to the particular social and material facts that underpin the creation of artworks the functions that artworks have and the affordances they furnish are special It is thanks to these special functions and affordances that artworks obtain their privileged character and status Because artworks do things that other tools cannot we take artworks to be meaning making objects with something to say

Proceedings of the International Conference on Art Design and Digital Technology, ADDT 2022, 16-18 September 2022, Nanjing, China Afizan Bin Azman, Norfadilah Kamarudin, Yi Ji, 2022-12-02 The 2022 International Conference on Art Design and Digital Technology ADDT 2022 was successfully held on September 16-18, 2022 in Nanjing, China. A virtual conference, ADDT 2022 created a forum for idea sharing and research exchange, opened up new perspectives in related fields and broadened the horizons of all participants. In the conference, 150 individuals around the world took part. Divided into three parts, the conference agenda covered keynote speeches, oral presentations, and online Q & A discussion. Firstly, the keynote speakers were each allocated 30-45 minutes to address their speeches. Then, in the oral presentations, the excellent papers we had selected were presented by their authors one by one. We are glad to share with you that we've selected a bunch of high-quality papers from the submissions and compiled them into the proceedings after rigorously reviewing them. These papers feature but are not limited to the following topics: Computer Art, Visual Design, Digital Media, Innovative Technology, etc. All the papers have been checked through rigorous review and processes to meet the requirements of publication. We would like to acknowledge all of those who supported ADDT 2022 and made it a great success. In particular, we would like to thank the European Alliance for Innovation (EAI) for the hard work of all its colleagues in publishing this paper volume. We sincerely hope that the ADDT 2022 turned out to be a forum for excellent discussions that enable new ideas to come about promoting collaborative research.

Controversy and Construction in Contemporary Aesthetics, 2023-11-13 The inclusion of this volume in Brill's Transcultural Aesthetics, a book series devoted primarily to multidisciplinary Western and non-Western aesthetics, is indispensable to enrich the nature and scope of contemporary aesthetics. Time and again, many aesthetic controversies have not been adequately addressed, and this has become a common concern among scholars in contemporary aesthetics. This volume therefore seeks to contribute new perspectives to these controversies by shedding light on some of the fresh views among the leading theorists working in the field today.

Aesthetic Theory Across the Disciplines Max Ryyänen, Zoltán Somhegyi, 2023-11-13 What is aesthetics? How is it related to other disciplines? The chapters of this book examine the history, theoretical conditions, and connection points between aesthetics and other disciplines. At the same time, the authors are also interested in practical clashes of methodology and agenda, especially when it is not merely about the securing of the position of one or the other discipline but is used in a dialogical manner as the form of understanding better the nature of both as well as the benefits of their collaboration. The authors work on the border of aesthetics and at least one other academic field. Through their regular scholarly activities, the contributors constantly benefit from cross and interdisciplinary practice, and this makes them ideal interpreters of these methodological questions. Contributors include Mami Aota, Karl Axelsson, Paul Duncum, Lisa Giombini, Oiva Kuisma, Jacob Lund Tyrus, Miller, Max Ryyänen, Mateusz Salwa, Zoltán Somhegyi, Wendy Steiner, and Joseph Tanke.

Figural Space William D. Melaney, 2021-04-15 This book is concerned with the continuing viability of both Freud and Hegel to the reading of modern

literature The book begins with Julia Kristeva's attempts to relate Hegelian thought to a psychoanalytically informed conception of semiotics that was first explored in her influential study *The Revolution of Poetic Language* and then modified in later books that develop semiotics in new directions Kristeva's agreements and disagreement with Hegel are important to the book's argument which ultimately defends Hegel against familiar poststructuralist detractors However the book's conceptual argument requires a historical exposition with chapters devoted to literary figures ranging from Spenser to Ishiguro One of the purposes of the book is to demonstrate that Hegel's contribution to modern thought is at least partially exhibited in the history of literature which also corroborates some of the deeper insights of psychoanalysis
