Gang-Stalking and Mind-Control: The Destruction of Society Through Community Spying Networks A. K. Forwood, 2011-02-24 A secret underground lurks throughout society a sophisticated network of secret policing units that are cropping up in every community It is made up of people from all walks of life who are operating as a fascist secret police force against all freedom loving citizens of the western world They pretend to be serving a good cause but they are creating terror in our neighborhoods and destroying lives one person at a time This secret network is not only used for targeting individuals with systematic harassment but those within it are often involved in sexual exploitation blackmail satanism and mind control Gang Stalking and Mind Control takes an inside look at the sinister side of this growing epidemic Written by a target for targets

Gangstalking Liz B. Johnston, 2024-11-26 Gangstalking is a novel persecutory belief system Victims believe they are harassed by a group of unknown stalkers perhaps connected with the mafia CIA or law enforcement Victims describe themselves as targeted individuals TIs People who identify as TIs have perpetrated mass shooting incidents as

revenge or to draw attention to the problem Social media has allowed the concept to spread globally and there are millions of posts about gangstalking online However there are only a handful of published academic research studies of gangstalking This book summarizes current academic research about gangstalking with a focus on the ethical dilemmas involved in researching this unique concept Gangstalking research is necessarily intersectional spanning the fields of criminology and law enforcement counselling psychology and social media but does not clearly fit into any one defined field Understanding gangstalking involves exploring ethical issues and paradoxes and can also lead to new theories illuminating the puzzle of paranoia This is a genuinely unique book the first academic book on gangstalking It brings together researchers and experts from many different fields and perspectives *Triumph of the Light* Vidya Frazier, 2017-11-20 Story of Humanity s Enslavement and Impending Liberation If you re disturbed by the increasing chaos disasters and violence playing out on the world stage this book will help you understand why this is all happening It will introduce you to a world that may sound like science fiction or conspiracy theory but becomes a fascinating story difficult to dispute or deny as it finally makes sense of what is happening The story presented here is largely based on information revealed by increasing numbers of courageous whistle blowers from within the military intelligence communities and researchers who are speaking truths long kept secret from the public It becomes clear that humanity has actually been controlled for thousands of years in insidious ways most people are unaware of And that there is a battle currently being waged for humanity s liberation from this control Triumph of the Light may lead you to question your beliefs your conditioning and what you ve believed to be true about the world and humanity s history Although disturbing in many ways what s offered here is also exciting and uplifting as the author gives great hope for our future It becomes clear that even with all that is now occurring humanity is actually on the verge of an incredible leap in consciousness into a state of much greater freedom harmony justice and spiritual awakening **Diary of an Angry Targeted Individual: Mind Invasive Technology (Mind Control Technology Book Series) Book 4 of 7** Renee Pittman, 2014-03-31 The key to the success of weaponized beamed technology derived from the Electromagnetic Spectrum depends on several factors One of the most successful is the strategic effort to discredit victims by applying the mental illness tag and hoping it will stick For success the use of anyone around victims especially family members become crucial Renee Pittman continues her mission of exposing the hidden evil today by pulling back the shroud of secrecy This is not only done through the testimony of professionals and compiled open literature evidence but through her personal experiences and the testimony of victims both men women and even children confirming legalized ongoing human experimentation on steroids In a diary like setting the author gives explicit details of her continued day to day battle to combat covert technological terrorism She details the continued hope of many for justice system intervention and coping with the roadblocks faced as an inability to effectively litigate against a Goliath in these cases high powered government agencies of the United States of America Sadly many attorneys will not touch these difficult to prove cases due to the

invisible beamed weapons being used As a result thousands of lives are being destroyed without recourse However to the dismay of those seeking to keep the widespread use of advanced psychotronic technology under wraps and its capabilities Pittman details not only its machination but also provides excellent examples of precise heinous manipulative techniques for example the creation of sexual deviance as well as a means of controlling targets and even blackmailing into submission With the focus on women many report covert efforts to turn women into sex slaves by the men of depraved minds who are some of the more perverse at the helm of these advancements The battle to bring the truth before the public continues with the assurance that the truth will ultimately prevail and inevitably always has
