Re-memobering the Body Scott W. Bullard,2013-11-01 For centuries Baptists have regarded the Eucharist or Lord s Supper as merely symbolic rather than as sacramental Historically speaking Baptists have also participated in the practice of the Supper less frequently than other Christian groups all the while lodging complaints about a lack of ecclesial unity In

response to these trends this book argues for a sacramental understanding of the Eucharist and focuses on the way in which the Eucharist conveys grace by drawing the church together as the body of Christ It focuses especially on the theology of James Wm McClendon Jr who was Baptist but nonetheless illustrated that through the Eucharist God re members the church as the body of Christ Together with Lutheran theologian Robert Jenson and Catholic theologian Cardinal Henri de Lubac McClendon s work has had an enormous impact on contemporary free church discussions about the Supper and ecclesial unity In a final chapter therefore the study examines a number of contemporary Baptists dubbed the new Baptist sacramentalists These men and women are influenced by McClendon Jenson and de Lubac and they offer a fresh approach to the ongoing puzzle of the church s disunity through the Eucharist Houghton Mifflin History-social Science ,2007 Teach students the skills they need for long lasting social studies success *Sport, Spirituality, and Religion* Tracy J. Trothen,2019-11-22 The research studies included in this Special Issue highlight the fundamental contribution of the knowledge of environmental history to conscious and efficient environment conservation and management The long term perspective of the dynamics that govern the human climate ecosystem is becoming one of the main focuses of interest in biological and earth system sciences Multidisciplinary bio geo archaeo investigations into the underlying processes of human impact on the landscape are crucial to envisage possible future scenarios of biosphere responses to global warming and biodiversity losses This Special Issue seeks to engage an interdisciplinary dialog on the dynamic interactions between nature and society focusing on long term environmental data as an essential tool for better informed landscape management decisions to achieve an equilibrium between conservation and sustainable resource exploitation
