The Analogical Reader Peter Dixon, Marisa Bortolussi, 2023-11-08 Perspective taking is a critical component of approaches to literature and narrative but there is no coherent broadly applicable and process based account of what it is and how it occurs This book provides a multidisciplinary coverage of the topic weaving together key insights from different disciplines into a comprehensive theory of perspective taking in literature and in life The essential insight is that taking a perspective requires constructing an analogy between one's own personal knowledge and experience and that of the perspective taking target This analysis is used to reassess a broad swath of research in mind reading and literary studies It develops the dynamics of how analogy is used in perspective taking and the challenges that must be overcome under some circumstances New empirical evidence is provided in support of the theory and numerous examples from popular and literary fiction are used to illustrate the concepts This title is part of the Flip it Open programme and may also be available Open Access Check our website Cambridge Core for details **The Canadian Short Story** Reingard M. Nischik, 2007 Beginning in the 1890s reaching its first full realization by modernist writers in the 1920s and brought to its heyday during the Canadian Renaissance starting in the 1960s the short story has become Canada's flagship genre It continues to attract the country's most accomplished and innovative writers today among them Margaret Atwood Mavis Gallant Alice Munro Carol Shields and many others Yet in contrast to the stature and popularity of the genre and the writers who partake in it surprisingly little literary criticism and theory has been devoted to the Canadian short story This collection redresses that imbalance by providing the first collection of critical interpretations of a range of thirty well known and often anthologized Canadian short stories from the genre's beginnings through the twentieth century A historical survey of the genre introduces the volume and a timeline comparing the genre's development in Canada the US and Great Britain via representative examples completes it The collection is geared both to specialists in and to students of Canadian literature For the latter it is of particular benefit that the volume provides not only a collection of interpretations but a comprehensive introduction to the history of the Canadian short story Reingard M Nischik is professor and chair of American Literature at the University of Constance Germany *The Detached Retina* Brian W. Aldiss, 1995-05-01 In this fascinating collection of essays one of the world's preeminent science fiction writers explores a wide range of science fiction and fantasy

writers and writings The contents and themes include a letter to Salvador Dali Mary Shelley and Frankenstein the Immanent Will and Olaf Stapledon the work of Philip K Dick Theodore Hamilton Sturgeon Orwell s Nineteen Eighty Four James Blish Culture Is it Worth Losing Your Balls For Wells and the Leopard Lady H P Lovecraft s The Music of Erich Zann Jekyll the differences between United States and United Kingdom fantasy Anna Kavan as Kafka s Sister Campbell s Soup Astounding Science Fiction under the editorship of John Wood Campbell science fiction s relationship to science and literature in general
