My Turn To Learn Colors:

My Turn Nancy Reagan, 2011-09-14 The former First Lady discusses her life the Reagan administration her shaky relationship with her children and key White House personnel her husband's involvement in the Iran Contra affair and her bout with cancer During our White House years I said almost nothing about how I really felt regarding the controversies that swirled around me But now those years are over and it's my turn to describe what happened About Ronald Reagan Although Ronnie loves people he often seems remote and he doesn't let anybody get too close There's a wall around him He lets me come closer than anyone else but there are times when even I feel that barrier About being a mother What I wanted most in all the world was to be a good wife and mother As things turned out I guess I've been more successful at the first than at the second About her influence I make no apologies for telling Ronnie what I thought Just because you're married doesn't mean you have no right to express your opinions For eight years I was sleeping with the president and if that doesn't give you special access I don't know what does About astrology What it boils down to is that each person has his or her own ways of coping with trauma and grief with the pain of life and astrology was one of mine Don't criticize me I wanted to say until you have stood in my place This helped me Nobody was hurt by it except possibly me About Don Regan His very first day on the job Don said that he saw himself as the chief operating officer of the country But he was hired to be chief of staff Although I believed for a long time that Donald Regan was in the wrong job my power in getting him to leave has been greatly exaggerated Believe me if I really were the dragon lady that he described in his book he would have been out the door many months earlier

The Problem of the Color Line at the Turn of the Twentieth Century W. E. B. Du Bois, 2014-12-03 Early essays from the sociologist displaying the beginnings of his views on politics society and Black Americans status in the United States This volume assembles essential essays some published only posthumously others obscure another only recently translated by W E B Du Bois from 1894 to early 1906 They show the first formulations of some of his most famous ideas namely the veil double consciousness and the problem of the color line Moreover the deep historical sense of the formation of the modern world that informs Du Bois's thought and gave rise to his understanding of the problem of the color line is on display here Indeed the essays constitute an essential companion to Du Bois's 1903 masterpiece *The Souls of Black Folk* The collection is based on two editorial principles presenting the essays in their entirety and in strict chronological order Copious annotation affords both student and mature scholar an unprecedented grasp of the range and depth of Du Bois's everyday intellectual and scholarly reference These essays commence at the moment of Du Bois's return to the United States from two years of graduate level study in Europe at the University of Berlin At their center is the moment of Du Bois's first full self reflexive formulation of a sense of vocation as a student and scholar in the pursuit of the human sciences in their still nascent disciplinary organization that is the institutionalization of a generalized sociology or general ethnology as they could be brought to bear on the study of the situation of the so called Negro question in the United States in all of its multiply

refracting dimensions They close with Du Bois's realization that the commitments orienting his work and intellectual practice demanded that he move beyond the institutional frames for the practice of the human sciences The ideas developed in these early essays remained the fundamental matrix for the ongoing development of Du Bois's thought The essays gathered here will therefore serve as the essential reference for those seeking to understand the most profound registers of this major American thinker A seminal contribution to the history of modern thought Compiled and edited by the world's preeminent scholar of early Du Boisian thought these texts represent his most generative period when Du Bois engaged every discipline helped construct modern social science employed critical inquiry as a weapon of antiracism and political liberation and always set his sites on the entire world We know this not by the essays alone but by Nahum Dimitri Chandler's brilliant original and quite riveting introduction If you are coming to Du Bois for the first time or the 500th time this book is a must read Robin D G Kelley author of *Freedom Dreams The Black Radical Imagination* *A Love for Learning* Carol Strip Whitney, Gretchen Hirsch, 2007 Gifted children are susceptible to many de motivating factors which can lead to depression and academic underachievement The authors present concepts and techniques to counteract those factors allowing a child's motivation to skyrocket Features the Four C's of Motivation 1 Creating Challenge 2 Creating Control 3 Creating Commitment and 4 Creating Compassion This new book includes additional resources books and websites for parents and teachers and a foreword by Dr Joanne Rand Whitmore Schwartz former dean of the College of Education Kent State University and author of the classic book *Giftedness Conflict and Underachievement* Following a foreword and a preface this book contains the following chapters 1 The Turn Off Effect 2 a 360 Motivation 3 Physical Reasons for Loss of Motivation 4 Emotional Reasons for Loss of Motivation 5 Social Reasons for Loss of Motivation 6 School Reasons for Loss of Motivation 7 The Four C's in Action 8 Creating Challenge 9 Creating Control 10 Creating Commitment 11 Creating Compassion 12 The Classroom that Works 13 Motivating Every Student Who's in the Classroom 14 Questions and Answers and 15 Parent to Parent a Story of Hope Endnotes Additional Resources for Parents and Teachers References Index and About the Authors are also included
