Mythologie Du Vampire En Roumanie:

La mythologie du vampire en Roumanie Adrien Créméné, Françoise Zemmam, 1981 [Petit dictionnaire de mythologie populaire roumaine](#) Ion Talos, 2019-03-28 la croise des mondes romans et slaves la Roumanie est l'extraordinaire conservatoire d'un imaginaire ancestral que reflètent mythes légendes et rituels Malgré la christianisation des faits et des personnages souvent transformés en saints le substrat préchrétien affleure en permanence En s'appuyant sur un vaste corpus de textes *Transylvanian Vampires* Adriana Groza, 2014-02-28 Authentic vampire tales exist in Transylvanian folklore yet the Transylvanian vampire is nothing like the bloodthirsty count of Bram Stoker's imagination or the romantic hero of popular fiction The Romanian tradition reflects the norms of peasant life and wisdom embedded in age old communities This book consists of 21 narratives developed from brief accounts recorded by local anthropologists and historians from the late 19th and early 20th centuries The goal is to capture the major themes found in the existing sources The book also includes translations of 17 brief folk stories about Vlad epe known as Dracula Contrary to the prevailing fictive image these stories portray Vlad as a wise although strict ruler and a proud defender of his country's autonomy An introduction discusses the Transylvanian village and its rich folk traditions making explicit the comparison to the historic and to the fictional Dracula

The Secret History of Vampires Claude Lecouteux, 2010-02-01 A look at the forgotten ancestors of the modern day vampire many of which have very different characteristics Looks at the many ancestral forms of the modern vampire including shroud eaters appesarts and stafi Presents evidence for the reality of this phenomenon from pre 19th century newspaper articles and judicial records Of all forms taken by the undead the vampire wields the most powerful pull on the modern imagination But the countless movies and books inspired by this child of the night who has a predilection for human blood are based on incidents recorded as fact in newspapers and judicial archives in the centuries preceding the works of Bram Stoker and other writers Digging through these forgotten records Claude Lecouteux unearths a very different figure of the vampire in the many accounts of individuals who reportedly would return from their graves to attack the living These ancestors of the modern vampire were not all blood suckers they included shroud eaters appesarts nightmares and the curious figure of the stafia whose origin is a result of masons secretly interring the shadow of a living human being in the wall of a building under construction As Lecouteux shows the belief in vampires predates ancient Roman times which abounded with lamia stirges and ghouls Discarding the tacked together explanations of modern science for these inexplicable phenomena the author looks back to another folk belief that has come down through the centuries like that of the undead the existence of multiple souls in every individual not all of which are able to move on to the next world after death [Roumanie et Bulgarie - Comprendre la Roumanie et Roumanie pratique](#) Lonely Planet, 2017-11-09 Ce chapitre Comprendre la Roumanie et Roumanie pratique est issu du guide consacré la destination Roumanie et Bulgarie Tous les chapitres sont disponibles et vendus séparément Vous pouvez également acheter le guide complet **Adrien Cremene, Mythologie du vampire en**
