 Review Test Scope Approved References Underground utility and excavation contractor means a contractor whose services
 are limited to the construction installation and repair on public or private property whether accomplished through open
 excavations or through other means including but not limited to directional drilling auger boring jacking and boring
 trenchless technologies wet and dry taps grouting and slip lining of main sanitary sewer collection systems main water
 distribution systems storm sewer collection systems and the continuation of utility lines from the main systems to a point of
 termination up to and including the meter location for the individual occupancy sewer collection systems at property line on
 residential or single occupancy commercial properties or on multioccupancy properties at manhole or wye lateral extended to
 an invert elevation as engineered to accommodate future building sewers water distribution systems or storm sewer
 collection systems at storm sewer structures However an underground utility and excavation contractor may install empty
 underground conduits in rights of way easements platted rights of way in new site development and sleeves for parking lot
 crossings no smaller than 2 inches in diameter if each conduit system installed is designed by a licensed professional
 engineer or an authorized employee of a municipality county or public utility and the installation of such conduit does not
 include installation of any conductor wiring or connection to an energized electrical system An underground utility and
 excavation contractor may not install piping that is an integral part of a fire protection system as defined in s 633 102
 beginning at the point where the piping is used exclusively for such system **Contractor's License Exam Prep** Mike L.
