

INSTALLATION AND OPERATING INSTRUCTIONS

Introduction

Thank you for purchasing Intermatic EJ500 Indoor Wall Switch Timer with Astronomic Feature. This timer can replace your regular or 3-way light switch (where two switches control the same light) to control incandescent and fluorescent lights. (See important notes.) You will need a Decora style wall plate with this timer (wall plate not included).

Features

- Automatic or manual operation. Push the control cover to switch ON or OFF at any time.
- Program up to 7 ON/OFF setting pairs.
- Automatic Daylight Savings Time (DST) option.
- Multiple daily settings options:
 - o All days of the week
 - o Individual days of the week
 - o 5 weekdays
 - o 2 weekend days
- LCD digital clock and readout.
- Random feature automatically varies switching times for a "lived-in" look.
- Two SR44/LR44 batteries keep time for up to 3 months, of power interruption.
- Built-in memory holds settings indefinitely without battery.

Installation Instructions - Single Switch or 3-way - to replace an existing switch:

1. TURN OFF POWER by REMOVING FUSE or turning the CIRCUIT BREAKER OFF.
2. Remove the existing wall switch.

Single switch:

3. Connect one of the building wires to the black wire from the timer, using the wire nuts provided. Connect the other building wire to the blue wire from the timer. THE RED TIMER WIRE IS NOT USED FOR SINGLE SWITCH INSTALLATIONS. Cap the red wire with a wire nut. BE SURE THAT ALL THE WIRE NUTS ARE SECURE.

3-way switch: (See "Other Installations" if switching from 3 or more locations)

3a. A three way switch has three wires connected to it. One of the wires is "common" (the terminal has a different colored screw or there are markings on the old switch). Connect the Black wire from the timer to the common wire. Connect the other two wires to the Blue and Red wires from the timer (it doesn't matter which goes to which.)

3b. Identify the "common" terminal at the other (remote 3-way) switch. Connect the supplied jumper wire from the common terminal to one of the other two terminals of the switch. (If the light does not turn on when you get to step 6, turn power off at the fuse or circuit breaker and switch the jumper wire to the other terminal.)

4. Tuck the wires into the wall box leaving room for the timer.
5. Using the screws provided, mount the timer to the wall box then install the wall plate.

After display starts flashing "12:00 AM", press the "NEXT/ON/OFF" button. The display should switch between ON and OFF. Your timer is now ready to set.

Ratings

500W single gang or 2 gang installations (40W minimum)
4A Tungsten (Incandescent)
4A Ballast (Inductive)
120VAC, 60 Hz
Operating Temperature: 0 deg C - +40 deg C.

IMPORTANT NOTES:

- This switch is suitable for use in up to 2 gang installations.
- EJ500 is designed to operate standard incandescent light bulbs or (thermally protected Class P ballast) fluorescent lighting ONLY.
- The switch can handle a minimum load totaling 40 Watts.
- This device is NOT TO BE USED to operate MERCURY VAPOR LIGHTS, APPLIANCES, RADIOS, TV's, STEREO's, etc.
- Separate dimmers and photoelectric switches cannot be used in combination with your timer.
- It is recommended that your timer not be used with PAR or "R" type outdoor flood lamps or lamps larger than 150 watts, since currents generated during lamp burn-out could damage the timer.

Battery Replacement

The two LR44/SR44 batteries maintain the time of day clock and the calendar during power interruptions, for up to 3 months of accumulated interruptions. All the other settings will remain in memory indefinitely without batteries or AC power. Remove the batteries if the timer will be without AC power for an extended time. Replace the batteries if the display is dim or the message "BATT" is displayed. The batteries may be safely changed without removing AC power. If AC power is removed, please change batteries within 15 seconds to avoid losing your time of day setting. Remove the battery holder by prying at either finger hole, left and right of holder. Insert the new batteries into the holder as marked inside holder. Re-install holder with the push down. If the display is flashing 12:00 AM, reset the time and check the date settings. The "BATT" message will disappear within 10 seconds of installing new good batteries.
