In relation to this, the book offers details of the Indian space program including its military space ambitions and provides information about Pakistan's objectives in space. It offers an overview of challenges to international space governance and how the structural flaws help states to aggressively follow a path toward space weaponization. Additionally, it discusses the UN negotiating arms control measures in space and the politics of states not to negotiate prevention of an arms race in outer space. The book is a useful contribution to space security from both traditional and contemporary approaches covering history, theory, and application.
