*Outlawry, Governance, and Law in Medieval England* Melissa Sartore, 2013 *Outlawry Governance and Law in Medieval England* evaluates the role of exclusionary practices namely outlawry in law and governance in England from the tenth through the thirteenth centuries This book is essential reading for scholars in this field but also highly recommended for courses that assess medieval law and the practice of outlawry as well as the development of English Common Law

*Wolves in Beowulf and Other Old English Texts* Elizabeth Marshall, 2022 A fresh and sympathetic investigation of the depiction of wolves in early medieval literature recuperating their reputation The best known wolves of Old English literature are the Beasts of Battle alongside ravens and eagles as ravenous heralds of doom who haunt the battlefield in the hope of fresh meat plucked from still warm bodies Yet to reduce these animals to mere corpse scavengers is to deny that they are frequently imbued with a variety of far more nuanced meanings elsewhere in the corpus Two such meanings are inherited from ancient and medieval European lupine motifs the superstition that the wolf could steal a person's speech and the perceived contiguous natures of wolves and human outlaws Tracing the history of these associations and the evidence to suggest that they were known to writers working in early medieval England this book provides new animal centric readings of Wulf and Eadwacer Abbo of Fleury and Irfic's Passiones Eadmundi and Beowulf placing these texts within a lupine literary network that transcends time and place By exploring the intricate contradictory and even sympathetic depictions of the wolves and wolf like entities found within these texts this book banishes all notions of the medieval wolf as the one dimensional man eating creature that it is so often understood to be 2013 Massimo Mastrogregori, 2017-11-20 Every year

the Bibliography catalogues the most important new publications historiographical monographs and journal articles throughout the world extending from prehistory and ancient history to the most recent contemporary historical studies Within the systematic classification according to epoch region and historical discipline works are also listed according to author's name and characteristic keywords in their title *The Ecology of the English Outlaw in Medieval Literature* Sarah Harlan-Haughey, 2016-03-31 Arguing that outlaw narratives become particularly popular and poignant at moments of national ecological and political crisis Sarah Harlan Haughey examines the figure of the outlaw in Anglo Saxon poetry and Old English exile lyrics such as Beowulf works dealing with the life and actions of Hereward the Anglo Norman romance of Fulk Fitz Waryn the Robin Hood ballads and the Tale of Gamelyn Although the outlaw's wilderness shelter changed dramatically from the menacing fens and forests of Anglo Saxon England to the bright known and mapped greenwood of the late outlaw romances and ballads Harlan Haughey observes that the outlaw remained strongly animalistic other and liminal His brutality points to a deep literary ambivalence towards wilderness and the animal at the same time that figures such as the Anglo Saxon resistance fighter Hereward the brutal yet courtly Gamelyn and Robin Hood often represent a lost England imagined as pristine and forested In analyzing outlaw literature as a form of nature writing Harlan Haughey suggests that it

often reveals more about medieval anxieties respecting humanity's place in nature than it does about the political realities of the period

*Legalism* Fernanda Pirie, Judith Scheele, 2014-08-01 Community and justice recur in anthropological historical and legal scholarship yet as concepts they are notoriously slippery. Historians and lawyers look to anthropologists as community specialists but anthropologists often avoid the concept through circumlocution although much used and abused by historians, legal thinkers and political philosophers the term remains strikingly indeterminate and often morally overdetermined. Justice meanwhile is elusive alternately invoked as the goal of contemporary political theorizing and wrapped in obscure philosophical controversy. A conceptual knot emerges in much legal and political thought between law, justice and community but theories abound without any agreement over concepts. The contributors to this volume use empirical case studies to unpick threads of this knot. Local codes from Anglo-Saxon England, north Africa and medieval Armenia indicate disjunctions between community boundaries and the subjects of local rules and categories. Processes of justice from early modern Europe to eastern Tibet suggest new ways of conceptualizing the relationship between law and justice and practices of exile that recur throughout the world illustrate contingent formulations of community. In the first book in the series *Legalism: Anthropology and History* law was addressed through a focus on local legal categories as conceptual tools. Here this approach is extended to the ideas and ideals of justice and community. Rigorous cross-cultural comparison allows the contributors to avoid normative assumptions while opening new avenues of inquiry for lawyers, anthropologists and historians alike.

*From England to France* William Chester Jordan, 2017-06-06 At the height of the Middle Ages a peculiar system of perpetual exile or abjuration flourished in western Europe. It was a judicial form of exile, not political or religious, and it was meted out to felons for crimes deserving of severe corporal punishment or death. *From England to France* explores the lives of these men and women who were condemned to abjure the English realm and draws on their unique experiences to shed light on a medieval legal tradition until now very poorly understood. William Chester Jordan weaves a breathtaking historical tapestry examining the judicial and administrative processes that led to the abjuration of more than seventy-five thousand English subjects and recounting the astonishing journeys of the exiles themselves. Some were innocents caught up in tragic circumstances but many were hardened criminals. Almost every English exile departed from the port of Dover, many bound for the same French village, a place called Wissant. Jordan vividly describes what happened when the felons got there and tells the stories of the few who managed to return to England, either illegally or through pardons. *From England to France* provides new insights into a fundamental pillar of medieval English law and shows how it collapsed amid the bloodshed of the Hundred Years War.

*Hospitality and World Politics* Gideon Baker, 2013-02-07 A long neglected concept in the field of international relations and political theory, hospitality provides a new framework for analysing many of the challenges in world politics today, from the search for peaceable relations between states to asylum and refugee crises.

*From Bilateralism to Community Interest* Ulrich Fastenrath, 2011 This festschrift dedicated to Judge

Bruno Simma traces the development of international law from regulating bilateral state to state relationships towards strengthening the entire international community by protecting human security the global environment and human rights It provides both theoretical and practical insights into these sometimes conflicting goals their basis in international law and the role played by international institutions charged with upholding these values and interests The work thus examines the mechanism by which international law contributes to the realization not only of individual State interests but the interests of the international community as a whole From this vantage point it looks at the various functions that international law fulfills in the international community from law making and institution building towards adjudication and the securing of human rights Taken together the contributions to this book paints a detailed but nevertheless comprehensive picture of the realization of community interest in contemporary international law As professor and judge Bruno Simma has contributed to all of these tasks providing ground breaking theoretical work serving in the International Law Commission and in the Committee for Economic Social and Cultural Rights and finally as a judge at the International Court of Justice in The Hague The three introductory chapters express this unity of life and work

**Excommunication in Thirteenth-Century England**  
Felicity Hill, 2022-05-12 Excommunication was the medieval church's most severe sanction used against people at all levels of society It was a spiritual social and legal penalty Excommunication in Thirteenth Century England offers a fresh perspective on medieval excommunication by taking a multi dimensional approach to discussion of the sanction Using England as a case study Felicity Hill analyzes the intentions behind excommunication how it was perceived and received at both national and local level the effects it had upon individuals and society The study is structured thematically to argue that our understanding of excommunication should be shaped by how it was received within the community as well as the intentions of canon law and clerics Challenging past assumptions about the inefficacy of excommunication Hill argues that the sanction remained a useful weapon for the clerical elite bringing into dialogue a wide range of source material allows effectiveness to be judged within a broader context The complexity of political communication and action are revealed through public conflicting accepted and rejected excommunications Excommunication could be manipulated to great effect in political conflicts and was an important means by which political events were communicated down the social strata of medieval society Through its exploration of excommunication the book reveals much about medieval cursing pastoral care fears about the afterlife social ostracism shame and reputation and mass communication
