Tracey, Lesley Mandel Morrow, 2024-05-31

Now in a revised and updated fourth edition incorporating current advances in research and instructional practices, this well-established text accessibly introduces prominent theories and models related to reading. The book is organized chronologically from classical approaches to contemporary cognitive, social, learning, physiological, and affective perspectives. It emphasizes that the more lenses educators possess for examining reading processes, the better equipped they will be to understand and facilitate children's literacy development. Pedagogical features include framing and discussion questions, learning activities, teacher anecdotes, and examples of how each model is applied in classroom practice and research. New to This Edition: Chapter on digital literacy; Expanded discussions of direct/explicit instruction, social and emotional learning, critical literacy theory, critical race theory, culturally responsive teaching, social equity and justice, the science of reading, and neuroscientific lenses. All chapters updated with the latest research; many new classroom anecdotes added; Links to recommended YouTube videos illustrating the theories and models. Identification and Evaluation of Learning Disabilities Evelyn S. Johnson, Anne B. Clohessy, 2014-06-19. Ensure that your students have the support they need. When it comes to designing instruction for students with learning disabilities, one size does not fit all, and that's also true for identifying and evaluating learning disabilities. Theories and legislation aside, it's critical for your school team to have a comprehensive plan to make sure every child gets the right kind of attention and no one falls through the cracks. This compelling, easy-to-use handbook guides general educators, special educators, administrators, and school psychologists through the eligibility and evaluation stages to ensure that students get the best services and interventions they need to be successful. You'll find Guidance on what data to collect and how to collect it; Strategies for combining RTI with a comprehensive evaluation to diagnose SLD; Detailed case studies with graphs, figures, and test scores at the school, classroom, and individual student level. Everyone on your team has the same goal: to help students with learning challenges achieve success. This comprehensive resource has the tools you need to make that happen. This book reminds educators that we are responsible for all of our students. When students are not making the progress we expect, this text offers very specific, practical suggestions that educators can follow. This book helps to identify if a student has a specific learning disability and offers suggestions for addressing the student's difficulty through a team approach. When using the case studies, teachers will

see many examples related to their own students and find new resources to try in their classrooms that will assist those who are having difficulty making significant progress Marcia B Imbeau Professor University of Arkansas
