Cognitive Approaches to Tense, Aspect, and Epistemic Modality Adeline Patard, Frank Brisard, 2011 This volume addresses problems of semantics regarding the analysis of tense and aspect TA markers in a variety of languages including Arabic Croatian English French German Russian Thai and Turkish Its main interest goes out to epistemic uses of such markers whereby epistemic modality is understood as indicating a degree of compatibility between the modal world and the factual world Declerck All contributions moreover tackle these problems from a more or less cognitive point of view with some of them insisting on the need to provide a unifying explanation for all usage types temporal and non temporal and all of them accepting the premise that the semantics of TA categories essentially refers to subjective rather than objective concerns The volume also represents one of the first attempts to gather accounts of TA marking in various languages that are explicitly set within the framework of Cognitive Grammar Ultimately this volume aims to contribute to establishing an awareness that modal meaning elements are directly relevant to the analysis of the grammar of time

The modal verbs can and may in English and Spanish Andra Stefanescu, 2008-05-28 Diploma Thesis from the year 2007 in the subject English Language and Literature Studies Linguistics grade 1 University of Bucharest Faculty of Foreign Languages and Literatures language English abstract Modality is a semantic concept that covers notions such as possibility probability permission ability volition necessity and obligation The class of modals is in many languages both syntactically and semantically highly irregular and unpredictable modals frequently have idiosyncratic conjugational patterns and are subject to highly specialized syntactic rules One of the main characteristics of modal verbs is their relatively imprecise and indeterminate meaning their ambiguity the same modal can be deontic i.e. based on rules and regulations but it may also involve processes sets of knowledge or belief systems and thus get an epistemic interpretation In order to define the class of modals or to provide a set of environments in which a modal may be correctly or appropriately used one must refer to many levels of language the purely syntactic environment as well as the logical structure the context of the utterance the assumptions that are shared by the speaker and the addressee

the social situation assumed by the participants in the discourse the impression the speaker wants to make on the addressee and so on There is also the question of the appropriate context environments that is the semantic pragmatic issue Therefore a complete analysis of a particular modal can only be achieved by looking both at its syntactic features and at its semantic structure in other words the syntax of a modal verb is based on its semantics and these two dimensions are inseparable
