

This manual "The Procedures in Veterinary Protozoology" has been designed for the Veterinary undergraduates pursuing for the degree of Bachelor of Veterinary Medicine (BVMed). This manual will help the students to perform practical work not only in the classes but also in their practical works in the field as well. An attempt has been made to fulfill all the modern requirements of the Procedures in Veterinary Protozoology but still there is paucity of knowledge and literature regarding the understanding of protozoa, their staining technique, their prevalence, location in body tissues and processing. This manual will be helpful to the field Veterinarians (who are facing a lot of problems in diagnosing the protozoan diseases of animals), to the Graduates, to the Researchers and to the students of Veterinary Sciences.
