

Type I Trauma: Criminal Victimization

- Psychology of victimization:
 - Several layers property crime hurts a person at outer most level of the self; armed robbery invades a deeper level of the self due to direct contact with the robber and threatens physical harm; assault and battery injures the victim deeper physically and psychologically
- Rape goes to the core of the person and causes a loss of sense of safety and intimacy that sexual contact is supposed to have & impacts victim's basic beliefs, values, emotions and sense of safety
- Society response to crime victim may determine how supported or abandoned victim feels which impacts psychological responses to the event

Encyclopedia of Victimology and Crime Prevention Bonnie S. Fisher, Steven P. Lab, 2010-02-02 Victimology and crime prevention are growing interrelated areas cutting across several disciplines Victimology examines victims of all sorts of criminal activity from domestic abuse to street violence to victims in the workplace who lose jobs and pensions due to malfeasance by corporate executives Crime prevention is an important companion to victimology because it offers insight and techniques to prevent situations that lead to crime and attempts to offer ideas and means for mitigating or minimizing the potential for victimization In many ways the two fields have developed along parallel yet separate paths and the literature on both has been scattered across disciplines as varied as sociology law and criminology public health and medicine political science and public policy economics psychology and human services and more The Encyclopedia of Victimology and Crime Prevention provides a comprehensive reference work bringing together such dispersed knowledge as it outlines and discusses the status of victims within the criminal justice system and topics of deterring and preventing victimization in the first place and responding to victims needs Two volumes containing approximately 375 signed entries provide users with the most authoritative and comprehensive reference resource available on victimology and crime prevention both in terms of breadth and depth of coverage In addition to standard entries leading scholars in the field have contributed Anchor Essays that in broad strokes provide starting points for investigating the more salient victimology and crime prevention topics A representative sampling of general topic areas covered includes interpersonal and domestic violence child maltreatment and elder abuse street violence hate crimes and terrorism treatment of victims by the media courts police and politicians community response to crime victims physical design for crime prevention victims of nonviolent crimes deterrence and prevention helping and counseling crime victims international and comparative perspectives and more

Social and Psychological Consequences of Violent Victimization R. Barry Ruback, Martie P. Thompson, 2001-05-23 The book achieves its goal of encouraging the reader to think broadly about how the consequences of violent victimization can be measured understood and prevented The authors also achieve their goal of

emphasizing the need for multiple research methods and multiple theoretical perspectives for understanding the effects and implications of violent crime. The book would certainly be a useful resource for students studying psychology or criminology and is likely to be of interest to professionals who work with victims of violent crime.

CRIME PREVENTION AND COMMUNITY SAFETY AN INTERNATIONAL JOURNAL

What are the effects that violent crime has on our everyday lives both in terms of the individual victims and their larger community? This unique text draws from both the fields of criminology and psychology to provide a comprehensive examination of the two major areas that are most significantly effected by violent crime: the crime victims themselves and the larger sphere of their families, friends, neighborhoods, and communities. Beginning with a discussion of how we measure and study violent victimization, the authors, R. Barry Ruback and Martie P. Thompson, look at the immediate and long-term impact violent acts have upon the direct victims. *Social and Psychological Consequences of Violent Victimization* examines secondary victims: family members, neighbors, friends, and the professional involved with investigating and prosecuting the crime and helping the victim, and also the impacts of violent crime on neighborhoods and communities. The authors conclude with recommendations of effective interventions that can be made at the levels of the individual, the community, and the criminal justice and mental health systems. This book's one-of-a-kind focus on both the psychological and social impact of crime makes it an invaluable supplementary text for criminal justice and criminology courses dealing with victimization, violent crimes, and the criminal justice process. The book will also interest professionals in victim services, crime prevention, criminal justice, and social work.

Sleep and Quality of Life in Clinical Medicine Joris C. Verster, S. R. Pandi-Perumal, David L. Streiner, 2008-02-20. Many patients experience sleep disturbances secondary to their primary illness, and this often has a negative effect on their quality of life. This book provides an evidence-based introduction to the interface between sleep and a wide range of medical disorders. A clinically focused comprehensive review for physicians and other health providers, this state-of-the-art reference can also serve as a textbook for those who wish to become familiar with the impact of sleep on quality of life.

The Psychology of Teen Violence and Victimization Michele A. Paludi, 2011-10-20. This compilation of original essays does more than just illuminate the serious problem of teen violence and victimization; it also provides resources that parents and teachers can use to address issues of violence with their teens and make a difference. While it is widely known that hate crimes represent a serious issue among today's adolescent population, most parents and perhaps even some educators may be unaware that gender-based violence is the most prevalent type of hate crime committed by and experienced by teens, and that adolescent girls are exposed to more violence than boys. A complete understanding of the nature of the problem is fundamental to curtailing problems like cyberbullying and sexual harassment. *The Psychology of Teen Violence and Victimization* is a two-volume set that fills a gap in the current literature on teen violence by addressing the incidence, psychological explanations, and impact of all forms of teen violence. The author, a psychologist who has focused upon interpersonal problems centered on violence, harassment, and gender, provides in depth

discussion of the various types of violence committed by and against teens The set offers actionable prevention strategies for parents and teachers as well as individuals involved in community programs Special attention is given to the impact of violence on adolescents emotional and physical health interpersonal relationships career development and self concept

Crime Victims Basia Spalek, 2017-09-16 From white collar to environmental crime and hate crime to sexual violence the study of victims and of the processes of victimisation is indispensable to understanding the full scale of the effects of crime in society In this book Basia Spalek offers a theoretically detailed and empirically rich account of how victimology has developed into a field that transcends academic disciplines and brings together researchers practitioners activists and community members This second edition of *Crime Victims* continues to be a comprehensive and up to date overview of the historical social political and cultural issues and trends in approaches to victims and victimisation It introduces victimological theory explores the impacts of crime on victims and the challenges involved in developing victim support services In addition acknowledging the increasing recognition of trauma as central to understanding victimisation it includes a therapeutic toolkit for victims offenders and practitioners working in and with the criminal justice system With Cutting Edge Research and Case Study sections added at the end of each chapter to highlight victimology as a vibrant and continuously developing field *Crime Victims* is an essential resource to a broad audience ranging from students of victimology criminology and sociology to practitioners and professionals

Victims of Crime and the Victimization Process McShane, 2013-12-16 Volume 6 in the 6 volume series titled *Criminal Justice Contemporary Literature in Theory and Practice* This compilation of articles attempts to fill gaps in existing resources with some of the best current statements on the topic Subjects include the characteristics of victims the effects of crime on victims and some contemporary theories of victimization Also included are evaluations of a variety of victim oriented policies and programs such as victim assistance peace making and victim impact statements This title will be of great utility to students scholars and others with interests in the literature of criminal justice and criminology

Hate Crimes Phyllis B. Gerstenfeld, 2017-03-31 The Fourth Edition of *Hate Crimes Causes Controls and Controversies* by Phyllis B Gerstenfeld takes a multidisciplinary approach that allows students to explore a broad scope of hate crimes Drawing on recent developments topics and current research this book examines the issues that foster hate crimes while demonstrating how these criminal acts impact individuals as well as communities Students are introduced to the issue through first person vignettes offering a more personalized account of both victims and perpetrators of hate crimes Packed with the latest court cases research and statistics from a variety of scholarly sources the Fourth Edition is one of the most comprehensive and accessible textbooks in the field

Social Psychology of Punishment of Crime Margit E. Oswald, Steffen Bieneck, Jorg Hupfeld-Heinemann, 2015-06-15 In recent years research interest has increased both in the needs of punishment by the public and in the psychological processes underlying decisions on sentencing This comprehensive look at the social psychology of punishment focuses on recent advances and presents new findings based on

the authors own empirical research Chapters explore the application of social psychology and social cognitive theories to decision making in the context of punishments by judges and the punitiveness of laymen The book also highlights the different legal systems in the UK US and Europe discussing how attitudes to punishment can change in the context of cultural and social development
