Zeit Professor an der New York University hat einen etablierten Ruf als international führender Architekturhistoriker Seine umfassende Perspektive macht das Buch zu einer verlässlichen Einführung in das Werk Mies van der Rohes **The Barcelona Pavilion by Mies van der Rohe** Dietrich Neumann, 2020-12-07 While Mies van der Rohe's pavilion at the International Exposition in Barcelona in 1929 went unnoticed by most of the visitors to the fairgrounds contemporary critics enthusiastically hailed it as the most convincing statement of the Modern Age This book presents 100 selected texts about this much discussed building written then and now from the opening speech by the Spanish king to newspaper articles and private letters voices of contemporary architects architecture critics and historians and even a text by artist Ai Weiwei who created an installation in the outdoor area of the pavilion in 2010 Thus the history of this building's reception depicts a dazzling picture and inconceivable breadth including statements by such eminent authors as Frank Lloyd Wright Leonardo Benevolo Rem Koolhaas Peter Eisenman **Building Desire** George Dodds, 2005 Building Desire considers the Barcelona Pavilion completed in 1986 its forerunner the German Pavilion of 1929 looks at the work of Ludwig Mies van der Rohe It examines in detail the role of photography in architecture its continuing influence Situate, Manipulate, Fabricate Chad Schwartz, 2020-08-25 This anthology of selected works outlines three critical instigators of architecture all tied directly to the tectonic makeup of our built environment place material and assembly These catalysts provide the organizational framework for a collection of essays discussing their significant influence on the processes of architectural design and construction With content from a diverse collection of notable architects historians and scholars this book serves as a theoretical structure for understanding the tectonic potential of architecture Each chapter is thematically driven consisting of a pair of essays preceded by an introduction highlighting the fundamental issues at hand and comparing and contrasting the points of view presented Situate Manipulate Fabricate offers an opportunity to explore the essential topics that affect the design and construction as well as the experiential qualities of our built environment **An Accidental Masterpiece** Dietrich Neumann, 2020-12-07 The Complex History of a Building With the temporary exhibition pavilion of the German Reich at the 1929 International Exposition in Barcelona Mies van der Rohe designed an architectural icon but also a controversial monument of the way the Weimar Republic portrayed itself The building is one of the most unusual success stories in the history of architecture Despite its short existence its reputation grew steadily in the following decades thanks in part to magnificent photographs It was soon considered the constructed manifesto of the Modern Age and its spatial and ideational ambitions were called a milestone of Modern architecture This comprehensively broadly researched book portrays the building's complex history and its political entanglement up to and including its reconstruction according to van der Rohe's plans at the original site between 1983 and 1986 Presumably the most important and influential architectural icon of the 20th century uniquely documented and depicted On the occasion of the 50th anniversary of Mies' death and the Bauhaus centenary Many never before published photographs from archives in the US Germany and Spain *Twenty-Five+*
