Pragmatism, Democracy, and the Necessity of Rhetoric Robert Danisch, 2007 Examines the search by America's first generation of pragmatists for a unique set of rhetorics that would serve the needs of a developing democracy Analyzing pragmatism's historical development this book provides information on its association with an alternative but significant and often overlooked tradition     *Exploring Argumentative Contexts* Frans H. Van Eemeren, Frans Hendrik Eemeren, Bart Garssen, 2012 In *Exploring Argumentative Contexts* Frans H van Eemeren and Bart Garssen bring together a broad variety of essays examining argumentation as it occurs in seven communicative domains the political context the historical context the legal context the academic context the medical context the media context and the financial context These essays are written by an international group of argumentation scholars consisting of Corina Andone Sarah Bigi Robert T Craig Justin Eckstein Frans H van Eemeren Norman Fairclough Eveline Feteris Gerd Fritz Bart Garssen Kara Gilbert Thomas Gloning G Thomas Goodnight Dale A Herbeck Darrin Hicks Thomas Hollihan Jos Hornikx Isabela Ietcu Fairclough G bor Kutrov tz Maurizio Manzin Davide Mazzi Dima Mohammed Rudi Palmieri Angela G Ray Patricia Riley Robert C Rowland Peter Schulz Karen Tracy and Gergana Zlatkova     *Annual Bibliography of English Language and Literature* Modern Humanities Research Association, 2007 Includes both books and articles     **Cataloging and Classification** Athena Salaba, Lois Mai Chan, 2023-07-24 The new edition of this essential work has raised the bar on an already excellent text about cataloguing Library Journal Starred Review The fifth edition of the classic *Cataloging and Classification* covers the analysis and representation of methods used in describing organizing and providing access to resources made available in or through libraries Since the last edition there have been new developments in cataloging with the introduction of the IFLA Library Reference Model LRM and the new official RDA following the 3R Project This text presents the essence of library cataloging and classification in terms of four basic functions descriptive cataloging authority work subject access and classification Within this framework content has been re organized all chapters have been rewritten and new chapters have been introduced to incorporate the changes that have occurred during the interval between the fourth and fifth editions In each part the historical development and underlying principles of the retrieval mechanism at issue are treated first because these are considered essential to an understanding of cataloging and classification Discussion and examples of provisions in the standards and tools are then presented to illustrate the operations covered in each chapter Divided into seven parts a general overview record production and structure encoding formats and metadata records RDA original and official subject access and controlled vocabularies the organization of library resources encoding and cataloging ethics this book includes lists of the standards and tools used in the preparation and processing of cataloging records covered lists of RDA elements and sample records Its companion website with interactive learning activities and supplementary materials located at [catclassintro.org](http://catclassintro.org) make it a true multimedia tool     **MLA International Bibliography of Books and Articles on the**

**Modern Languages and Literatures** ,2007      Modern Rhetoric in Culture, Arts, and Media Joachim Knape,2012-12-19

The goal of this book is to formulate a modern theoretical approach for rhetorical studies in a variety of disciplines in the humanities media research and other cultural studies The discipline of rhetoric originally concerned itself with linguistic forms of communication and its basic theory was developed with such cases in mind With respect to this ancient tradition there are numerous books that provide a historical overview of the field There is also a wide array of introductory works and research contributions that deal with the practice of political rhetoric On the other hand only a few 20th century academics have attempted to theoretically rehabilitate rhetoric after its decline as an academic discipline in Europe in the 18th and 19th centuries and to give rhetorical theory a modern new and further reaching perspective Two notable examples have been Kenneth Burke and Brian Vickers The book begins with the assumption that rhetoric is not merely limited to linguistic action but rather is present everywhere in the communicative world Against this background this work develops a modern theory of rhetoric and demonstrates in twelve chapters how methodical rhetorical analysis can be done in selected practical fields of application Literature Music Images and Film      *Where the Sacred and Secular Harmonize* David G. Holmes,2017-11-13

Among pivotal historical moments in the United States the civil rights movement stands out In *Where the Sacred and Secular Harmonize* Birmingham Mass Meeting Rhetoric and the Prophetic Legacy of the Civil Rights Movement David G Holmes offers an original rhetorical analysis of six speeches delivered during the 1963 civil rights campaign in Birmingham Alabama Holmes frames his analysis within the biblical concept of prophecy However he stresses the idea of prophecy as sociopolitical forth telling rather than mystical foretelling Based on his own transcriptions from rare recordings Holmes examines how these orations which clergy and laypeople delivered address enduring themes such as the role of religion and politics black leadership and black activism and the political and popular legacies of the civil rights movement Drawing upon American history politics hermeneutics homiletics and rhetoric Holmes s discussion ranges from civil rights prophets to contemporary politicians including Martin Luther King Jr and Barack Obama *Where the Sacred and Secular Harmonize* illustrates how the Birmingham mass meeting oratory of 1963 represented a quality of democratic discourse desperately needed today      **The**

**Democratic Ethos** A. Freya Thimsen,2022-06-08 A multidisciplinary analysis of the lasting effects of the Occupy Wall Street protest movement What did Occupy Wall Street accomplish While it began as a startling disruption in politics as usual in *The Democratic Ethos* Freya Thimsen argues that the movement s long term importance rests in how its commitment to radical democratic self organization has been adopted within more conventional forms of politics Occupy changed what counts as credible democratic coordination and how democracy is performed as demonstrated in opposition to corporate political influence rural antifracking activism and political campaigns By comparing instances of progressive politics that demonstrate the democratic ethos developed and promoted by Occupy and those that do not Thimsen illustrates how radical and conventional rhetorical strategies can be brought together to seek democratic change Combining insights from rhetorical

studies performance studies political theory and sociology The Democratic Ethos offers a set of conceptual tools for analyzing anticorporate democracy movement politics in the twenty first century

**Environmental Communication and Community** Tarla Rai Peterson, Hanna Ljunggren Bergeå, Andrea M. Feldpausch-Parker, Kaisa Raitio, 2016-04-28 As society has become increasingly aware of environmental issues the challenge of structuring public participation opportunities that strengthen democracy while promoting more sustainable communities has become crucial for many natural resource agencies industries interest groups and publics The processes of negotiating between the often disparate values held by these diverse groups and formulating and implementing policies that enable people to fulfil goals associated with these values can strengthen communities as well as tear them apart This book provides a critical examination of the role communication plays in social transition through both construction and destruction of community The authors examine the processes and practices put in play when people who may or may not have previously seen themselves as interconnected communicate with each other often in situations where they are competing for the same resources Drawing upon a diverse selection of case studies on the American Asian and European continents the chapters chart a range of approaches to environmental communication including symbolic construction modes of organising and agonistic politics of communication This volume will be of great interest to researchers teachers and practitioners of environmental communication environmental conflict community development and natural resource management

**Trained Capacities** Brian Jackson, Gregory Clark, 2014-01-07 A collection examining Dewey s influence on effective communication in a healthy democratic practice The essays in this collection written by sixteen scholars in rhetoric and communications studies demonstrate American philosopher John Dewey s wide ranging influence on rhetoric in an intellectual tradition that addresses the national culture s fundamental conflicts between self and society freedom and responsibility and individual advancement and the common good Editors Brian Jackson and Gregory Clark propose that this influence is at work both in theoretical foundations such as science pragmatism and religion and in Dewey s debates with other public intellectuals such as Jane Addams Walter Lippmann James Baldwin and W E B Du Bois Jackson and Clark seek to establish Dewey as an essential source for those engaged in teaching others how to compose timely appropriate useful and eloquent responses to the diverse and often contentious rhetorical situations that develop in a democratic culture They contend that there is more at stake than instruction in traditional modes of public discourse because democratic culture encompasses a variety of situations private or public civic or professional where people must cooperate in the work of advancing a common project What prepares people to intervene constructively in such situations is instruction in those rhetorical practices of democratic interaction that is implicit throughout Dewey s work Dewey s writing provides a rich framework on which a distinctly American tradition of a democratic rhetorical practice can be built a tradition that combines the most useful concepts of classical rhetoric with those of modern progressive civic engagement Jackson and Clark believe Dewey s practice takes

rhetoric beyond the traditional emphasis on political democracy to provide connections to rich veins of American thought such as individualism liberalism progressive education collectivism pragmatism and postindustrial science and communication They frame Dewey s voluminous work as constituting a modern expression of continuing education for the trained capacities required to participate in democratic culture For Dewey human potential is best realized in the free flow of artful communication among the individuals who together constitute society The book concludes with an afterword by Gerard A Hauser College Professor of Distinction in the Department of Communication at the University of Colorado Boulder
