**Santo Davide Ferrara, Rafael Boscolo-
Berto, Guido Viel**

Praxis I Praxis I Wed:

Handbook of Feminist Family Studies Sally A. Lloyd, April L. Few, Katherine R. Allen, 2009-04-14 The Handbook of Feminist Family Studies presents the important theories methodologies and practices in feminist family studies The editors showcase feminist family scholarship providing both a retrospective and a prospective overview of the field and creating a scholarly forum for interpretation and dissemination of feminist work

Handbook of Feminist Research Sharlene Nagy Hesse-Biber, 2012 The second edition of the Handbook of Feminist Research Theory and Praxis presents both a theoretical and practical approach to conducting social science research on for and about women The Handbook enables readers to develop an understanding of feminist research by introducing a range of feminist epistemologies methodologies and methods that have had a significant impact on feminist research practice and women s studies scholarship The Handbook continues to provide a set of clearly defined research concepts that are devoid of as much technical language as possible It continues to engage readers with cutting edge debates in the field as well as the practical applications and issues for those whose research affects social policy and social change It also expands on the wealth of interdisciplinary understanding of feminist research praxis that is grounded in a tight link between epistemology methodology and method The second edition of this Handbook will provide researchers with the tools for excavating subjugated knowledge on women s lives and the lives of other marginalized groups with the goals of empowerment and social change

The Materiality of Lake Kariba Joshua Matanzima, 2024-06-11 This book is an exploration of one of the world s largest man made reservoirs Lake Kariba created along the Zambezi River in central Africa Originally built for electricity generation as the lake reached its full capacity in 1963 it attracted other socioeconomic activities such as tourism recreation fisheries and conservation The material properties of the waterscape including waves strong winds water volumes deities and aquatic species have shaped these socioeconomic activities since its creation Community interpretations of the reservoir feature stories of fear death income generation livelihoods illegal cross border trade religion and everyday conflicts with wild animals Drawing on extended ethnographic research and the author s personal experience growing up around Lake Kariba this empirically rich book provides a nuanced discussion of the ways in which the waterscape shapes people s lives and livelihoods Additionally the book explores the challenges of sustaining and preserving Lake Kariba s unique ecosystem amidst environmental pressures and competing demands for resources Readers will gain a nuanced perspective of the significance of the lake its relationship with neighboring communities and its evolution over time

Continuing Education ,1972

Malpractice and Medical Liability Santo Davide Ferrara, Rafael Boscolo-Berto, Guido Viel, 2013-04-11 Medical responsibility lawsuits have become a fact of life in every physician s medical practice However there is evidence that physicians are increasingly practising defensive medicine ordering more tests than may be necessary and avoiding patients with complicated conditions The modern practice of medicine is increasingly complicated by factors beyond the traditional realm of patient care including

novel technologies loss of physician autonomy and economic pressures A continuing and significant issue affecting physicians and the healthcare system is malpractice In the latter half of the 20th century there was a major change in the attitude of the public towards the medical profession People were made aware of the huge advances in medical technology because health problems increasingly tended to attract media interest and wide publicity Medicine is a victim of its own success in this respect and people are now led to expect the latest techniques and perfect outcomes on all occasions This burst of technology and hyper specialization in many fields of medicine means that each malpractice claim is transformed into a scientific challenge requiring specific preparation in analysis and judgment of the clinical case in question The role of legal medicine becomes more and more peculiar in this judicial setting often giving rise to erroneous interpretations and hasty scientific verdicts but guidelines on the methodology of ascertainties and criteria of evaluation are lacking all over the world The aim of this volume is to clarify the steps required for sequential in depth analysis of events and consequences of medical actions in order to verify whether in the presence of damage errors or non observance of rules of conduct by health personnel exist and which causal values and links of their hypothetical misconduct are involved *Feminist Futures*

Kum-Kum Bhavnani, John Foran, Priya A. Kurian, Debashish Munshi, 2016-10-15 Straddling disciplines and continents *Feminist Futures* interweaves scholarship and social activism to explore the evolving position of women in the South Working at the intersection of cultural studies critical development studies and feminist theory the book's contributors articulate a radical and innovative framework for understanding the linkages between women culture and development applying it to issues ranging from sexuality and the gendered body to the environment technology and the cultural politics of representation This revised and updated edition brings together leading academics as well as a new generation of activists and scholars to provide a fresh perspective on the ways in which women in the South are transforming our understanding of development

Bibliography of Agriculture, 1961 **The Environment in Anthropology, Second Edition** Nora Haenn, Richard Wilk, Allison Harnish, 2016-04-26 Presents ecology and current environmental studies from an anthropological point of view The Environment in Anthropology presents ecology and current environmental studies from an anthropological point of view From the classics to the most current scholarship this text connects the theory and practice in environment and anthropology providing readers with a strong intellectual foundation as well as offering practical tools for solving environmental problems Haenn Wilk and Harnish pose the most urgent questions of environmental protection How are environmental problems mediated by cultural values What are the environmental effects of urbanization When do environmentalists goals and actions conflict with those of indigenous peoples How can we assess the impact of environmentally correct businesses They also cover the fundamental topics of population growth large scale development biodiversity conservation sustainable environmental management indigenous groups consumption and globalization This revised edition addresses new topics such as water toxic waste neoliberalism environmental history environmental activism and REDD Reducing Emissions from

Deforestation and Forest Degradation and it situates anthropology in the multi disciplinary field of environmental research It also offers readers a guide for developing their own plan for environmental action This volume offers an introduction to the breadth of ecological and environmental anthropology as well as to its historical trends and current developments Balancing landmark essays with cutting edge scholarship bridging theory and practice and offering suggestions for further reading and new directions for research The Environment in Anthropology continues to provide the ideal introduction to a burgeoning field
