German Monuments in the Americas Hans A. Pohlsander, 2010 This book looks at the many transatlantic bonds which have linked and still link Germany and the United States German immigrants to the Americas brought with them a good deal of cultural baggage They cultivated their German heritage in their schools churches and clubs They expressed pride in this heritage by erecting monuments to Goethe or Schiller Beethoven or Wagner Alexander von Humboldt or Turnvater Jahn They claimed Friedrich Wilhelm von Steuben Carl Schurz Gustave Koerner and John A Roebling as their own But German born or German trained sculptors did not limit themselves to German subjects They also paid tribute to America by creating sculptures of Benjamin Franklin George Washington Thomas Jefferson Abraham Lincoln and others who occupy a place of honor in American history While a few German monuments can be found in Canada and in Latin America the number of German monuments in the United States is surprisingly large These monuments illustrate the contribution often overlooked or ignored of the German American community to American society and American cultural life **Man in the Place of the Gods** Frederick Cookinham, 2016-04-16 WHO SAYS SECULAR PEOPLE CANT BE SPIRITUAL What do cities mean to you Excitement Dreams and goals Glamor Escape Danger Romance Artistically planned parks zoos and museums Shopping Ohmygod skyscrapers and bridges Gershwins Rhapsody in Blue From Aristotle to Ayn Rand writers have analyzed and gloried in cities as the greatest expression of Man the rational builder and inventor Architecture especially makes the city the temple of Rational Man Frederick Cookinham is a New York City tour guide specializing in New Yorks colonial and Revolutionary history and in AYN RANDS NEW YORK In THE AGE OF RAND Cookinham taught you to see the landscape through history glasses Now learn to see cities through temple glasses See the spiritual in the secular Be uplifted by the sight of Mans achievements Make the city your temple to Mans mind and dont be afraid to get all Ayn Rand about it Appreciate better the deeper meanings behind the concrete and steel facts of where you live Analysis and insight on Ayn Rands life and work embedded in a guide to New Yorks architecture and public art wrapped in a paean to cities how they work and what they mean to us Victor Niederhoffer NYC Junto **Theatres of Value** Danielle Rosvally, 2024-07-01 Theatres of Value explores the idea that buying and selling are performative acts and offers a paradigm for deeper study of these acts

the dramaturgy of value Modeling this multifaceted approach the book explores six case studies to show how and why Shakespeare had value for nineteenth century New Yorkers In considering William Brown s African Theater P T Barnum s American Museum and Lecture Hall Fanny Kemble s American reading career the Booth family brand the memorial statue of Shakespeare in Central Park and an 1888 benefit performance of Hamlet to theatrical impresario Lester Wallack Theatres of Value traces a history of audience engagement with Shakespearean cultural capital and the myriad ways this engagement was leveraged by theatrical businesspeople

Antiquity in Gotham Elizabeth Macaulay-Lewis, 2021-03-23 The first detailed study of Neo Antique architecture applies an archaeological lens to the study of New York City s structures Since the city s inception New Yorkers have deliberately and purposefully engaged with ancient architecture to design and erect many of its most iconic buildings and monuments including Grand Central Terminal and the Soldiers and Sailors Memorial Arch in Brooklyn as well as forgotten gems such as Snug Harbor on Staten Island and the Gould Memorial Library in the Bronx Antiquity in Gotham interprets the various ways ancient architecture was re conceived in New York City from the eighteenth century to the early twenty first century Contextualizing New York s Neo Antique architecture within larger American architectural trends author Elizabeth Macaulay Lewis applies an archaeological lens to the study of the New York buildings that incorporated these various models in their design bringing together these diverse sources of inspiration into a single continuum Antiquity in Gotham explores how ancient architecture communicated the political ideals of the new republic through the adaptation of Greek and Roman architecture how Egyptian temples conveyed the city s new technological achievements and how the ancient Near East served many artistic masters decorating the interiors of glitzy Gilded Age restaurants and the tops of skyscrapers Rather than classifying neo classical and Greek Revival Egyptianizing and architecture inspired by the ancient Near East into distinct categories Macaulay Lewis applies the Neo Antique framework that considers the similarities and differences intellectually conceptually and chronologically among the reception of these different architectural traditions This fundamentally interdisciplinary project draws upon all available evidence and archival materials such as the letters and memos of architects and their patrons and the commentary in contemporary newspapers and magazines to provide a lively multi dimensional analysis that examines not only the city s ancient buildings and rooms themselves but also how New Yorkers envisaged them lived in them talked about them and reacted to them Antiquity offered New Yorkers architecture with flexible aesthetic functional cultural and intellectual resonances whether it be the democratic ideals of Periclean Athens the technological might of Pharaonic Egypt or the majesty of Imperial Rome The result of these dialogues with ancient architectural forms was the creation of innovative architecture that has defined New York City s skyline throughout its history

The Routledge Handbook of Remix Studies and Digital Humanities Eduardo Navas, Owen Gallagher, xtine burrough, 2021-02-14 In this comprehensive and highly interdisciplinary companion contributors reflect on remix across the broad spectrum of media and culture with each chapter offering in depth reflections on the relationship

between remix studies and the digital humanities The anthology is organized into sections that explore remix studies and digital humanities in relation to topics such as archives artificial intelligence cinema epistemology gaming generative art hacking pedagogy sound and VR among other subjects of study Selected chapters focus on practice based projects produced by artists designers remix studies scholars and digital humanists With this mix of practical and theoretical chapters editors Navas Gallagher and burrough offer a tapestry of critical reflection on the contemporary cultural and political implications of remix studies and the digital humanities functioning as an ideal reference manual to these evolving areas of study across the arts humanities and social sciences This book will be of particular interest to students and scholars of digital humanities remix studies media arts information studies interactive arts and technology and digital media studies

Afro-Asian Connections in Latin America and the Caribbean Debbie Lee-DiStefano,Luisa Marcela Ossa,2018-11-27 Afro Asian Connections in Latin America and the Caribbean explores the connections between people of Asian and African descent in Latin America and the Caribbean Although their journeys started from different points of origin spanning two separate oceans their point of contact in this hemisphere brought them together under a hegemonic system that would treat these seemingly disparate continental ancestries as one Historically an overwhelming majority of people of African and Asian descent were brought to the Americas as sources of labor to uphold the plantation agrarian economies leading to complex relationships and interactions The contributions to this collection examine various aspects of these connections The authors bring to the forefront perspectives regarding history literature art and religion and engage how they are manifested in these Afro Asian relationships and interactions They investigate what has received little academic engagement outside the acknowledgement that there are groups who are of African and Asian descent In regard to their relationships with the dominant Europeanized center references to both groups typically only view them as singular entities What this interdisciplinary collection presents is a more cohesive approach that strives to place them at the center together and view their relationships in their historical contexts
