Nmmu Second Semester Courses

Lei Huang

Nmmu Second Semester Courses:

Study SA, 2006 **XXX International Congress of Psychology: Abstracts** Michele Robert, 2017-10-03 The abstracts of the XXX International Congress of Psychology July 2012 Cape Town are published as a supplement to Volume 47 of the International Journal of Psychology The published volume includes the abstracts of the invited addresses symposia oral and poster presentations numbering over 5 000 separate contributions and creating an invaluable overview of the discipline of psychological science around the world today Revisiting Language Learning Resources Carlos Perrián Pascual, 2009-03-26 Human and material resources are two key elements that make up the language learning process Regarding material resources nowadays new technologies can be said to play a leading role in most language learning environments However we cannot forget that these relatively new tools still coexist with more traditional ones which are still widely used in the foreign language classroom On the other hand the progressive emergence of new human roles in language learning means that human resources have also become a key medium through which the learner accesses knowledge and practice towards language acquisition There is an obvious need to carry out research on these resources in order to assess their potential for an optimum learning experience This book tries to meet such needs offering the research work that different authors have carried out in this field **Geobulletin** Geological Society of South Africa, 2008 Quarterly news bulletin Kwartaallikse nuusbuletin **Comprehensive Internationalization** John K. Hudzik, 2014-11-20 This book is a timely insight into the internationalization of higher education institutions The internationalization of higher education is a global phenomenon but with substantial variation in how it is made operational in individual institutions Comprehensive Internationalization focuses on desirable practices in institutions and their actual approaches to implement a more integrated strategic or comprehensive global engagement across their core missions teaching research and service Part I of the book investigates a wide range of issues governing the internationalization of institutions Outlining the origins meaning and evolution toward more strategic and comprehensive forms of internationalization building an understanding of the meanings of comprehensive internationalization as well as common aspirations when linked to different types of institutions understanding the rationales and motivations for internationalization and intended results creating an institutional vision and culture to support comprehensive internationalization and implementing key strategies for successful internationalization in terms of practical actions and programs and results including identifying and ameliorating barriers engaging organizational change assessing outcomes and obtaining resources Part II of the book offers case stories from institutions across the globe which describe varying pathways toward more comprehensive internationalization Institutions were chosen to reflect the diversity of higher education and approaches to internationalization An analysis of the cases uncovers similarities and differences as well as common lessons to be learned With contributions from mainland Europe Australia the USA the UK Latin America Singapore and South Africa the global application of the book is unparalleled Comprehensive

Internationalization will be of vital interest to a wide variety of higher education institutional leaders and managers as they address the problems and solutions for institutional internationalization available to them in a rapidly changing educational world and a 21st Century global environment *Universities, Employability and Human Development* Melanie Walker, Samuel Fongwa, 2017-01-20 The book makes a significant contribution to critical higher education studies specifically to graduate employability research and to capabilities and education research The book moves beyond the simplistic conception of alleged gaps in graduate skills and mismatches between employers and universities and instead provides an innovative multi dimensional and intersectional human capabilities conceptualisation of graduate employability The book challenges an individualised notion of employability instead locating employability issues in social and economic conditions and argues that employability choices cannot be divorced from inequality Qualitative and quantitative data from multiple case study universities in South Africa are used to explore the perceptions and experiences of diverse students lecturers support officers and employers regarding what each university is doing or should be doing to enhance graduate economic opportunities and contribute to inclusive development The book will be highly relevant to students scholars and researchers in the fields of education and sociology particularly those with an interest in graduate employability **Teacher Education and Institutional Change in South Africa** Glenda Kruss, 2008 In 1994 the South African teacher education landscape was fragmented across a wide variety of institutional sites Global Encounters Iris Guske, 2011-05-25 Scholars throughout the world have come together again in a second book to share their most successful teaching practices and concerns in the areas of cross cultural studies and international education Many disciplines are represented and diverse subjects are discussed science literacy and worldview perspective second language acquisition student mobility and international universities teacher professional development and government programs for disadvantaged children zoos industrial paintings and dress designs as cultural artifacts Presentations on these topics are the result of papers given at the annual meeting of the Worldwide Forum on Education and Culture founded 10 years ago in Rome Italy The organization regularly attracts some 100 scholars and practitioners in the fields of education literacy language learning communication and inter cultural studies from all five continents to its annual congress in Rome These conferences as well as this up to date compilation of multi disciplinary academic papers are meant to highlight the growing need for culturally sensitive education that draws on the strengths of both traditional teaching methods and technology rich forms of instruction as well as a host of national and international programs designed to empower teachers and students alike Engaged educators whose research and or critical discourse in classrooms all over the world has given rise to the present volume thus hope to share with a wider audience how they impart knowledge foster skills and nurture qualities in the next generation of global citizens that will enable them to negotiate their personal and professional lives in our modern world Even though communities may no longer be characterized by physical distances as barriers to communicative interchanges perceived and real rifts between different

cultures are nevertheless coming alarmingly close to preventing meaningful communication from bringing about true understanding at the individual and societal levels The ontogenesis of the Worldwide Forum on Education and Culture is seen here clearly in the perspectives and presentations of diverse academics who are dedicated to teaching and learning toward the greater goal as Matthew Arnold said in Literature and Science of knowing ourselves and the world **Thinking Globally, Composing Locally** Rich Rice, Kirk St. Amant, 2018-05-01 Thinking Globally Composing Locally explores how writing and its pedagogy should adapt to the ever expanding environment of international online communication Communication to a global audience presents a number of new challenges writers seeking to connect with individuals from many different cultures must rethink their concept of audience They must also prepare to address friction that may arise from cross cultural rhetorical situations variation in available technology and in access between interlocutors and disparate legal environments The volume offers a pedagogical framework that addresses three interconnected and overarching objectives using online media to contact audiences from other cultures to share ideas presenting ideas in a manner that invites audiences from other cultures to recognize understand and convey or act upon them and composing ideas to connect with global audiences to engage in ongoing and meaningful exchanges via online media Chapters explore a diverse range of pedagogical techniques including digital notebooks designed to create a space for active dialogic and multicultural inquiry experience mapping to identify communication disruption points in international customer service and online forums used in global distance education Thinking Globally Composing Locally will prove an invaluable resource for instructors seeking to address the many exigencies of online writing situations in global environments Contributors Suzanne Blum Malley Katherine Bridgman Maury Elizabeth Brown Kaitlin Clinnin Cynthia Davidson Susan Delagrange Scott Lloyd Dewitt Amber Engelson Kay Halasek Lavinia Hirsu Daniel Hocutt Vassiliki Kourbani Tika Lamsal Liz Lane Ben Lauren J C Lee Ben McCorkle Jen Michaels Minh Tam Nguyen Beau S Pihlaja Ma Pilar Milagros Cynthia L Selfe Heather Turner Don Unger Josephine Walwema *Annual Report* National Research Foundation (South Africa), 2016
