Why Are Students Not Learning on the School Bus? Keshia L. Gaines, 2012-05-11

So Why Are Students NOT Learning On The School Bus According to Dr Keshia L Gaines students should learn from academic content on the school bus and other unique learning areas the bus stop cafeteria playgrounds bathrooms academic clothing etc. The key to improving America's educational system Gaines believes is to allow students to learn outside the classroom. Since students are not meeting academic expectations in the general classroom it is important to consider all methods and areas for students to learn. Dr Gaines founded Bus stop 2 Bus stop LLC and created the Bus stop 2 Bus stop learning method to help students increase academic achievement in fun innovative ways. The idea behind the Bus stop 2 Bus stop learning method is that students will be exposed to academic content starting at the school bus stop. Students will continue to be exposed to academic content throughout their school hours until they get dropped off at that same bus stop at the end of the school day. This book is designed for use in various education courses, educational leadership positions, and for general reading by anyone who is worried about the future of our children and educational systems. For entry level students in education this book provides insight and new ways to improve academic achievement in America. This book is also appropriate for various upper level courses because of its research components, references, discussion questions, and journal activities. The purpose of this book is to explain the Bus stop 2 Bus stop learning method and to ultimately improve the current educational system in America.

Advanced Strategies and Models for Integrating RTI in Secondary Schools Epler, Pam L., 2019-01-18

To better identify and assist struggling students and avoid unnecessary placement into special education services, the service delivery model response to intervention RTI is used with the general education population. Even though RTI has been studied in elementary schools for many years, further research on its use at the secondary academic level is scarce. *Advanced Strategies and Models for Integrating RTI in Secondary Schools* provides emerging research exploring the advanced theoretical and practical aspects of the use of RTI to assist teachers in providing research based instructional strategies to students who are failing their academic subjects. Featuring coverage on a broad range of topics such as behavioral response, progress monitoring, and career readiness, this book is ideally designed for educators, researchers, and academic professionals seeking current research on the most effective models in place to promote positive student academic achievement.

Differentiating Instruction for Students With Learning Disabilities William N. Bender, 2012-09-04

Use the latest research to bring

differentiated instruction to today's inclusive classrooms. With flipped classrooms, response to intervention, and technology discussed as differentiated instructional tools, this book has it all. Teachers need 21st-century resources that help them provide high-quality differentiated instruction for all students. In this new edition of his best-selling resource, William Bender draws on the latest brain research, technology, and educational initiatives to bring a new focus to differentiating instruction in the context of the Common Core State Standards. By weaving together differentiated instruction, Response to Intervention, and educational technology, educators can increase achievement among students with learning disabilities and also foster the development of 21st-century skills. This updated guide offers specific strategies for differentiating instruction within an RTI framework and in the context of the Common Core State Standards. Strategies for using technology to instruct and assess students with learning disabilities. Teaching tips and concrete examples of brain-friendly instruction. Guidance on a range of supportive instructional techniques. Additional strategies based on the latest research in metacognition. Up-to-date techniques such as using Khan Academy, flipped classes, and wikis to enhance learning in general and special education settings. This new edition of *Differentiating Instruction for Students With Learning Disabilities* offers the tools and strategies educators need to maximize achievement for all students. The ideas in this book are wonderful. They are new, innovative, current, interesting, and very practical. I could easily implement some of these ideas in my classroom tomorrow. Rachel Aherns, Teacher, Westridge Elementary School, West Des Moines, IA. Between these pages, you will find ample strategies of how to effectively and efficiently individualize instruction for a classroom of diverse learners without having to spend countless hours before and after a lesson preparing and assessing. Jessica Purcell, Teacher, Morehead City Middle School, Morehead City, NC.
