volume is a set of detailed accounts about the kind of work that is going on now as people struggle for their linguistic survival. It also serves as a manual of effective practices in language revitalization. Following are the key features: 23 case studies of language revitalization in practice from Native American languages, Australian languages, Maori, Hawaiian, Welsh, Irish, and others, written primarily by authors directly involved in the programs; short introductions situate the languages to help make the languages more real in the minds of readers; each chapter gives a detailed overview of the various kinds of programs and methods in practice today; introductions and maps for each of the languages represented familiarize the reader with their history, linguistic structure, and sociolinguistic features; and strong representation in authorship and viewpoint of the people and communities whose languages are threatened gives the readers an inside understanding of the issues involved and the community's internal attitudes toward language loss and revitalization.
