Newman, 2010 This carefully edited companion anthology provides provocative eye opening examples of the practice of sociology in a well edited well designed and affordable format It includes short articles chapters and excerpts that examine common everyday experiences important social issues or distinct historical events that illustrate the relationship between the individual and society The new edition will provide more detail regarding the theory and or history related to each issue presented The revision will also include more coverage of global issues and world religions **Gods in the Global Village** Lester R. Kurtz, 2012 In an era plagued by religious conflict the Third Edition of Gods in the Global Village directly responds to issues of social problems prevalent in the world today Using an engaging thought provoking style author Lester R Kurtz focuses on the relationship among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order This book focuses on a central aspect of that common crisis A major assumption of this book is that all knowledge is shaped by the social context of the knower therefore both religious traditions and our studies of them are shaped by the context in which we construct them The author argues that religious pluralism will be a necessary precondition of the global village for the foreseeable future The question that faces us as a human community is not Which religious tradition is true or even Is any religious tradition true but rather How can we enable the various religious and secular traditions to coexist peacefully on the planet The text supports the belief that the sociology of religion itself a pluralistic discipline can provide invaluable insight into the most pressing problems of our time **Illuminating Social Life** Peter Kivisto, 2011 Illuminating Social Life has enjoyed increasing popularity with each edition It is the only book designed for undergraduate teaching that shows today s students how classical and contemporary social theories can be used to shed new light on such topics as the internet the world of work fast food restaurants shopping malls alcohol use body building sales and service and new religious movements A perfect complement for the sociological theory course it offers 13 original essays by leading scholars in the field who are also experienced undergraduate theory teachers Substantial introductions by the editor link the applied essays to a complete review of the classical and modern social theories used in the book **The Unmasking Style in Social Theory** Peter Baehr, 2019-05-01 This book examines the nature of unmasking in social theory in revolutionary movements and in popular culture Unmasking is not the same as scientific refutation or principled disagreement When people unmask they claim to rip off a disguise revealing the true beneath the feigned The author distinguishes two basic types of unmasking The first aimed

at persons or groups exposes hypocrisy and enmity and is a staple of revolutionary movements The second aimed at ideas exposes illusions and ideologies and is characteristic of radical social theory since the eighteenth century Enlightenment The Unmasking Style in Social Theory charts the intellectual origins of unmasking its shifting priorities and its specific techniques in social theory It also explores sociology's relationship to the concept of unmasking through an analysis of writers who embrace adapt or reshape its meaning Such sociologists include Vilfredo Pareto Karl Mannheim Raymond Aron Peter Berger Pierre Bourdieu Luc Boltanski and Christian Smith Finally taking conspiracy theories accusations of social phobia and new concepts such as micro aggression as examples of unmasking techniques the author shows how unmasking contributes to the polarization and bitterness of much public discussion Demonstrating how unmasking is baked into modern culture yet arguing that alternatives to it are still possible this book is in sum a compelling study of unmasking and its impact upon modern political life and social theory
