Resources in Education, 2000 **The Journal of Education**, 1884 *Teacher Learning and Development* Peter Aubusson, 2007-01-23 This series in teacher education Self study of Teacher Education Practices S STEP is designed to capture and portray a range of approaches to self study of teaching and teacher education practices In so doing it is anticipated that the work of teachers and teacher educators might come to be better understood and valued as the complexity of the work of teaching and teaching about teaching is articulated and described for others The series was initiated in order to complement the International Handbook of Self study of Teaching and Teacher Education Practices Loughran et al 2004 so that the diversity in approaches to self study could be highlighted for all those involved in the teaching and researching of professional practice Pinnegar 1998 described self study as a methodology for studying the settings in which professional practice takes place and as such suggested that self study should lead to improvements in teaching and teacher education by uncovering and articulating insights in the processes of teaching and learning In this way a clear intention of self study is that it might ultimately enhance students learning and teacher and teacher educators understanding of practice

Text-Dependent Questions, Grades 6-12 Douglas Fisher, Nancy Frey, Heather Anderson, Marisol Thayre, 2014-09-02 Fisher Frey's answer to close and critical reading No doubt since the cave paintings of prehistoric times humans have asked questions to make sense of the message So what could possibly be new about posing questions about text Plenty and with TDQ Doug Fisher and Nancy Frey reveal it all After one quick read you will have learned all the very best ways to use text dependent questions as scaffolds during close reading and the big understandings they can yield especially when executed the Fisher and Frey way But that's just for starters Fisher and Frey also include illustrative video actual texts and questions

examples from across content areas and an online professional learning guide making the two volumes of TDQ a potent professional development tool across all of K 12 The genius of TDQ is the way Fisher and Frey break down the process into four cognitive pathways that help teachers organize the journey through a text and frame an extended discussion around it Step by step this approach ensures that in every close reading lesson students are guided to consider explicit and implied meanings and deeply analyze and appreciate various aspects of a text especially those that may be challenging or confusing Here s how the four inter related processes play out with every why and every how answered What does the text say general understandings and key details How does the text work vocabulary structure and author s craft What does the text mean logical inferences and intertextual connections What does the text inspire you to do write investigate present debate The cool thing These questions ignite students engagement and discussion because they strategically lead students to a place of understanding where explicit and implied meanings and interpretations can be debated Far from being overly literal or teacher led the questioning framework Fisher and Frey advance enhances the quality of student talk and idea generation All in all there s no better resource to cultivate students capacity for independent reading and incisive thinking Longtime collaborators and recipients of numerous teaching and leadership awards DOUGLAS FISHER and NANCY FREY are Professors of Educational Leadership at San Diego State University as well as teacher leaders at Health Sciences High Middle College [Forum](#) ,1983 **The Didactic Muse** Willard Spiegelman,2014-07-14 Writing with the vigor and elan that readers have come to expect from his many astute reviews and essays Willard Spiegelman maintains that contemporary American poets have returned to the poetic aims of an earlier era to edify as well as to delight and thus to serve the didactic muse What Spiegelman says about individual poets such as Nemerov Hecht Ginsberg Pinsky Ammons Rich and Merrill among others is wonderfully insightful Furthermore his outlook on their work the way he takes quite literally the teacherly elements of their poems challenges long standing conceptions both about contemporary writing and about the poetry of the Eliot Pound Stevens Williams generation Beginning the book with a meditation on W H Auden s legacy to American poets Spiegelman ends with a discussion of the multiple scenes of learning in Merrill s The Changing Light at Sandover which he identifies as not only the major epic poem of the second half of the twentieth century but also as the period s most important georgic a textbook full of scientific mythic artistic and human instruction The Didactic Muse reminds us that poets have traditionally acknowledged their function as teachers from Horace s advice that poetry should please and instruct to Robert Frost s aphorism that a poem begins in delight and ends in wisdom Whereas many of the critical remarks of the most important Romantic and modern poets suggest their desperate attempts to separate poetry from instruction Spiegelman demonstrates that their practices often contradicted their theories And he shows that our best contemporary poets are now embracing the older classical paradigms Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton
