Fads, Fakes, and Frauds Tomasz Witkowski,2022-09-15 This book is a collection of skeptical social essays in which the author reveals that much of our popular beliefs psychology and science are defective because although we live in the 21st century our approach to them is deeply rooted in our culture and biased by history and evolution These essays help the reader take a step sideways think independently and not fall victim to fads fakes and frauds Anyone who values a deeper understanding of contemporary social reality and the changes taking place in it should read this book from students to scientists and intellectuals Through these essays we learn to look under the veneer of reality behind the altars of science under the scenery of pop psychology and behind the facade of therapeutic culture Thanks to essays on suicide euthanasia and more we also come close to the edge of life and death Contrary to many meticulous social critical analyzes in sharing his thoughts the author takes us on a picturesque journey through bounty hunters ludicrous machines compulsive hoarding Charlie Chaplin and much more
