

A sepia-toned portrait of Mustafa Kemal Atatürk, a young man with a mustache, wearing a dark military uniform and a peaked cap. He is looking slightly to the right. His uniform is adorned with several medals and decorations on his left breast, including two large star-shaped medals and several circular ones. A sash is visible on his right shoulder.

Perspectives on Retranslation Özlem Berk Albachten, Şehnaz Tahir Gürçağlar, 2018-10-03 *Perspectives on Retranslation Ideology Paratexts Methods* explores retranslation from a variety of aspects and reflects methodological and theoretical developments in the field. Featuring eleven chapters each offering a unique approach, the book presents a well-rounded analysis of contemporary issues in retranslation. It brings together case studies and examples from a range of contexts including France, the UK, Spain, the US, Brazil, Greece, Poland, modern Turkey, and the Ottoman Empire. The chapters highlight a diversity of cultural settings and illustrate the assumptions and epistemologies underlying the manifestations of retranslation in various cultures and time periods. The book expressly challenges a Eurocentric view and treats retranslation in all of its complexity by using a variety of methods including quantitative and statistical analysis, bibliographical studies, reception analysis, film analysis, and musicological paratextual, textual, and norm analysis. The chapters further show the dominant effect of ideology on macro and micro translation decisions, which comes into sharp relief in the specific context of retranslation.

Violence and Militants Baris Cayli, 2019-09-26 How do militants rationalize violence and what are their motives? How do time and space shape their destiny? In *Violence and Militants*, Baris Cayli explores these enduring questions by comparing violent episodes in towns and villages in the nineteenth-century Ottoman Balkans with today's zones of conflict from Afghanistan to the Middle East. Placing history alongside the troubles of the present, *Violence and Militants* reveals parallels between Christian militants who rebelled against the Ottoman Empire and four jihadist organizations of today: Hezbollah, Hamas, al-Qaeda, and ISIS. Drawing on scholarship by political theorists, historians, sociologists, anthropologists, and philosophers, Cayli traces the root of dissent to a perceived deprivation that leads to aggressive protest and action. He argues that the rationalization of violence functions independently of time and geographical location. Through a riveting narrative, this book uncovers how militant groups use revenge, ideals, and confrontation to generate fear and terror in the name of justice. Breaking new ground, *Violence and Militants* is the first book to address this complex relationship across different periods of history.

Salvation and Catastrophe Konstantinos Travlos, 2020-10-14 The Greek-Turkish War of 1919-1923, also known as the Western Front of the Turkish War of Liberation and the Asia Minor Campaign, was one of the key aftershocks of the First World War. Internationally better known for its aftermath, the Compulsory Population Exchange between Greece and Turkey, the Catastrophe of Ottoman Greeks, and the foundation of the Republic of Turkey under Mustafa Kemal Atatürk, the war has never been given a holistic treatment in English despite its long shadow over the Greek-Turkish relationship. The contributors in this volume address this gap by bringing to the fore, on its centenary, aspects of the onset, conduct, and aftermath of this war. Combining insights from the study of international relations, political science, strategic studies, military history, migration studies, and social history, the contributions tell the story of leaders and decisions, battles and campaigns, voluntary and involuntary migration, and the human stories of suffering and resilience. It is aspects of the story of the last

gasp of the Great War in Europe brought to its final end with Treaty of Lausanne of 1923 *Insight Turkey 2015 - Winter 2015 (Vol. 17, No. 1)* , Religion religious groups and politics are always most vital topics of the Western politics The relationship between politics and religion is reciprocal While both domestic and international political actors try to exploit religion and religious sensitivity for their political interests and gains religion and belief systems want to use significant power over main political and cultural actors and perceptions With the emergence of the violent non state actors such as Taliban al Qaeda and DAISH which were all surfaced in the Middle East but have become transnational actors deeply affecting European politics and the recent popularity of far right Islam phobic movements such as PEGIDA in Europe have once again forced us to look closely at the relationship between religion and politics in Western politics specifically in Europe Even though it is generally perceived that the religion has lost its war against politics in Europe as European countries have established secular democracies based on the promotion of individual freedoms and pluralism it is an undisputable fact that the general framework in European states is largely affected by the Christian values and often its imprints are seen in politics The developments around the recent large scale immigration toward Europe from Middle East and Africa are the reasons which force us to make this bold statement How Europe deals with mostly Muslim immigrants who come from very different ethnic and cultural backgrounds from European values is very alarming After unsuccessful assimilation and or integration efforts for these non European and non Christian immigrants state and societal actors have instigated to take restrictive measures against further immigration and migrants Furthermore we have started to witness strong wave of xenophobia and Islamophobia in these democratic European societies Islamophobia relations with European Muslims and implications of political developments in the Muslim World will significantly influence the future religion state relations in European countries However for the last few months we have been spectators of the tragic death of thousands desperate immigrants at the Mediterranean Sea who were trying to reach Europe Unfortunately the European countries have done nothing to prevent their death MUH TT N ATAMAN A FORGOTTEN FRONT Bogdan Morar,2025-02-27 Witness to numerous battles

throughout history the Caucasus endured another harsh war between November 1914 and December 1917 This work about a quasi ignored front makes known to the public to a greater extent a particularly important segment of the history of the First World War in the eastern parts of Europe at the confluence with Asia a front that had a considerable role in the equation of the deployment of forces between Turkey and Russia prof univ dr Ioan Bolovan At the same time the book also deals with other related topics the military operations in Persia 1915 1917 the connection of the Russian front in the Caucasus with the English one in Mesopotamia Iraq and last but not least the deportation and massacre of Armenians in Eastern Anatolia

Masters of Warfare Eric G. L. Pinzelli,2022-12-02 In *Masters of Warfare* Eric G L Pinzelli presents a selection of fifty commanders whose military achievements skill or historical impact he believes to be underrated by modern opinion He specifically does not include the household names the Gods of War as he calls them such as Alexander Julius Caesar

Wellington Napoleon Bonaparte or Rommel or Patton that have been covered in countless biographies Those chosen come from every period of recorded military history from the sixth century BC to the Vietnam War The selection rectifies the European US bias of many such surveys with Asian entries such as Bai Qi Chinese Attila Hunnic Subotai Mongol Ieyasu Tokugawa Japanese and V Nguyen Giap Vietnamese Naval commanders are also represented by the likes of Khayr al Din Barbarossa Francis Drake and Michiel de Ruyter These 50 Masters of War are presented in a chronological order easy to follow with a concise overview of their life and career Altogether they present a fascinating survey of the developments and continuities in the art of command but most importantly their contribution to the evolution of weaponry tactic and strategy through the ages

The Oxford Handbook of European History, 1914-1945 Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today

Atatürk Andrew Mango, 2002-08-26 A superlative and exhaustively researched biography of one of the most complex and controversial figures in twentieth century world history Library Journal Mustafa Kemal Atatürk was virtually unknown until 1919 when he took the lead in thwarting the victorious Allies plan to partition the Turkish core of the Ottoman Empire He divided the Allies defeated the last Sultan and secured the territory of the Turkish national state becoming the first president of the new republic in 1923 fast creating his own legend This revealing portrait of Atatürk throws light on matters of great importance today resurgent nationalism religious fundamentalism and the reality of democracy One of the world's most respected specialists on Turkey The New York Times Mango gives this man one of the least known nation builders of the last century full treatment from his earliest days to his ascension to power and his death from cirrhosis at the age of 57 Few leaders have so modernized an ancient society instituting radical changes in dress religion government education even the alphabet Mango's admiration for Atatürk doesn't keep him from displaying the dictator's arrogance ruthlessness and authoritarianism his Turkish expertise enables him to flesh out Atatürk's complex life via sources he

translated himself a rounded finely detailed portrait Publishers Weekly Thanks to Andrew Mango's new biography the best in the English language a man both demonized and idolized appears to us in three dimensions The Washington Post A superb biography Dallas Morning News The best concise account I have ever seen of the decline of the Ottoman Empire The narrative is gripping Geoffrey Lewis author of Modern Turkey **The 20th Century A-GI** Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography *The Turkish War of Independence* Edward J. Erickson, 2021-05-24 The dramatic story of the turbulent birth of modern Turkey which rose out of the ashes of the Ottoman Empire to fight off Allied occupiers Greek invaders and internal ethnic groups to proclaim a new republic under Mustafa Kemal Atatürk It is exceedingly rare to run across a major historical event that has no comprehensive English language history but such was the case until *The Turkish War of Independence* brought together all the main strands of the story including the chaotic ending of World War I in Asia Minor and the numerous military fronts on which the Turks defied odds fighting off several armies to create their own state from the defeated ashes of the Ottoman Empire This important book culminates Erickson's three part series on the early 20th century military history of the Ottomans and Turkey Making wide use of specialized hard to find Western and Turkish memoirs and military sources it presents a narrative of the fighting which eventually brought the Turkish Nationalist armies to victory Often termed the Greco Turkish War an incomplete description that misses its geographic and multinational scope this war pitted Greek Armenian French British Italian and insurgent forces against the Nationalists the narrative shows these conflicts to have been distinct and separate to Turkey's opponents while the Turkish side saw them as an interconnected whole
