Peerless Images Vice-President Eleanor G. Sims, Eleanor Sims, Boris Il'ich Marshak, Ernst J. Grube, Boris Marshak, I., 2002-01-01 This book is the first survey of the figural arts of the Iranian world from prehistoric times to the early twentieth century, ever to consider themes rather than styles. Analyzing primarily painting in manuscripts and albums on walls and on lacquered painted pen boxes and caskets but also the related arts of sculpture, ceramics, and metalwork, the author finds that the underlying themes depicted on them through the ages are remarkably consistent. Eleanor Sims demonstrates that all these arts display similar concerns: kingship and legitimacy, the righteous exercise of princely power, and the defense of national territory and the performance of rituals and the religious duties called for by the paramount cult of the day. She describes a variety of superb works of art inside and outside these categories, noting not only how they illustrate archetypal themes but also what it is about them that is unique. She also discusses the ways that Iranian art both influenced and was influenced by invaders and neighboring lands. Boris I. Marshak discusses pre-Islamic and also Central Asian art, in particular the earliest Iranian wall paintings and their pictorial parallels in rock carvings and metalwork, and the richly painted temples and houses of Panjikent. Ernst J. Grube considers religious imagery and provides an informative bibliography.

Once Upon a Curse: The Complete Series of Fairy Tale Retellings Kaitlyn Davis, A USA Today Must Read Series. Over 1400 pages of magic adventure and fairy tale romance. This box set includes all four full-length books in the Once Upon a Curse series plus the prequel novella. On a Saturday in spring, an earthquake strikes the entire globe. Cities disappear, replaced by villages that seem torn from storybooks: horses and carriages, cobblestone streets, towering castles, and most importantly, magic. A world that was once dominated by devices goes dark, and a new power rises. What happens when the fairy tales become real? What's stronger, magic or modern technology? What's more powerful, a curse or true love? Read the series to find out.

Conceptualist Landscapes Paul Cooper, 2014-07-07 Conceptual gardens depend on inspiration which is the result of an exhaustive intellectual process The starting point is an IDEA or stimulus that pushes the design along rather than observing more conventional styles whether classical or modernist into which idea or relationships are fitted Horticultural considerations architectural or aesthetic doctrines and practically based problem solving are either abandoned or regarded as a means to an end rather than the end in itself Idea driven design therefore cannot be taught by a rule of thumb methodology So the way to design a conceptualist garden is not the theme of this book nor does it contain of the peg solutions for garden and landscape designers Rather it encourages student and professional designers to think further towards their designed solutions
