

## NIGHT STUDY GUIDE

"Night is Elie Wiesel's masterpiece, a candid, horrific, and deeply poignant autobiographical account of his survival as a teenager in the Nazi death camps. Elie reflects on the enduring importance of faith and his lifelong, passionate dedication to ensuring that the world never forgets man's capacity for inhumanity to man."

"Night offers much more than a litany of the daily terrors, everyday perversions, and rampant sadism at Auschwitz and Buchenwald; it also eloquently addresses many of the philosophical as well as personal questions implicit in any serious consideration of what the Holocaust was, what it meant, and what its legacy is and will be." —Amazon.com

"However painful this autobiographical work is to read, Night is a testament to memories, wounds and losses. Each chapter raises questions that have haunted the world since Hitler's rise: How could the world allow such a staggering number of innocents to be persecuted and executed? Why does one man survive when his body, mind and spirit are brutalized for months, even years, when his neighbor does not? Night is essential reading for anyone seeking a deeper understanding of the Holocaust and the legacy left behind" —Oprah.com

The Teach Like a Champion Guide to the Science of Reading Doug Lemov, Colleen Driggs, Erica Woolway, 2025-07-29 The most comprehensive and practical guide to understanding and applying the science of reading to improve literacy instruction. After effectively teaching phonics in the early grades, what does the science of reading tell us should happen in literacy classes? The *Teach Like a Champion Guide to the Science of Reading* by Doug Lemov, Erica Woolway, and Colleen Driggs addresses the pressing challenges educators face in effectively incorporating the Science of Reading into their instruction once students already know how to decode. By offering actionable guidance grounded in seven evidence-based principles, this book helps teachers elevate their instructional practices and better prepare students to be lifelong readers and thinkers. Grounded in proven classroom instruction, the book focuses on techniques that can allow teachers to use the science as effectively and actionably as possible. The *Teach Like a Champion Guide to the Science of Reading* is enhanced with more than 50 video clips from the classroom and covers ways to practically apply the Science of Reading. The book describes the often overlooked role of fluency in reading comprehension even into the high school years, the profound importance of managing and socializing attention in an age of technology, the central role of background knowledge in understanding text, and the doubly important role of teaching vocabulary as a form of knowledge. It adds a discussion of how writing can make students better readers and how important it is that reading classes focus on reading actual books, great ones ideally. And it closes with a discussion of close reading and the challenge of preparing students to rise to the challenge of complex text. Inside the book: An innovative approach to building and reinforcing background knowledge in reading. Over 50 video demonstrations of effective teaching techniques. Sample lesson plans and materials for immediate classroom application. The *Teach Like a Champion Guide to the Science of Reading* is essential for educators, literacy coaches, and administrators who aim to foster rigorous literacy instruction in their classrooms and schools. This guide shows you how to implement techniques that ensure students find joy in reading and become better, wiser, more engaged, and more motivated readers, both in their classrooms and in their lives beyond.
