These deficiencies led to high unemployment social dislocations youth restiveness and extralegalities It was these realities that bred disaffection with the government and the multinational oil companies and eventually to violent militancy Between 2003 and 2009 it also led to low intensity conflict between militant youths and the Nigerian government In the summer of 2009 however the Nigerian government extended an offer of presidential pardon amnesty to the militants The amnesty program was intended to bring peace and quiet to the region However this has not been the case In spite of the financial and political resources that have been expended the region continues on the path of volatility This book looks at the issue of nationhood the cause and cost of the crisis past approaches and current efforts at solving the crisis In addition it offers a tenable solution to the decades old crisis Furthermore the case is made that unless there is a fundamental restructuring of the Nigerian state and its governing structure and institutions the problems of the region and the larger problems that makes the country such a difficult to place to live in and govern is likely to continue *Current Affairs Yearly Review 2021 E-Book - Download Free PDF!* testbook.com,2022-02-02 This Current Affairs Yearly Review 2021 E Book will help you understand in detail exam related important news including National International Affairs Defence Sports Person in News MoU Agreements Science Tech Awards Honours Books etc *Nigerian History, Politics and Affairs* Adiele Eberechukwu Afigbo,2005 These essays attempt to focus the light of history on Nigeria Nigerians and their contemporary condition The root idea here is that fundamental to all historical works that when the mind interacts with the past the result is something like a torchlight whose beam is focused on the present thus enabling us to achieve a better understanding of the problems which face us Afigbo has probed deep into Nigeria s pastbringing out all the facets all the elements and all the issues that are necessary to improve the present
