A Midterm Assessment of Implementation of the Decadal Survey on Life and Physical Sciences Research at NASA

National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Space Studies Board, Aeronautics and Space Engineering Board, Committee on a Midterm Assessment of Implementation of the Decadal Survey on Life and Physical Sciences Research at NASA, 2018-06-09 The 2011 National Research Council decadal survey on biological and physical sciences in space Recapturing a Future for Space Exploration Life and Physical Sciences Research for a New Era was written during a critical period in the evolution of science in support of space exploration The research agenda in space life and physical sciences had been significantly descoped during the programmatic adjustments of the Vision for Space Exploration in 2005 and this occurred in the same era as the International Space Station ISS assembly was nearing completion in 2011 Out of that period of change Recapturing a Future for Space Exploration presented a cogent argument for the critical need for space life and physical sciences both for enabling and expanding the exploration capabilities of NASA as well as for contributing unique science in many fields that can be enabled by access to the spaceflight environment Since the 2011 publication of the decadal survey NASA has seen tremendous change including the retirement of the Space Shuttle Program and the maturation of the ISS NASA formation of the Division of Space Life and Physical Sciences Research and Applications provided renewed focus on the research of the decadal survey NASA has modestly regrown some of the budget of space life and physical sciences within the agency and engaged the U S science community outside NASA to join in this research In addition NASA has collaborated with the international space science community This midterm assessment reviews NASA s progress since the 2011 decadal survey in order to evaluate the high priority research identified in the decadal survey in light of future human Mars exploration It makes recommendations on science priorities specifically those priorities that best enable deep space exploration

College Life of a Retired Senior Yvonne

Blackwood, 2023-03-15 Seven years after she retired from a lengthy career in banking Yvonne Blackwood surprised her friends and family by returning to school at age sixty four to pursue an English degree Her purpose was fueled by four powerful reasons to add texture to her writing to ward off dementia to enhance structure in her life and to inspire her two young grandsons to continue their education after high school But as she stepped onto the campus of Canada s third largest university Blackwood had no idea of the hurdles she was about to face In a retelling of her journey into a new beginning Blackwood details how after enrolling in York University she struggled to maintain her established lifestyle attend class with hard to connect with millennials and face a series of challenges that included two strikes at the university a campus lockdown during the COVID 19 pandemic and a shocking health diagnosis in her final year of studies While leaning on the university s motto the way must be tried Blackwood tells an inspiring story of how she persevered and learned to rely on her faith as she bravely conquered her fears and vulnerabilities to eventually achieve her goal College Life of a Retired Senior is

the true story of a former bank manager's experiences as she returned to college in the third act of life to earn a degree in English
