Painting Central Park:

Creating Central Park Morrison H. Heckscher, 2008 The year 2008 marks the 150th anniversary of the design of Central Park the first and arguably the most famous of America's urban landscape parks In October 1857 the new park's board of commissioners announced a public design competition and the following April the imaginative yet practicable Greensward plan submitted by Calvert Vaux and Frederick Law Olmsted was selected This book tells the fascinating story of how an extraordinary work of public art emerged from the crucible of New York City politics From William Cullen Bryant's 1844 editorial calling for a pleasure ground of shade and recreation to the completion of construction in 1870 the history of Central Park is an urban epic a tale not only of animosity political intrigue and desire but also of idealism sacrifice and genius

Paintings of New York, 1800-1950 Bruce Weber, 2005 New York has always attracted artists because it is electric with passion endeavor and hustle and because they know they will find others of like mind there The city is a vibrant center of the international art world no wonder then that both resident and sojourning painters have long felt compelled to capture interpret and evoke the place on canvas Bruce Weber faced a daunting amount of works for inclusion in *Paintings of New York* But he chose well producing a book that combines solid scholarship in history and the arts warmly readable prose and gorgeous color images Artwork included by Piet Mondrian Ernest Lawson Maurice Prendergast William Glackens Georgia O'Keeffe Childe Hassam Raphael Soyer Charles Frederic Ulrich Albertus Del Orient Browere Thomas Moran Joseph Stella Elsie Driggs George Bellows Otto Boetticher Robert Henri George Tooker Francis Guy Thomas Hart Benton and Ben Shahn

Ten Thousand Central Parks David Brown Morris, 2025-10-07 A visionary look at Central Park's creation as an urban success story inspiring bold climate action Climate change is the existential crisis of our time With extreme heatwaves wildfires hurricanes and floods displacing millions many wonder What can I do *Ten Thousand Central Parks* challenges the despair of inaction using the history of Central Park as an unlikely yet urgent environmental parable Created in the years immediately before during and after the Civil War Central Park is a radical experiment in urban renewal transforming a chaotic and polluted terrain into an 843 acre refuge More than a scenic landmark it was a visionary public project that provided jobs green space and a lasting environmental legacy Designed by Frederick Law Olmsted and Calvert Vaux the park was America's first large scale public works project undertaken at a time of national crisis and built almost entirely by immigrants Its creation offers a powerful lesson Even in turbulent times cities can be reimagined and large scale ecological transformations are possible With over half of the world's population living in cities today predicted soon to reach nearly 70% urban green spaces are more crucial than ever Morris argues that Central Park is not just an artifact of the past but a model for the future Its 18 000 trees sequester nearly a million pounds of carbon dioxide annually proving that ambitious nature based solutions can improve the quality of life while addressing environmental challenges Written with urgency and optimism *Ten Thousand Central Parks* offers a fresh perspective on the climate crisis rejecting doom in favor of possibility We need
