been the UK's main manufacturing research conference for 34 years and an international conference since 2003. It brings together researchers, academics and industrialists to share their vision, knowledge and experience and discuss emerging trends and new challenges in manufacturing research. The conference theme of ICMR2019 was smart manufacturing and the book includes the 82 papers presented at the conference representing an acceptance rate of 69%. These have been divided into 13 parts which cover topics ranging from robot automation and machining processes, additive manufacturing, composite manufacturing, design methods to information management, quality control, production optimization and product lifecycle management. Providing an overview of current trends and developments, the book will be of interest to researchers and engineers in the relevant area of manufacturing processes, design and production management.

Data Science for Business and Decision Making Luiz Paulo Favero, Patricia Belfiore, 2019-04-11. Data Science for Business and Decision Making covers both statistics and operations research, while most competing textbooks focus on one or the other. As a result, the book more clearly defines the principles of business analytics for those who want to apply quantitative methods in their work. Its emphasis reflects the importance of regression, optimization and simulation for practitioners of business analytics. Each chapter uses a didactic format that is followed by exercises and answers. Freely accessible datasets enable students and professionals to work with Excel, Stata, Statistical Software and IBM SPSS Statistics Software. Combines statistics and operations research modeling to teach the principles of business analytics. Written for students who want to apply statistics, optimization and multivariate modeling to gain competitive advantages in business. Shows how powerful software packages such as SPSS and Stata can create graphical and numerical outputs.
