

A black and white microscopic image of tissue, showing various cells and structures. A prominent, dark, branching structure, possibly a blood vessel or duct, runs diagonally across the frame. The surrounding tissue consists of numerous cells with visible nuclei and cytoplasm, some of which are larger and more rounded than others. The overall texture is complex and detailed, typical of a histological section.

**Sexual Chemistry** Lara Marks, 2001-01-01 Traces the scientific origins of birth control pills and discusses how they contributed to the sexual revolution and how they have helped curb global over population *The Power of Froebel in Early Childhood Education* Lynn J. McNair, Luke J. Addison, 2025-08-29 Across the globe there has been a significant resurgence of interest in Froebel's philosophy in practice and Scotland is a front runner in its systemic adoption of a Froebelian approach This book offers a never before seen glimpse into Scotland's world leading community of Froebel inspired early childhood practice Liberated by national guidance the expert contributors unearth the recent history of this movement to embed child community and ecologically centred education from birth to five and beyond in local regional and national contexts It offers valuable insight into the transformational work taking place in individual nursery and kindergarten settings as well as policy circles and the emergent professional networks and research supporting both It also highlights the challenges faced in moving away from the developmental and neo liberal approaches that have governed early childhood education for over three decades amid real economic and social pressures which continue to pressure early learning environments to produce school ready children Written primarily from the perspective of practitioners it makes a compelling case that change is driven from the bottom up and offers insightful case studies to show how this pedagogy has children families and communities at its heart *The Power of Froebel in Early Childhood Education* is a vital companion text for anyone considering the implementation of children's rights in early education today Disciplinary literacy in primary schools: Reading, writing and speaking across the curriculum Shareen Wilkinson, 2025-08-22 Drawing on the research evidence *Disciplinary Literacy in Primary Schools* offers both theoretical and practical examples of how teachers can support primary pupils in reading writing and speaking across the subject disciplines Shareen Wilkinson draws on twenty years experience in primary education to outline the ways in which disciplinary literacy can help pupils to read write and speak like scientists geographers and historians while exploring other areas across the curriculum This is an essential professional development resource for all Trust leads senior leaders local authority advisers teachers curriculum leads and subject leads who are passionate about having exemplary practice **Necessity Entrepreneurship** Sophie Bacq, Katrin M. Smolka, Angelique F. Slade Shantz, Pursey P.M.A.R. Heugens, 2025-04-11 Necessity entrepreneurship is broadly understood as the identifying and seizing of business opportunities to address one's basic needs such as food and shelter This volume collectively proposes new ways of seeing theorizing and researching necessity entrepreneurship **The Political Economy of Heaven and Earth in Ghana** Charles Prempeh, 2023-09-30 In March 2017 the president of Ghana Nana Addo Dankwa Akufo announced his intention to build a national cathedral to the people of Ghana The announcement elicited watertight counter arguments that morphed into two a priori re litigated assumptions First Ghana is a secular country and second religion and state formation are incompatible Informed by a frustrating paradox of an overwhelming religious presence and concurrent pervasive

corruption in the country public conversation reached a cul de sac of conviction without compromising In The Political Economy of Heaven and Earth in Ghana Charles Prempeh deploys the national cathedral as an entry point to provide both interdisciplinary and autoethnographic understanding of religion and politics The book shows the capacity of religion when properly cultivated and curated as a worldview to answer the why questions of life will foster personal moral collective and ontological responsibility All this is needed to stem the tide against corruption commodity fetishism environmental degradation illegal mining galamsey heritage destruction and religious exploitation Prempeh recuperates a historical fact about the mutual inclusivity between religion and politics politics helping to manage differences while religion provides a transcendental reason for unity to be forged for human flourishing Separating the two is therefore ahistorical and an obvious threat to the intangible virtues that answers why and how questions for public governance

Coppola, 2016-08-19 The first book length study of the relationship between science and theater during the long eighteenth century in Britain The Theater of Experiment explores the crucial role of spectacle in the establishment of modern science by analyzing how eighteenth century science was staged in a double sense On the one hand this study analyzes science in performance the way that science and scientists were made a public spectacle in comedies farces and pantomimes for purposes that could range from the satiric to the pedagogic to the hagiographic But this book also considers the way in which these plays laid bare science as performance that is the way that eighteenth century science was itself a kind of performing art subject to regimes of stagecraft that traversed the laboratory the lecture hall the anatomy theater and the public stage Not only did the representation of natural philosophy in eighteenth century plays like Thomas Shadwell s *Virtuoso* Aphra Behn s *The Emperor of the Moon* Susanna Centlivre s *The Basset Table* and John Rich s *Necromancer* or *Harelequin Doctor Faustus* influence contemporary debates over the role that experimental science was to play public life the theater shaped the very form that science itself was to take By disciplining and ultimately helping to legitimate experimental philosophy the eighteenth century stage helped to naturalize an epistemology based on self evident decontextualized facts that might speak for themselves In this the stage and the lab jointly fostered an Enlightenment culture of spectacle that transformed the conditions necessary for the production and dissemination of scientific knowledge Precisely because Enlightenment public science initiatives taking their cue from the public stages came to embrace the stagecraft and spectacle that Restoration natural philosophy sought to repress from the scene of experimental knowledge production eighteenth century science organized itself around not the sober masculine modest witness of experiment but the sentimental feminized eager observer of scientific performance **Mill Hill Essays** ,1997
