## **No Small Change The Road To Recognition For Indigenous Australia:**

No Small Change Frank Brennan, 2015-05-01 In 1967 Australians voted overwhelmingly in favor of removing from the Constitution two references that discriminated against Aboriginal and Torres Strait Islander people. Though these seemed like small amendments, they were an impetus for real change from terra nullius to land rights and from assimilation to self-determination. Nearly 50 years later, there is a groundswell of support for our Indigenous heritage to be formally recognized in the Constitution. With the prospect of a new referendum in the near future, Frank Brennan considers how far Australians have come and yet how much work lies ahead. He looks through the prism of history to examine what we can learn from our successes and failures since 1967, from the efforts of the Council of Aboriginal Affairs to the Gove land rights case and the Aboriginal Tent Embassy. He also assesses the way forward, how the upcoming referendum might provide fresh momentum for governments and Indigenous Australians to negotiate better outcomes. Written by one of the most respected commentators on legal and human rights issues, this book makes a vital contribution to the understanding of Indigenous affairs. It will generate crucial debate on how Australians should acknowledge the history that for too long has gone unrecognized.

**Indigenous Peoples and Constitutional Reform in Australia** Bede Harris, 2023-12-01 This book examines whether Australia's constitution should be reformed so as to enable the country to fulfil its obligations under the United Nations Declaration on the Rights of Indigenous Peoples, which it ratified in 2009. The book surveys the history of the constitutional status of Australia's Indigenous peoples from the time of colonisation through to the current debate on Indigenous constitutional recognition. However, it argues that the term 'Indigenous constitutional recognition' implying that mere acknowledgement of the existence of Indigenous peoples is sufficient to meet their legitimate expectations, misrepresents the nature of the project the country needs to engage in. The book argues that Australia should instead embark upon a reform programme directed towards substantive and not merely symbolic constitutional change. It argues that only by the inclusion in the constitution of enforceable constitutional rights can the power imbalance between Indigenous Australians and the rest of society be addressed. Taking a comparative approach and drawing upon the experience of other jurisdictions, the book proposes a comprehensive constitutional reform programme and includes the text of constitutional amendments designed to achieve the realisation of the rights of Australia's Indigenous peoples. It ends with a call to improve the standard of civics education so as to overcome voter apprehension towards constitutional change.

A First Nations Voice in the Australian Constitution Shireen Morris, 2020-08-06 This book makes the legal and political case for Indigenous constitutional recognition through a constitutionally guaranteed First Nations voice, as advocated by the historic Uluru Statement from the Heart. It argues that a constitutional amendment to empower Indigenous peoples with a fairer say in laws and policies made about them and their rights is both constitutionally congruent and politically achievable. A First Nations voice is deeply in keeping with the culture, design and philosophy of Australia's federal Constitution, as well as the long history of Indigenous

advocacy for greater empowerment and self determination in their affairs Morris explores the historical political theoretical and international contexts underpinning the contemporary debate before delving into the constitutional detail to craft a compelling case for change     **Learning Law** Anthony Marinac,Caroline Hart,Rhianna Chisholm,Jennifer Nielsen,Asmi

Wood,Adrian Evans,Sarah McKibbin,2020-10-07 Learning Law is an accessible and engaging introduction to Australian law for students considering a career in the legal profession This text teaches students how to deal with legislation and cases focusing on core topics and contextualisation This second edition has been thoroughly updated and revised with significant changes including six new chapters First Peoples and the law research the ethical lawyer statutory interpretation lawyers and clients becoming a lawyer more coverage of parliaments and courts new Living Law boxes that showcase the diverse career paths available to law graduates and new Critical Perspective boxes to engage students with critical analysis Written in a conversational style Learning Law will leave students feeling more knowledgeable about and confident in their

interactions with Australian legal institutions and legal professionals This text is an essential resource that law students will refer to throughout their studies and in the early stages of their career     Land Power Michael Albertus,2025-01-16 A must read THOMAS PIKETTY Captivating DARON ACEMOGLU Important FRANCIS FUKUYAMA An award winning political scientist shows that a society s path to prosperity sustainability and equality depends on who owns the land For millennia land has been a symbol of wealth and privilege But the true power of land ownership is even greater than we might think In Land Power political scientist Michael Albertus shows that who owns the land determines whether a society will be equal or unequal whether it will develop or decline and whether it will safeguard or sacrifice its environment Modern history has been defined by land reallocation on a massive scale From the 1500s on European colonial powers and new nation states shifted indigenous lands into the hands of settlers The 1900s brought new waves of land appropriation from Soviet and Maoist collectivization to initiatives turning large estates over to family farmers With the establishment of cooperatives in North Africa the displacement of Native Americans and divisive inheritance laws of post partition India land decisions reverberate to this day as governments vie for power and prosperity by choosing who should get land Drawing on a career s worth of original research and on the ground fieldwork Albertus shows that choices about who owns the land have locked in poverty sexism racism and climate crisis and that what we do with the land today can change our collective fate Global in scope Land Power argues that saving civilization must begin with the earth under our feet     *Incorrigible Optimist* Gareth

Evans,2017-10-02 A colourful and central figure in Australian politics for two decades described by Bob Hawke as having the most acute mind of any of his ministers Gareth Evans has also been applauded worldwide for his contributions both as Foreign Minister and in later international roles to conflict resolution genocide prevention and curbing weapons of mass destruction In this sometimes moving often entertaining and always lucid memoir Evans looks back over the highs and lows of his public life as a student activist civil libertarian law reformer industry minister international policymaker educator and

politician He explains why it is that despite multiple disappointments he continues to believe that a safer saner and more decent world is achievable and why for all its frustrations politics remains an indispensable profession not only for megalomaniacs but idealists

**Italy and Australia** Gabriele Abbondanza, Simone Battiston, 2023-12-30 This book offers a novel and comprehensive reappraisal of current relations between Italy and Australia For the first time it expands the scope of analysis by encompassing and critically reviewing research avenues that have been understudied so far In order to pursue this objective it provides innovative analyses on bilateral history reciprocal migration socio cultural ties international relations and trade comparative politics and scientific cooperation By adopting a multidisciplinary approach this book makes a significant contribution to multiple disciplinary literatures benefitting social science scholars policymakers and professionals working in a number of fields Mindful of the wide scope and multidisciplinary nature of this innovative research the editors oversee a careful balance of different theories methodologies sources and data in accordance with the conventions of each discipline employed in this volume As a result this book encourages a broader and more nuanced understanding of Italian Australian relations in the 21st century

*Constitutional Reform as a Remedy for Political Disenchantment in Australia* Bede Harris, 2020-04-22 The central argument of this book explores the disillusionment that Australians feel with regard to the way politics is conducted The book explores causes of that disillusionment and argues that because these are ultimately traceable to defects in the constitution it is only through constitutional reform that government can be improved This book argues that the current approach to constitutional debate suffers from the flaw of being anti theoretical in the sense that it is not grounded in any set of values and is afflicted by a tendency to consider practical objections to reform before considering the moral case for it This book argues that instead of accepting the constitution as it is it is time we began to discuss how it ought to be taking human dignity as the fundamental value upon which a constitution should be based It then puts the case for change in a number of areas including reform of the electoral system enhanced parliamentary scrutiny of the executive the inclusion in the constitution of a full bill of rights the abolition of the federal system realisation of the rights of Indigenous people codification of constitutional conventions either in conjunction with or separately from an Australian republic reform of the rules of standing in constitutional matters and finally the need to improve civics education This book is designed to be provocative in the way that it directly challenges current academic orthodoxy This book also outlines a proposed draft new constitution This book will be of interest to anyone who is concerned about how Australia is governed and why it has been so difficult to achieve constitutional reform

Quarterly Essay 69  
Moment of Truth Mark McKenna, 2018-03-19 Australia is on the brink of momentous change but only if its citizens and politicians can come to new terms with the past In this inspiring essay Mark McKenna considers the role of history in making and unmaking the nation From Captain Cook to the frontier wars from Australia Day to the Uluru Statement we are seeing fresh debates and recognitions McKenna argues that it is time to move beyond the history wars and that truth telling about

the past will be liberating and healing This is an urgent essay about a nation's moment of truth The time for pitting white against black shame against pride and one people's history against another's has had its day After nearly fifty years of deeply divisive debates over the country's foundation and its legacy for Indigenous Australians Australia stands at a crossroads we either make the commonwealth stronger and more complete through an honest reckoning with the past or we unmake the nation by clinging to triumphant narratives in which the violence inherent in the nation's foundation is trivialised Mark McKenna Moment of Truth      **Mabos Cultural Legacy** Geoff Rodoreda, Eva Bischoff, 2021-06-08 More than any other event in Australia's legal political and cultural history the High Court of Australia's 1992 Mabo decision challenged previous ways of thinking about land identity belonging the nation and history Now more than a quarter of a century after Mabo this book examines the broader impacts of this landmark legal decision on various forms of Australian culture and cultural practice How is Australia's post Mabo imaginary being reflected refracted and articulated in contemporary film fiction poetry biography and other forms of cultural expression To what extent has the discussion and practice of history linguistics anthropology and other branches of the humanities been challenged or transformed by Mabo While the judges in Mabo recognised native title they also denied Indigenous people sovereignty over the continent how is First Nations sovereignty being articulated and creatively imagined in more recent post Mabo discourse This interdisciplinary book offering a transnational perspective via scholars based in Australia continental Europe and the UK provides an overview of the diverse impact and discursive influence of Mabo on fields of artistic endeavour and cultural practice in Australia today
