No Place To Fall

Neil Broadfoot

No Place To Fall:

No Place to Fall Victor Saunders, 2013-03-14 *No Place to Fall* is Victor Saunders' follow up to his Boardman Tasker Prize winning debut book *Elusive Summits* Covering three expeditions to familiar and unfamiliar ranges in Nepal the Karakoram and the Kumaon each shares the exhilaration of attempting new alpine style routes on terrifyingly committing mountains In 1989 Victor Saunders and Steve Sustad completed a difficult route on the West Face of Makalu II only to be brought to a storm bound halt above 7000 metres while descending Without food or bivouac gear they endured a tortuous descent after a night in the open Two years later the pair were with a small team in the Hunza valley exploring elusive access to a giant hidden pillar on the unvisited South East Face of Ultar one of the highest and most shapely of the world's unclimbed peaks Climbing at night to avoid being caught out by the torture of sun on ice they were a few pitches from the summit ridge on soft snow and rotten ice before equipment failure committed them to a dire descent In 1992 Victor Saunders was part of a joint Indian British team climbing various peaks in the Panch Chuli range and exploring its approaches from the west A happy and successful expedition narrowly avoided ending in tragedy when Stephen Venables broke both legs in a fall on the descent from Panch Chuli V and Chris Bonington survived another fall going to his aid The dramatic evacuation of Venables in which the author took a major part forms an exciting climax to a book which describes at first hand what it is like on the cutting edge of contemporary alpine style climbing in the world's highest mountains As well as exciting climbing action *No Place to Fall* offers enviable mountain exploration enriched by sharing the lives of the mountain peoples along the way Victor Saunders also casts a perceptive if bemused eye over his fellow climbers and reflects on the calculation of risk that drives them back year after year to chance their lives in high places

No Place for Home Jay Ellis, 2013-11-05 This book was written to venture beyond interpretations of Cormac McCarthy's characters as simple antinomian and non psychological and of his landscapes as unrelated to the violent arcs of often orphaned and always emotionally isolated and socially detached characters As McCarthy usually eschews direct indications of psychology his landscapes allow us to infer much about their motivations The relationship of ambivalent nostalgia for domesticity to McCarthy's descriptions of space remains relatively unexamined at book length and through less theoretical application than close reading By including McCarthy's latest book this study offers the only complete study of all nine novels Within McCarthy studies this book extends and complicates a growing interest in space and domesticity in his work The author combines a high regard for McCarthy's stylistic prowess with a provocative reading of how his own psychological habits around gender issues and family relations power books that only appear to be stories of masculine heroics expressions of misogynistic fear or antinomian rejections of civilized life

No Place to Run Tim Cook, 2011-11-01 Historians of the First World War have often dismissed the important role of poison gas in the battles of the Western Front In *No Place to Run* however Tim Cook shows that the serious threat of gas did not disappear with the introduction of gas masks By 1918 gas shells were used by all armies to deluge the battlefield

and those not instructed with a sound anti gas doctrine left themselves exposed to this new chemical plague Cook uses fascinating primary sources diaries letters reminiscences published memoirs and the official archival record to illustrate the horror of gas warfare for the average trench soldier As the first chlorine clouds rolled across the fields during the 2nd Battle of Ypres soldiers were forced to stuff urine soaked handkerchiefs in their mouths in order to survive As the gas war evolved mustard gas plagued the soldiers at the front as it lay active in mud and snow for weeks on end There was no escape from the pervasive nature of poison gas Entering the dug outs it attacked men when they were least ready In response the Canadian Corps had to develop an anti gas doctrine a process that Cook describes in full No Place to Run provides a challenging re examination of the function of gas warfare in the First World War including its important role in delivering victory in the campaign of 1918 and its curious postwar legacy It will be of interest both to historians and military buffs

No Place to Hide Bill Sly, 2016-08-19 No Place to Hide Alpha Company at Nui Ba Den puts into words what few can imagine and even fewer have experienced the harrowing and life altering experience of facing deadly assaults from snipers The U S Army's Alpha Company deployed in Vietnam in 1969 followed orders sending it toward a mountain Nui Ba Den There they encountered North Vietnamese snipers secure on higher ground who subjected the company to two days of unremitting attack In the end nine members of the company and two of Charlie Company who came to their aid lost their lives The author Bill Sly survived both the battle at Nui Ba Den and the Vietnam War A college degree in history education and his military duties writing narratives to support awards of the Medal of Honor provided him with the background and expertise to bring to life his first hand experience with the war and this particular engagement In the pages of No Place to Hide he tells the story of this company and its men who served fought and died and those who survived to remember and to remind others of the sacrifices of their comrades No Place to Hide Alpha Company at Nui Ba Den honors the men who fought together remembers the sacrifices of those who died and preserves the history of the events it depicts

No Place to Die Neil Broadfoot, 2019-09-12 A true rising star of crime fiction Ian Rankin Tense fast moving and bloody Broadfoot's best yet Mason Cross Tension that'll hold you breathless Helen Fields Blair Charlston swapped the stock market for salvation and now he's making a killing Once a controversial venture capitalist Charlston reinvented himself as a personal and business development guru after surviving an attempt to take his own life when a business deal went disastrously wrong So when he decides to host a weekend retreat on the outskirts of Stirling for more than 300 people Connor Fraser is drafted in to cover the security for a man who is at once idolised as a saviour and hated as a ruthless asset stripper For Connor it's an unwelcome assignment He's never had much time for salvation by soundbite and Charlston's notoriety is attracting the attention of reporter Donna Blake who's asking more questions than Connor has answers for But when an old colleague of Donna's is found brutally bludgeoned to death and the start of Charlston's weekend of salvation becomes a literal trial by fire Connor must race to unmask a killer whose savagery is only matched by their cunning Praise for Neil Broadfoot Cracking pace satisfyingly twisty
