Securitization Structuring And Investment Analysis:

Securitization Andrew Davidson,Anthony Sanders,Lan-Ling Wolff,Anne Ching,2004-04-12 This book fills a very important gap in the mindset of the bond structurer and the investor Often the two disciplines approach their tasks ignorant of the perspectives of the other side But successful structuring requires providing the best value to investors in order to compete and investors who don't fully understand structuring will not remain investors for long Highly recommended Bennett W Golub Managing Director BlackRock Inc An excellent primer on asset securitization clearly written in plain English and with straightforward mathematical expressions This book is suitable for both business school students and structured finance market practitioners Joseph Hu PhD Managing Director Structured Finance Ratings Standard Former Chairman Merrill Lynch Mortgage Corporation This book provides an insightful and accessible exploration of securitized real estate markets As such it provides a valuable service to those active and interested in these burgeoning markets The authors have done a wonderful job of gracefully integrating a vast and important subject matter Accordingly this book also makes for an excellent textbook for those universities offering one or more courses in this rapidly growing field Joseph L Pagliari Jr Kellogg School of Management Northwestern University

Securitization and Structured Finance Post Credit Crunch Markus Krebsz,2011-05-18 In this book you will be introduced to generic best practice principles for a post credit crunch market First the book takes a closer look at the reasons why the market froze during the 2007 to 2009 credit crisis Then you will learn how to use the principles explained here in your generic deal's typical life cycle stages Throughout each stage is discussed in detail from strategy and feasibility pre close at close and post close The final section of the book contains a toolbox of references tables dictionaries and resources

Asset-Backed Securitization and the Financial Crisis Nadine Senanayake,2010 The study aims at analyzing the product and market functions of Asset backed Securities ABS by firstly distinguishing characteristics of the product functions and market functions in relation to Asset backed Securitization within a general compass The product functions the author refers to the phase prior to the issuing of securities namely the structuring phase Thus the author will be drawing from history and developments in the market players involved in the structuring process and descriptions of the basic product functions Secondly the author will elaborate on the market functions the phase subsequent to the product being implemented into the market Furthermore the author strives to give the reader a clear definition of the types of asset backed securities and their functions within the market framework Thirdly the author will elaborate on the shortfalls in the ABS structure with relation to its risk and continue to discuss the risks attributable to the product and market functions of ABS Finally the author will submit solutions for the featured risks within the framework and draw an outline as to the ABS securitization market in the future Chapter 1 distinguishes characteristics of the product functions of Asset Backed Securitization by explaining the key definitions associated with initiating the product phase Initially the history and development of the ABS market will be unraveled thereafter the author continues to

describe the structure of the ABS process explained by describing the role played by the key players in the process. Conclusively the author exemplifies the two main concepts of securitization's product sphere namely True sale Conventional and Synthetic Securitization. Chapter 2 distinguishes characteristics of the Market functions of Asset Backed Securitization by explaining the different types of ABS also by giving a short description of each type of asset backed securities namely ABS MBS and CDO. Furthermore the author presents *The Analysis of Structured Securities* by Sylvain Raynes, Ann Rutledge, 2003-09-25. The Analysis of Structured Securities presents the first intellectually defensible framework for systematic assessment of the credit quality of structured securities. It begins with a detailed description and critique of methods used to rate asset backed securities collateralized debt obligations and asset backed commercial paper. The book then proposes a single replacement paradigm capable of granular dynamic results. It offers extensive guidance on using numerical methods in cash flow modeling as well as a groundbreaking section on trigger optimization. Casework on applying the method to automobile ABS CDOs of ABS and aircraft lease securitizations is also presented. This book is essential reading for practitioners who seek higher precision efficiency and control in managing their structured exposures.

Structured Finance and Insurance

Christopher L. Culp, 2011-09-13. Praise for Structured Finance Insurance: More and more each year the modern corporation must decide what risks to keep and what risks to shed to remain competitive and to maximize its value for the capital employed. Culp explains the theory and practice of risk transfer through either balance sheet mechanism such as structured finance derivative transactions or insurance. Equity is expensive and risk transfer is expensive. As understanding grows and as a result costs continue to fall, ART will continue to replace equity as the means to cushion knowable risks. This book enhances our understanding of ART. Myron S. Scholes, Frank E. Buck, Professor of Finance Emeritus, Graduate School of Business, Stanford University. A must read for everyone offering structured finance as a business and arguably even more valuable to any one expected to pay for such service. Norbert Johanning, Managing Director, DaimlerChrysler Financial Services. Culp's latest book provides a comprehensive account of the most important financing and risk management innovations in both insurance and capital markets. And it does so by fitting these innovative solutions and products into a single unified theory of financial markets that integrates the once largely separate disciplines of insurance and risk management with the current theory and practice of corporate finance. Don Chew, Editor, Journal of Applied Corporate Finance, a Morgan Stanley publication. This exciting book is a comprehensive read on alternative insurance solutions available to corporations. It focuses on the real benefits, economical and practical, of alternatives such as captives, rent a captive and mutuals. An excellent introduction to the very complex field of alternative risk transfer (ART). Paul Wohrmann, PhD, Head of the Center of Excellence ART and member of the Executive Management of Global Corporate in Europe, Zurich Financial Services. Structured Finance and Insurance transcends silos to reach the Enterprise Mountaintop. Culp superbly details integrated captive, multiple triggers and capital market products and provides the architectural blueprints for enterprise risk innovation. Paul Wagner.

Director Risk Management AGL Resources Inc *True Sale Securitization in Germany and China* Shengzhe Wang, 2005-05-02 Inhaltsangabe Abstract The Master thesis for LL M at Goethe university s ILF titled True Sale Securitization in Germany and China is a comparative study about true sale securitization The initial reason for a comparative study was the similarity of banking centred financial systems in these two countries Another reason is connected with the True Sale Initiative TSI a plan composed by major German banks aiming at improving their financial situation German banks start to be plagued by the non performing loans NPLs since 2001 due to mediocre performance of German corporations and depreciation of banks investment to the east part during 1990s Facing the competitions from other countries and under pressures from the International Convergence of Capital Measurement and Capital Standards a Revised Framework Basel II issued by the Basel Committee on Banking and Supervisory Practice Basel Committee at the Bank for International Settlements the German banks employed the TSI as one part of the bigger financial reform to regain competition in Europe and worldwide December 2004 the first true sale securitization was successfully constructed in Germany after German federal government changed some of its formerly unfriendly legal taxation and accounting rules The German experiences with TSI can shed some light into how China to develop its asset backed securities ABS market in order to save its heavy NPLs burdened banks and find alternative funds for its corporations Although securitization might be a possible solution the Chinese current legal system and market infrastructure prevents it from fully utilizing this modern financing technique What China can learn from Germany s experiences is that a special securitization law is preferred to amending each relevant laws and rules in order to get rid of legal barriers and contradictions for true sale securitizations In addition strong governmental supports will facilitate and accelerate the process of true sale securitization market development The similarities between the German and Chinese financial system is the main incentive for this study Both Germany and China have a financial system that is dominated by banks and at the same time features a weak capital market Banks are the main external financing sources for domestic corporations Furthermore in both countries banks are suffering losses and carrying burden of non performing loans NPLs due to the bad **Research Handbook on International Financial Regulation** Kern Alexander, Rahul Dhumale, 2012 The globalisation of financial markets has attracted much academic and policymaking commentary in recent years especially with the growing number of banking and financial crises and the current credit crisis that has threatened the stability of the global financial system This major new Research Handbook sets out to address some of the fundamental issues in financial regulation from a comparative and international perspective and to identify some of the main research themes and approaches that combine economic legal and institutional analysis of financial markets Specially commissioned contributions represent diverse viewpoints on the financial regulation debate and cover a number of new and controversial topics not yet adequately addressed in the literature Specifically these include financial innovation particularly in the context of the credit risk transfer market securitization and the systemic
