The Persistence of Racialization Luz Angélica Kirschner,2024-10-18 The Persistence of Racialization Literature Gender and Ethnicity represents an attempt at unpacking the legacy of modern ideas of race initiated and established during the conquest of the Americas and their current relevance for literary criticism of ethnic writing also known as minority writing The book challenges ideas of a post racial globalized world to question the tendency to devalue ethnic literary writing in general and ethnic women s productions in particular by questioning reductive literary criticism of ethnic writing that perpetuates bias against ethnic writing and its authors By advocating for a decolonial literary imagination the book urges literary critics of ethnic writing to consider the complexities of modern race and its enduring impact on contemporary social and cultural narratives Updated literary analyses of Jewish Argentine Turkish German and Chinese American women writers encourage literary critics of ethnic writing to explore alternative transnational frameworks that prioritize equity diversity and social justice

The Jews of Africa and Asia: Contemporary Anti-Semitism and other pressures Tudor Parfitt,1987-11-01 The archetypal oppressed minority For centuries Jews have lived in Africa and Asia including the Middle East Over recent decades however their numbers have declined dramatically and in countries like Syria Iraq Iran Egypt and Morocco have been reduced sometimes to only a few hundred people Within a few generations these and other communities are likely to disappear altogether either because of the attraction that Israel provides or because of overt anti Semitic animosity For many there is a precarious balance between survival and persecution Persecution of Jews by a variety of host societies permeates history and continents In Europe anti Jewish prejudice existed in Greek and Roman times and later the Christian church waged ideological warfare for centuries against the synagogue Wide scale and violent destruction of Jewish lives and property erupted periodically

especially in troubled times when people looked for scapegoats Waves of European Christian anti-Semitism spread to many countries chiefly to areas of the Islamic world where traditional social and religious attitudes towards Jews provided fertile soil for discrimination Under Islam the State was required to protect Jews but they were nearly always reduced to second class citizens Alarmingly anti-Semitic hostility has recently spread to countries where Jews have never lived and are virtually unknown such as in Japan By contrast there are a few countries in which small and less historic Jewish communities continue without discrimination The Jews of Africa and Asia the new Minority Rights Group Report provides an historical analysis of European and Islamic experiences of anti-Jewish prejudice and persecution and the rise of contemporary anti-Zionism The Report gives a graphic detailed picture of the current situations of Jewish communities remaining in Africa and Asia in a country by country survey It is essential reading for all those concerned with racism and history
