Seductive Subversion Women Pop Artists 1958 1968:

Seductive Subversion Sid Sachs, Kalliopi Minioudaki, 2010 *Seductive Subversion Women Pop Artists 1958 1968* is the catalogue of the exhibition of the same title and the first book to survey the achievements of women Pop artists. Artworks by more than 20 artists are reproduced. **"American Women Artists, 1935-1970"** Helen Langa, 2017-07-05 Numerous American women artists built successful professional careers in the mid twentieth century while confronting challenging cultural transitions, shifts in stylistic avant gardism, harsh political transformations and changing gender expectations for both women and men. These social and political upheavals provoked complex intellectual and aesthetic tensions. Critical discourses about style and expressive value were also renegotiated while still privileging masculinist concepts of aesthetic authenticity. In these contexts, women artists developed their careers by adopting innovative approaches to contemporary subjects, techniques and media. However, while a few women working during these decades have gained significant recognition, many others are still consigned to historical obscurity. The essays in this volume take varied approaches to revising this historical silence. Two focus on evidence of gender biases in several exhibitions and contemporary critical writings; the rest discuss individual artists' complex relationships to mainstream developments with attention to gender and political biases, cultural innovations and the influence of racial/ethnic diversity. Several also explore new interpretative directions to open alternative possibilities for evaluating women's aesthetic and formal choices. Through its complex, nuanced approach to issues of gender and female agency, this volume offers valuable and exciting new scholarship in twentieth century American art history and feminist studies. [The Women of Atelier 17](#) Christina Weyl, 2019-01-01 This timely reexamination of the experimental New York print studio Atelier 17 focuses on the women whose work defied gender norms through novel aesthetic forms and techniques. [Pop Art and Popular Music](#) Melissa L. Mednicov, 2018-06-14 This book offers an innovative and interdisciplinary approach to Pop art scholarship through a recuperation of popular music into art historical understandings of the movement. Jukebox modernism is a procedure by which Pop artists used popular music within their works to disrupt decorous modernism during the sixties. Artists including Peter Blake, Pauline Boty, James Rosenquist and Andy Warhol respond to popular music for reasons such as its emotional connectivity, issues of fandom and identity and the pleasures and problems of looking and listening to an artwork. When we both look at and listen to Pop art, essential aspects of Pop's history that have been neglected—its sounds, its women, its queerness and its black subjects—come into focus. *Radical Eroticism* Rachel Middleman, 2018-01-16 In the 1960s the fascination with erotic art generated a wave of exhibitions and critical discussion on sexual freedom, visual pleasure and the nude in contemporary art. *Radical Eroticism* examines the importance of women's contributions in fundamentally reconfiguring representations of sexuality across several areas of advanced art: performance, pop, postminimalism and beyond. This study shows that erotic art made by women was integral to the profound changes that took place in American art during the sixties, from the crumbling of modernist aesthetics and the expanding

field of art practice to the emergence of the feminist art movement Artists Carolee Schneemann Martha Edelheit Marjorie Strider Hannah Wilke and Anita Steckel created works that exemplify these innovative approaches to the erotic exploring female sexual subjectivities and destabilizing assumptions about gender Rachel Middleman reveals these artists radical interventions in both aesthetic conventions and social norms **Pop Art and Beyond** Mona Hadler,Kalliopi

Minioudaki,2022-02-24 Pop Art and Beyond foregrounds the roles of gender race and class in encounters with Pop during the Long Sixties Exploring the work of over 20 artists from 5 continents it offers new perspectives on Pop s heterogeneity Featuring an array of rigorous chapters written by both acclaimed experts and emerging scholars this anthology transcends the borders of individual and national contexts and suspends hierarchies creating a space for the work of artists like Andy Warhol and the women of the Black Arts Movement to converse It casts an inclusive look at the intersectional complexities of difference in Pop at a moment that gave rise to a plethora of radical social movements and identity politics While this book introduces revelatory non canonical artists into the Pop context or amplifies the careers of others it is not limited to the confines of fine art Chapters explore the intersecting variables of oppression and liberation in rituals of youth subcultures as well as practices across media with Pop sources and parallels ranging from Native American objects Harlem advertisements and Cordel literature to stand up comedy music fashion and design Pop Art and Beyond thus widens the conversation about what Pop was and what it can be for current art in its struggle for social justice and critiques of power American Artists Engage the Built Environment, 1960-1979 Susannah Bieber,2023-07-31

This volume reframes the development of US American avant garde art of the long 1960s from minimal and pop art to land art conceptual art site specific practices and feminist art in the context of contemporary architectural discourses Susannah Bieber analyzes the work of seven major artists Donald Judd Robert Grosvenor Claes Oldenburg Robert Smithson Lawrence Weiner Gordon Matta Clark and Mary Miss who were closely associated with the formal aesthetic innovations of the period While these individual artists came to represent diverse movements Bieber argues that all of them were attracted to the field of architecture the work of architects engineers preservationists landscape designers and urban planners because they believed these practices more directly shaped the social and material spaces of everyday life This book s contribution to the field of art history is thus twofold First it shows that the avant garde of the long 1960s did not simply develop according to an internal logic of art but also as part of broader sociocultural discourses about buildings and cities Second it exemplifies a methodological synthesis between social art history and poststructural formalism that is foundational to understanding the role of art in the construction of a more just and egalitarian society The book will be of interest to scholars working in art history architecture urbanism and environmental humanism Mad Mädchen Margaret McCarthy,2017-07-01 The last two decades have been transformational often discordant ones for German feminism as a new cohort of activists has come of age and challenged many of the movement s strategic and philosophical orthodoxies Mad Mädchen offers an incisive analysis of these trans

generational debates identifying the mother daughter themes and other tropes that have defined their representation in German literature film and media Author Margaret McCarthy investigates female subjectivity as it processes political discourse to define itself through both differences and affinities among women Ultimately such a model suggests new ways of re imagining feminist solidarity across generational ethnic and racial lines **Sculpture and the Vitrine** JohnC.

Welchman,2017-07-05 Vitrines and glass cabinets are familiar apparatuses that have in large part defined modern modes of display and visibility both within and beyond the museum They separate objects from their contexts group them with other objects both similar and dissimilar and often serve to reinforce their intrinsic or aesthetic values The vitrine has much in common with the picture frame the plinth and the gallery but it has not yet received the kind of detailed art historical and theoretical discussion that has been brought to these other modes of formal display The twelve contributions to this volume examine some of the points of origin of the vitrine and the various relations it brokers with sculpture first in the Wunderkammer and cabinet of curiosities and then in dialog with the development of glazed architecture beginning with Paxton s Crystal Palace 1851 The collection offers close discussions of the role of the vitrine and shop window in the rise of commodity culture and their apposition with Constructivist design in the work of Frederick Kiesler as well as original readings of the use of vitrines in Surrealism and Fluxus and in work by Joseph Beuys Paul Thek Claes Oldenburg and his collaborators Jeff Koons Mike Kelley Dan Graham Vito Acconci Damien Hirst and Josephine Meckseper among others Sculpture and the Vitrine also raises key questions about the nature and implications of vitrinous space including its fronts onto desire and the spectacle transparency and legibility and onto ideas and practices associated with the archive collecting preserving and ordering *Pop Cinema* Glyn Davis,Tom Day, Pop Cinema is the first book devoted to moving image works which engage with the central thematics and aesthetics of Pop Art The essays in the collection focus in on the core concerns of Pop as a widespread and ideologically complex art movement and examine the ways in which artists in various global locations have used forms of film practice outside of the mainstream to explore those preoccupations The book s contributors also identify the ways in which dominant Pop aesthetics flat planes of bold colour mechanical forms of repetition appropriation of materials from popular culture sources were adopted reworked or abandoned by such filmmakers At root the book asks three basic questions what shapes might a Pop form of cinema take what materials would it engage with and what might it have to say
