Jeremy Daniel Smoak

Segen Martin Leuenberger:

The Priestly Blessing in Inscription and Scripture Jeremy Daniel Smoak, 2016 Jeremy Smoak presents a synthesis of recent discoveries bearing upon the early history and function of the biblical priestly blessing of Numbers 6:24-26. The book gives special focus to the importance of the discovery of the blessing on two silver amulets from Jerusalem dating to the late Iron Age and several other Iron Age inscriptions containing parallels to the blessing. The analysis of the inscriptions provides a new way to approach the meaning and significance of the instructions for the blessing in the biblical book of Numbers.

Mit dem Segen der Kirche? Dr. Stephan Loos, Michael Reitemeyer, Georg Trettin, 2019-07-15 Die Frage nach einer angemessenen Pastoral gleichgeschlechtlichen Paaren gegen über wird in der katholischen Kirche strittig diskutiert. Die Beiträge des Bandes setzen sich mit kirchlichen Stellungnahmen aus anthropologischer und psychologischer Sicht auseinander. Neben moral-theologischen Sichtweisen auf gleichgeschlechtliche Partnerschaften geht es wesentlich darum zu untersuchen, welche konkreten pastoralen Möglichkeiten es gibt, wenn man sie nicht ablehnt, sondern in Betracht zieht.

Jewish Studies on Premodern Periods Carl S. Ehrlich, Sara R. Horowitz, 2023-05-22 This volume examines new developments in the fields of premodern Jewish studies over the last thirty years. The essays in this volume, written by leading experts, are grouped into four overarching temporal areas: the First Temple, Second Temple, Rabbinic, and Medieval periods. These time periods are analyzed through four thematic methodological lenses: the social, scientific, history and society, the textual, texts and literature, the material, art, architecture and archaeology, and the philosophical, religion and thought. Some essays offer a comprehensive look at the state of the field, while others look at specific examples illustrative of their temporal and thematic areas of inquiry. The volume presents a snapshot of the state of the field, encompassing new perspectives, directions, and methodologies, as well as the questions that will animate the field as it develops further. It will be of interest to scholars and students in the field, as well as to educated readers looking to understand the changing face of Jewish studies as a discipline advancing human knowledge.

Continuity and Discontinuity Lena-Sofia Tiemeyer, Hans M. Barstad, 2014-04-24 This volume of collected essays focuses on the relationship between the different texts within Isaiah 40-66. It reinvestigates and challenges the traditional division between chapters 40-55 and 56-66 and explores new ways of reading the last 27 chapters of the book of Isaiah. Each article examines Isaiah 40-55 and/or Isaiah 56-66 and highlights continuity and discontinuity within this material. Some contributions belong to the tradition of historical-critical research. They examine existing models of textual development of Isa 40-66 and offer new suggestions. They also explore the interplay between the historical development of the text and its thematic continuity and discontinuity. Is the consistent use of a theme a sign of single authorship? Alternatively, are changes in the way a given issue is treated a sign of multiple authorship? Other contributions explore the final form of Isa 40-66 and suggest reading strategies that do justice to the message of the extant text. Yet other articles make case studies of specific elements of Isa 40-66. What is the significance of these texts for the theological development of the ancient Israelite religion?

Further how do they interact with and transform other texts in the Hebrew Bible

What's in a Divine Name? Alaya Palamidis, Corinne Bonnet, 2024-03-18 Divine Names are a key component in the communication between humans and gods in Antiquity Their complexity derives not only from the impressive number of onomastic elements available to describe and target specific divine powers but also from their capacity to be combined within distinctive configurations of gods The volume collects 36 essays pertaining to many different contexts Egypt Anatolia Levant Mesopotamia Greece Rome which address the multiple functions and wide scope of divine onomastics Scrutinized in a diachronic and comparative perspective divine names shed light on how polytheisms and monotheisms work as complex systems of divine and human agents embedded in an historical framework Names imply knowledge and play a decisive role in rituals they move between cities and regions and can be translated they interact with images and reflect the intrinsic plurality of divine beings This vivid exploration of divine names pays attention to the balance between tradition and innovation flexibility and constraints to the material and conceptual parameters of onomastic practices to cross cultural contexts and local idiosyncrasies in a word to human strategies for shaping the gods through their names

The Blessing and the Curse Jeff S. Anderson, 2014-07-07 The magical power of the spoken word is a topic that often comes up in a discussion of biblical blessings and curses What is the source of social and linguistic power behind these blessings and curses Many theologians would agree that God can and does bless but does God also curse If so what does that mean to the biblical theology of the Old Testament and the Christian church Anderson's *The Blessing and the Curse* applies speech act theory as one way to understand the performative function of blessings and curses The concept of speech acts provides a method of recognizing the potent social power of language to accomplish certain ends without drawing a hard line of distinction between word magic and religion Even though the chief concepts and practices of blessings and curses are deeply rooted in the broad cultural environment of the ancient Near East tracing specific trajectories of Old Testament blessings and curses as theological themes conveys broad inescapable implications for the biblical narrative and the Christian church

A Historical Theology of the Hebrew Bible Konrad Schmid, 2019-05-09 In this meticulously researched study Konrad Schmid offers a historical clarification of the concept of theology He then examines the theologies of the three constituent parts of the Hebrew Bible the Torah the Prophets and the Writings before tracing how these theological concepts developed throughout the history of ancient Israel and early Judaism Schmid not only explores the theology of the biblical books in isolation but he also offers unifying principles and links between the distinct units that make up the Hebrew Bible By focusing on both the theology of the whole Hebrew Bible as well as its individual pieces *A Historical Theology of the Hebrew Bible* provides a comprehensive discussion of theological work within the Hebrew Bible

Rahel Wells, 2025-11-18 While the critique of existing approaches to the composition of the Pentateuch has its place the editors of this volume argue that there is a need to formulate positive proposals based on verifiable data and logical argumentation Building on the foundation established in the preceding volume *Exploring the Composition of the Pentateuch Volume 1* pursues this goal by addressing three essential questions What are key strategic areas of research that need attention In what areas can we draw conclusions And what are the limits of available relevant evidence Part 1 of this volume investigates the readability of the Pentateuch exploring narrative techniques inconsistencies and coherence Part 2 tackles issues relevant for the dating of Deuteronomy like the narrative retelling in Deut 1-3 dating based on parallels to the Loyalty Oath of Esarhaddon and deuteronomistic tribal language And part 3 focuses on issues related to the overall dating of the Pentateuch discussing empirical models comparisons with the Hazor Legal Fragments turning points in pentateuchal scholarship the direction of dependence between the legal material of the Pentateuch and the absence of Zion theology in the Pentateuch In addition to the editors the contributors include Richard E Averbeck John S Bergsma Joshua Berman Daniel I Block Mark Steven Francois Roy E Gane Richard S Hess Benjamin Kilch r Noel K Weeks
