Our Ageing Brain By Aleman Andre 2014 Paperback:

Our Ageing Brain Andre Aleman, 2014-09-01 An international bestseller delivering good news on brain function and ageing We all worry sometimes that our brains particularly our memories just don't work as well as they used to In this illuminating book internationally acclaimed Dutch neuroscientist Andr Aleman shows that although the decline in our mental capacities begins earlier than we think this is not such a bad thing In fact older people are more resistant to the effects of stress cope better with their emotions and with complex situations and are generally speaking happier than their younger counterparts *Our Ageing Brain* will change the way we think about age and mental acuity Drawn from the latest research in cognitive science it outlines what takes place in the brain as we age how to recognise the early symptoms of Alzheimer's disease and how to distinguish fact from fiction when it comes to ways of slowing down the ageing process It concludes with the seven most important things we can each do to keep our brains healthy Published here in English for the first time this is a refreshing informative and ultimately reassuring examination of what happens to our most important organ as we grow older

Het seniorenbrein André Aleman, 2012-10-17 Het seniorenbrein brengt verantwoorde kennis over je verouderende hersenen Het is een optimistisch boek ondanks dat onprettige zaken worden niet vermeden Zoals schrijver zelf zegt Kom maar op met dat seniorenbrein Het seniorenbrein van Andr Aleman vertelt volgens de nieuwste wetenschappelijke inzichten wat er in ons hoofd gebeurt als we ouder worden We maken ons allemaal wel eens zorgen over ons geheugen en ons verstand zeker als we de vijftig gepasseerd zijn De achteruitgang van het menselijk brein begint al vroeg maar is minder erg dan we soms denken Sterker nog een ouder brein is stressbestendiger en kan beter omgaan met complexe situaties dan een jong brein Het seniorenbrein laat zien welke veranderingen je kunt verwachten en waarom hoe je de voor tekenen van alzheimer kunt herkennen en hoe je zelf van alles kunt doen om je hersenen scherp en gezond te houden

Encountering Mystery Dale C. Allison, 2022-07-26 Despite widespread skepticism on the matter a significant number of people today have stories of religious experience moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions How should rationally minded people respond What would your reaction be if someone told you that one night while sitting alone she saw through the window a brilliant light descend from the sky until it was so large that it filled the room and that it radiated a feeling of pure love And what would you say if a friend confided that one night he woke up and could not move felt he was being suffocated and sensed an evil spirit in the room By default in the secular age we are skeptical about anything mysterious or supernatural More likely than not most people would respond to the stories above with embarrassment and concern about the person's grasp of reality or they would attempt to explain them away through rational or scientific means But the truth is that religious experiences like these are not as uncommon as they seem although talking about such experiences often is This is the case even in a faith tradition such as Christianity despite the Bible's numerous accounts of miraculous and mysterious happenings In *Encountering Mystery*

noted biblical scholar Dale Allison makes the argument that stories of religious experience are meaningful and not to be marginalized and that we have a moral prerogative to lovingly engage with such stories regardless of whether we have had similar experiences Through a close look at phenomena such as moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions Allison shows how ordinary practices of faith need not be at odds with individual religious experiences Above all he enjoins us to be honest about the persistence of religious experience in a secular age and to make space for those who encounter mystery in their lives
