Outboard Rigging Manual:

Skipper's Mast and Rigging Guide Rene Westerhuis, 2013-04-15 The Skipper's Mast and Rigging Guide is a new title in our popular series of cockpit guides that are designed for easy reference on board in all weather conditions. Of all the elements that are hard to set up on a sailboat, gauging how mast running rigging and standing rigging should work in combination with each other is perhaps the trickiest of arts; some might call it a black art. And of course it is essential to get it right in order to stabilise the mast, reduce undue stress and consequently ensure the safety of everyone on board. This handy cockpit guide will simplify and explain to the reader exactly how to set up their mast rigging and running rigging for whatever size of yacht and with whatever rig combination. It will take the reader through the basics of setting up and adjusting their rig step by step with helpful diagrams and detailed colour photographs throughout. With this book in one hand and a spanner in the other, skippers will be able to make their own adjustments without having to call in expensive riggers.

Uva's Rigging Guide for Studio and Location Michael Uva, Sabrina Uva, 2013-08-29 Readers of Mike Uva's GRIP BOOK who are interested in more detailed information on the work of the grip department will welcome his new rigging manual, clearly detailing all the ways to mount cameras and lights both on a set as well as on location. The book covers the latest truss systems, rigging equipment and portable stages as well as lifts, boom arms and camera mounts for every type of moving vehicle. The book is not limited to equipment specifications; however, Uva offers tips and tricks throughout in order to make the process of setting up and shooting safer and more efficient. Grips often need to invent makeshift solutions in a short time, and Uva shares many such devices developed over his years in the film and TV industry. This book will help grips and key grips move on to the bigger feature projects and commercials that require this equipment. It will also be useful for directors of photography and producers in pre-planning the required equipment for specific shots. **Aviation Unit and**
