Outdoor Play Fun Seasons Ii:

Outdoor Learning through the Seasons Ann Watts, 2020-05-14 Outdoor learning and play experiences are an essential part of young children's development. The importance of offering children first hand experience of the natural world becomes more urgent as research evidence demonstrates the benefits of becoming physically and emotionally involved with the natural world. Outdoor Learning through the Seasons shows how we can encourage young children to engage with nature on a daily basis throughout the year. Using the four seasons as a framework it supports adults to develop their own awareness of the world around them and feel confident about taking children outside every day. There are suggestions for caring for gardens and wildlife through the year and ideas to brighten grey winter days, enjoy the summer sunshine or explore in the snow. Now featuring full colour photographs throughout this new edition has been updated to include references to recent research, new material on Forest Schools, discussion questions for practitioners and in depth case studies of learning in action. Features include: Ideas for all seasons, weather conditions and working with the four elements earth, air, water and fire. Guidance on fulfilling the learning requirements of EYFS and the Characteristics of Effective Learning. Advice on working with parents and the role of adults. Practical tips and suggestions of how to make the most of a small space or how to re-plan an existing space. Useful reference lists of further resources including stories, poems and websites.
