Orthodoxy And Heresy In Early Christian Contexts Reconsidering The Bauer Thesis:

Orthodoxy and Heresy in Early Christian Contexts Paul A. Hartog, 2015-01-30 Eighty years ago Walter Bauer promulgated a bold and provocative thesis about early Christianity He argued that many forms of Christianity started the race but one competitor pushed aside the others until this powerful orthodox version won the day The victors re wrote history marginalizing all other perspectives and silencing their voices even though the alternatives possessed equal right to the title of normative Christianity Bauer s influence still casts a long shadow on early Christian scholarship Were heretical movements the original forms of Christianity Did the heretics outnumber the orthodox Did orthodox heresiologists accurately portray their opponents And more fundamentally how can one make any objective distinction between heresy and orthodoxy Is such labeling merely the product of socially situated power Did numerous valid forms of Christianity exist without any validating norms of Christianity This collection of essays each written by a relevant authority tackles such questions with scholarly acumen and careful attention to historical cultural geographical and socio rhetorical detail Although recognizing the importance of Bauer s critical insights innovative methodologies and fruitful suggestions the contributors expose numerous claims of the Bauer thesis in both original and recent manifestations that fall short of the historical evidence With contributions from Rodney Decker Carl Smith William Varner Rex Butler Bryan Litfin Brian Shelton David Alexander Edward Smither Glen Thompson

Geschiedenis en uitbreiding van het christendom van zijn oorsprong tot de 5e eeuw

Martin Bakers, Mikael Eskelner, Stephen Baskolan, Het christendom is ontstaan uit de bediening van Jezus een joodse leraar en genezer die het op handen zijnde koninkrijk van God verkondigde en werd gekruisigd c 30-33 n Chr In de Romeinse provincie Judea uit de 1e eeuw Zijn volgelingen geloven dat hij volgens de evangeliën de Zoon van God was en dat hij stierf voor de vergeving van zonden en werd opgewekt uit de dood en verheven door God en spoedig zal terugkeren bij de aanvang van Gods koninkrijk In de vroege middeleeuwen verspreidden missionaire activiteiten het christendom naar het westen onder de Duitse volkeren Tijdens de hoge middeleeuwen groeiden het oosterse en westerse christendom uit elkaar wat leidde tot 1054 Toenemende kritiek op de rooms katholieke kerkelijke structuur en het gedrag ervan leidde tot de protestantse beweging van de 16e eeuw en de splitsing van het westerse christendom Sinds het Renaissance tijdperk met kolonialisme geïnspireerd door de kerk heeft het christendom zich over de hele wereld uitgebreid Tegenwoordig zijn er wereldwijd meer dan twee miljard christenen en is het christendom de grootste religie ter wereld geworden In de afgelopen eeuw toen de invloed van het christendom in het Westen afnam is het snel gegroeid in het Oosten en het Globale Zuiden in China Zuid Korea en een groot deel van Afrika bezuiden de Sahara

A Skeptic's Investigation into Jesus J. P. Hannah, 2020-04-27 Does human life have any significance The statements below have become widely accepted in the Western world Life is the accidental product of random events The laws of physics are totally deterministic Science does not accept a connection between physical matter and human consciousness Atheism is a conclusion from evidence while faith is speculation Science

and faith are incompatible Suffering contradicts the existence of a loving omnipotent God Jesus was a compilation of pagan mythologies or a human teacher who was deified But do these statements represent eternal truths Are they logical conclusions based on established facts or merely opinions What is the evidence To investigate these and other questions of existence and faith a skeptical academic objectively explored relevant aspects of philosophy mythology history archaeology cosmology quantum physics biochemistry and various faiths that finally led to investigation of the Judeo Christian Scriptures including the Dead Sea Scrolls and the gnostic gospels The findings of this research not only challenge many modern assumptions but also have significant implications for our understanding of reality Written with minimum technicality for general readership this book presents a wide range of interesting and carefully confirmed facts relevant to the above questions Whether you are an atheist or an agnostic a Christian or a follower of another faith or have simply not been interested this investigation provides valuable and surprising insights into the nature of the universe and our place in it

Orthodoxy and Heresy Steven Nemes,2022-11-17 Orthodoxy and heresy are essential categories by which the Catholic theological tradition evaluates the im propriety of various beliefs and practices relative to its non negotiable commitments This Element sketches moments in the development of Christian orthodoxy and heresy in time as much in the Old and New Testament as in the history of the Church It also touches upon the vexed theological methodological question of the relation between Scripture and ecclesial Tradition before concluding with a critique of the Catholic tradition s preoccupation with orthodoxy and heresy in favor of a Christian theology without anathemas that is concerned only for truth Missionary

Monks Edward L. Smither,2016-12-02 Missionaries go into all the world and make disciples of all nations while monks live cloistered in a monastery and focus their lives on prayer and studying Scripture correct Not exactly When we study the history of Christian mission especially from around 500 to 1500 CE the key missionaries that we constantly encounter are monks In fact if we don t have monks in this period then we have very little in the way of Christian mission Our aim in this book is to examine the phenomenon of missionary monks those who pursued both a monastic and missionary calling We will meet the monks and monastic orders narrate their journeys in mission and evaluate their approaches to and thoughts about mission

The Doubt of the Apostles and the Resurrection Faith of the Early Church J. D. Atkins,2019-08-02 Why do the Gospels depict the risen Jesus as touchable and able to eat J D Atkins challenges the common view that Luke 24 and John 20 are apologetic responses to docetism by re examining the redaction of the appearance stories in light of their reception among early docetists and church fathers Page 4 of cover

Spirit Wind Peter L. H. Tie,Justin T. T. Tan,2020-12-29 Spirit Wind a collaborative investigation into the works and person of the Holy Spirit clearly and richly demonstrates diversity in theological perspectives but unity in the Christian faith All theological discussions should aim at humbly respecting theological distinctiveness while sincerely encouraging theological conversations Spirit Wind offers itself to achieve just that Spirit Wind consists of nine chapters written by nine Chinese theologians born in the Orient and trained in the West who are

now serving passionately as seminary professors in Australia Singapore Taiwan or the United States Each author endeavors to explain the person and works of the Holy Spirit not only from Chinese standpoints but also from biblical historical and cultural pastoral perspectives and yet all chapters are theological in nature No theologian claims to capture all matters about the Spirit but every author of this book is captivated by the powerful presence sovereign freedom and beautiful operations of the Holy Spirit You will be too

The Nature of Christian Doctrine Alister E. McGrath, 2024-01-02 A groundbreaking account of the origins development and enduring significance of Christian doctrine explaining why it remains essential to the life of Christian communities Noting important parallels between the development of scientific theories and Christian doctrine Alister E McGrath examines the growing view of early Christianity as a theological laboratory We can think of doctrinal formulations as proposals submitted for testing across the Christian world rather than as static accounts of orthodoxy This approach fits the available evidence much better than theories of suppressed early orthodoxies and reinforces the importance of debate within the churches as a vital means of testing doctrinal formulations McGrath offers a robust critique of George Lindbeck s still influential *Nature of Doctrine* 1984 raising significant concerns about its reductionist approach He instead provides a more reliable account of the myriad functions of doctrine utilising Mary Midgley s concept of mapping as a means of coordinating the multiple aspects of complex phenomena McGrath s approach also employs Karl Popper s Three Worlds allowing the theoretical objective and subjective aspects of doctrine to be seen as essential and interconnected We see how Christian doctrine offers ontological disclosure about the nature of reality while at the same time providing a coordinating framework which ensures that its various aspects are seen as parts of a greater whole Doctrine provides a framework or standpoint that allows theological reality to be seen and experienced in a new manner it safeguards and articulates the core vision of reality that is essential for the proper functioning and future flourishing of Christian communities

For Your Sake He Became Poor Georges Massinelli, 2021-04-19 The Pauline collection for the poor in Jerusalem is the most famous example of financial support for geographically distant groups in early Christianity Recent assessments of the Pauline collection have focused on patronage to explain the social relations between Jerusalem and the Pauline groups and the strategies adopted by Paul Through a comparison with the Greco Roman world and a close reading of the texts this study challenges the recent approach and proposes that other factors shaped Paul s stance Paul was interested in reassuring the Corinthians about the financial outcome of the collection and dispelling doubts that he might take advantage of them The collection was an action modeled on divine generosity and an exchange within a reciprocal relationship between Christian groups This study also surveys intergroup support between Christian groups in the first three centuries CE This practice involved churches from most of the Mediterranean Basin and was known even outside of Christian circles Transfers of money were organized according to a consistent pattern modeled on local charitable practices The Pauline collection had similar characteristics and can be seen as part of this widespread economic practice
