Oslo Principles On Global Climate Obligations:

Oslo Principles on Global Climate Change Expert Group On Global Climate Obligations, 2015 Climate change is a grave and urgent threat to human and other life Earth's ecosystem global security and economic well being The global community increasingly understands that business as usual is no longer an option Debate about states legal obligations to reduce their greenhouse gas emissions is still in its infancy This seriously hinders progress through the political process or the courts A group of legal experts has sought to fill this gap by drafting the Oslo Principles on Global Climate Change Obligations The Principles identify states reduction obligations and articulate a series of related obligations aimed at prevention This book is an extensive commentary that further explains the Principles and their legal underpinning The members of the expert group are Antonio Benjamin Michael Gerrard Toon Huydecoper Michael Kirby M C Mehta Thomas Pogge Qin Tianbao Dinah Shelton James Silk Jessica Simor Jaap Spier rapporteur Elisabeth Steiner and Philip Sutherland Series Legal Perspectives for Global Challenges Vol 3 Subject International Law Environmental Law **Human Rights and Investment Law for**

Climate Change Beatriz Martinez Romera, Linnéa Nordlander, Alessandro Monti, Jens Elo Rytter, 2025-10-07 This timely book explores the contribution of international human rights and investment law to advancing climate action It presents a unique perspective on climate change in an international law context analyzing areas of law that are critical to the achievement of the Paris Agreement's goals in the absence of sufficient state ambition **Companies and Climate Change** Lisa

Benjamin, 2021-04-29 Companies lie at the heart of the climate crisis and are both culpable for and vulnerable to its impacts Rising social and investor concern about the escalating risks of climate change are changing public and investor expectations of businesses and as a result corporate approaches to climate change Dominant corporate norms that put shareholders and their wealth maximization at the heart of company law are viewed by many as outdated and in need of reform Companies and Climate Change analyzes these developments by assessing the regulation and pressures that impact energy companies in the UK with lessons that apply worldwide In this work Lisa Benjamin shows how the Paris Agreement climate and energy law in the EU and the UK and transnational human rights and climate litigation are regulatory and normative developments that illustrate how company law can and should act as a bridge to progressive corporate climate action **Climate Change Law**

Coplan, Karl S., Green, Shelby D., Fischer Kuh, Katrina, Narula, Smita, Rábago, Karl R., Valova, Radina, 2021-12-10 This timely and incisive book combines an introduction to the core legal and policy issues presented by climate change with a deeper analysis of decisions that will define the path forward Offering a guide to key terms concepts and legal principles in the field this book will help readers develop a sophisticated perspective on issues central to climate change law and policy Climate Change Finance and International Law Alexander Zahar, 2016-12-01 Since 2010 a significant quantity of international climate change finance has begun to reach developing countries However the transfer of finance under the international climate change regime the legal and ethical obligations that underpin it the constraints on its use its intended outcomes and its

successes failures and future potential constitutes a poorly understood topic Climate Change Finance and International Law fills this gap in the legal scholarship The book analyses the legal obligations of developed countries to financially support qualifying developing countries to pursue globally significant mitigation and adaptation outcomes as well as the obligations of the latter under the international regime of financial support Through case studies of climate finance mechanisms and a multitude of other sources this book delivers a rich legal and empirical understanding of the implementation of states climate finance obligations to date The book will be of interest to scholars and students of international law and policy international relations and the maturing field of climate change law *Transnational Environmental Regulation and Governance* Veerle Heyvaert, 2019 A guide to the meaning of environmental regulation in an era of transnational cooperation for sustainability

Climate Obligations of Enterprises Expert Group on Climate Obligations of Enterprises, 2018 Climate change is the most important challenge humankind has ever faced It is commonly accepted that GHG emissions must be reduced at great pace and to a significant extent to keep global warming below 2 or preferably 1.5 degrees Celsius This can only be reached if the obligations of major players States enterprises and investors are sufficiently clear The Oslo Principles aim to discern the legal obligations of States The current Principles focus on the obligations of enterprises and investors They identify the reduction obligations of enterprises and articulate a series of related obligations Investors can and many already do play an important role These Principles aim to provide a legal basis for active investment management and engagement geared at stimulating enterprises to comply with their legal obligations An extensive commentary further explains the Principles and their legal underpinning The members of the expert group are Thomas Pogge Brian Preston Tianbao Qin James Silk Jaap Spier reporter Elisabeth Steiner Philip Sutherland and Daniël Witte Series Legal Perspectives on Global Challenges Vol 5 Subject

International Environmental Law Climate Change Climate Change Litigation in the Asia Pacific Jolene Lin, Douglas A. Kysar, 2020-10-29 This is the first scholarly examination of climate change litigation in the Asia Pacific region Bringing legal academics and lawyers from the Global South and Global North together this book provides rich insights into how litigation can galvanize climate action in countries including Pakistan Indonesia Malaysia and China Written in clear and accessible language the fourteen chapters in this book shed light on the important question of how litigation may unfold as a potential regulatory pathway towards decarbonization in the world's most populous region **Just Security in an Undergoverned**

World William J. Durch, Joris Larik, Richard Ponzio, 2018 Just Security in an Undergoverned World examines how humankind can manage global problems to achieve both security and justice in an age of antithesis Global connectivity is increasing visibly and invisibly in trade finance culture and information helping to spur economic growth technological advance and greater understanding and freedom but global disconnects are growing as well Ubiquitous electronics rely on high value

minerals scraped from the earth by miners kept poor by corruption and war People abandon burning states for the often indifferent welcome of wealthier lands whose people in turn draw into themselves Humanity s very success underwritten in large part by lighting up gigatons of long buried carbon for 200 years now threatens humanity s future The global governance institutions established after World War Two to manage global threats especially the twin scourges of war and poverty have expanded in reach and impact while paradoxically losing the political support of their wealthiest and most powerful members Their problems mimic those of their members in struggling to adapt to new problems and maintain trust in institutions This volume argues however that a properly mandated managed and modernized global architecture offers unparalleled potential to midwife solutions to vexing issues that transcend borders and capacities of individual actors from conflict and climate change to poverty and pandemic disease The volume offers just security as a new framework for evaluating innovative solutions and strategies for institutional reform
