Bringing together cutting-edge authors from academia, legal practice, and the technology industry, *Future Law* explores and leverages the power of human imagination in understanding, critiquing, and improving the legal responses to technological change. It focuses on the practical difficulties of applying law, policy, and ethical structures to emergent technologies both now and in the future. It covers crucial current issues such as big data, ethics, ubiquitous surveillance, and the Internet of Things and disruptive technologies such as autonomous vehicles, DIY genetics, and robot agents. By using examples from popular culture such as books, films, TV, and Instagram, including *Black Mirror*, Disney Princesses, *Star Wars*, *Doctor Who*, and *Rick and Morty*, it brings hypothetical examples to life. And it asks where law might go next and to regulate new phase technology such as artificial intelligence, smart homes, and automated emotion recognition. **Rogues and Scholars** James Stourton, 2024-09-12 A *Times* Best Art Book of the Year 2024. A riot of a book. *Country Life*'s Books of the Year 2024. The modern art market was born on a single night. On 15 October 1958, Sotheby's of Bond Street staged an event sale of Impressionist paintings from the collection of an American banker, Erwin Goldschmidt: three Manets, two Cézannes, one Van Gogh, and a Renoir. Movie stars and other celebrities attended in black tie and saw the seven lots go for 781,000 at the time, the highest price for a single art sale. Overnight, London became the world centre of the art market, and Sotheby's an international auction house. The event signalled a shift in power from dealers to auctioneers and pointed the way for Impressionist paintings to dominate the market for the next forty years. In this climate, Sotheby's and Christie's became a great business duopoly, as aggressive, dominant, and competitive in the field of art sales as Pepsi and Coca-Cola were in soft drinks. The resulting expansion of the market was accompanied by rocketing prices, colourful scandals, and legal dramas. Over the decades, London transformed itself from a place of old master sales to a revitalised centre of contemporary art, a process crowned by the opening of Tate Modern in 2000. James Stourton tells the story of the London art market from the immediate postwar period to the turn of the millennium in engaging and fast-paced style, populating his richly entertaining narrative with a glorious rogues' gallery of clever amateurs, eccentric scholars, brilliant emigrants, cockney traders, and grandees with a flair for the deal. **Girl in a Band** Kim Gordon, 2015-02-22 Often described as aloof, Kim Gordon opens up as never before in *Girl in a Band*. Telling the story of her family, her life in visual art, her move to New York City, the men in her life, her marriage, her relationship with her daughter, her music, and her band, *Girl in a Band* is a rich and beautifully written memoir. Gordon takes us back to the lost New York of the 1980s and 90s that gave rise to Sonic Youth and the Alternative revolution in popular music; the band helped usher in, paving the way for Nirvana, Hole, Smashing Pumpkins, and many other acts. But at its core, *Girl in a Band* examines what partnership means and what happens when it dissolves. **Research Handbook on Art and Law** Jani McCutcheon, Fiona McGaughey, 2020-01-31 Featuring international contributions from leading and

emerging scholars this innovative Research Handbook presents a panoramic view of how law sees visual art and how visual art sees law It resists the conventional approach to art and law as inherently dissonant one a discipline preoccupied with rationality certainty and objectivity the other a creative enterprise ensconced in the imaginary and inviting multiple unique and subjective interpretations Blending these two distinct disciplines this unique Research Handbook bridges the gap between art and law **The Photographic Art Market** ,2007
