In Counterpoint Kristine Suna-Koro, 2017-05-01 What does postcoloniality have to do with sacramentality How do diasporic lives and imaginaries shape the course of postcolonial sacramental theology Neither postcolonial theorists nor sacramental theologians have hitherto sought to engage in a sustained dialogue with one another In this trailblazing volume Kristine Suna Koro brings postcolonialism diaspora discourse and Christian sacramental theology into a mutually critical and constructive transdisciplinary conversation Dialoguing with thinkers as diverse as Edward Said and Gayatri Spivak as well as Francis D Sa S J Martin Luther Mayra Rivera and John Chryssavgis the author offers a postcolonial retrieval of sacramentality through a robust theological engagement with the postcolonial notions of hybridity contrapuntality planetarity and Third Space While exploring the methodological potential of diasporic imaginary in theology this innovative book advances the notion of sacramental pluriverse and of Christ as its paradigmatic crescendo within the sacramental economy of creation and redemptive transformation In the context of ecological degradation In Counterpoint argues that it is vital for the postcolonial sacramental renewal to be rooted in ethics as a uniquely postcolonial fundamental theology

Revisiting Colonialism and Colonial Labour Sivachandralingam Sundara Raja, Shivalingam Raymond, 2023-07-31 This book argues that the prevailing view of colonialism that it was a negative and destructive phenomenon needs to be rethought It focuses on the experiences of the South Indian working class large numbers of which came to Malaya in the early years of the twentieth century emigrating from socially economically and environmentally inhospitable south India It examines the opportunities which colonialism presented for these people highlighting also the British approach to colonialism in Malaya an approach which emphasised conservatism and tradition and which protected the interests of the Malay aristocrat classes and by extension the Malay masses in order to compensate for European economic dominance and the influx of a non Malay labour force Overall the book demonstrates that the South Indians a class whose identity social existence and prospects were inextricably linked to imperial processes benefitted from colonialism and should be viewed as an active transnational entity within a constructive system rather than as passive victims of repressive destructive forces

Orientalism, Liberalism and Colonial Governmentality Sanjeev Kumar HM, 2025-04-30 This book explores the formation of contemporary South Asia as a geopolitical metaphor psycho cultural concept and historical trope It traces the region s colonial past focusing on the evolution of its semantic and semiotic meanings particularly through the lens of Michel Foucault s methods of genealogy and archaeology The book examines how Orientalism and liberalism key elements of colonial power and epistemology shaped the conception of modern South Asia It argues that these discourses were not isolated but intertwined shaped by Edmund Burke s ideas on imperial rectitude the utilitarian reform agenda focused on improvement and Victorian notions of morality and civility Through this analysis the book shows how the British using the coercive power of colonialism produced knowledge about India blending post Enlightenment values with perceptions of the colonized periphery This mix of metropolitan ideals and colonial narratives shaped the understanding of South Asia in ways that were deeply ideological and epistemic Ultimately the book asserts that the conception of modern South Asia was formed through a complex interplay of colonial knowledge which sought to frame the region within a distorted imperial worldview By mapping this intersection of power knowledge and culture the book provides a critical genealogy of the modern South Asian identity
