Pervasive Computing Hans W. Gellersen, Roy Want, Albrecht Schmidt, 2005-05-03

WelcometotheProceedingsofPervasive2005 The3rdInternationalConference on Pervasive Computing. We were honored to serve as chairs in this conference series, which was founded in 2002 and is now emerging as one of the most respected venues for publication of research on pervasive and ubiquitous computing. The conference is attracting research submissions of very high quality from all over the world and from researchers representing a variety of disciplines and perspectives. We thank everybody who submitted their papers to Pervasive, demonstrating the extensive work going on in this area, and the Program Committee and our external reviewers who spent countless hours providing feedback and guidance in order to create the final program. This year we received 130 submissions. By the end of the review process, we had 566 reviews on file as well as long email discussion threads for each paper. In an initial phase, we had each paper reviewed by two members of the Program Committee and two external reviewers. In a second phase, each paper was discussed by its four reviewers to reach a consensus as to its technical merit. At the end of this phase, the top-rated papers as well as those that were found to be most controversial were selected for discussion at the PC meeting and reviewed by an additional PC member. The result being that each paper discussed in the PC meeting had 5 reviews and was read by three
