Ben Pentreath

Norfolk Vision Of England:

An English Vision Ben Pentreath, 2024-09-24 Pentreath is renowned as one of the foremost designers of new traditional buildings and country houses in the world. In celebration of his London based firm's twentieth anniversary, Pentreath presents his authentically yet playfully classical approach. This is the first of Pentreath's books to present his own output in its entirety from his personal residences in Dorset, London, and Scotland that brought him international fame to many old and new houses that he has designed, and some of the larger town-scaled projects that make his practice unique in the world of traditional design. Although the results range from his colorful and romantic versions of the English country cottage to traditional splendor, there are underlying ideas that inform the breadth of his output: a sense of scale, proportion, craft, detail, sustainability, and appropriateness that have a universal relevance today. Pentreath has authored as well as taken all photographs in this book, which looks at some thirty case studies, large and small, including many previously unpublished works. The designs encompass an understanding of materials, texture, classical and vernacular detail, color, richness, and simplicity by turn, as exemplified in both sumptuous and honest interiors, grand country houses, and pragmatically organized town plans. While being steeped in a learned classicism, Pentreath's work is celebrated by young and old around the world, as exemplified by his coverage in major media outlets.

Tracing Your Ancestors: Cambridgeshire, Essex, Norfolk & Suffolk Gill Blanchard, 2018-04-30 Gill Blanchard's practical and informative handbook will help you to trace your ancestors in the traditional counties of East Anglia: Norfolk, Suffolk, Cambridgeshire, and Essex, and it will give you an insight into their lives. As well as guiding the researcher to historical records held in all the relevant archives, she explores the wealth of other resources that add the flesh to the bones of our ancestors' lives. She describes how fascinating information can be discovered about the places they lived in and the important historical events they lived through, and she traces the life stories of notable people from all backgrounds who shaped the regions' development over the centuries. Her account highlights the diversity of this part of England but also focuses on its common features and strong sense of identity. It introduces a wide array of research resources that will be revealing for readers who want to find out about their ancestors who lived here.

The Rood in Medieval Britain and Ireland, C.800-c.1500 Philippa Turner, Jane Hawkes, 2020 New readings demonstrate the centrality of the rood to the visual, material, and devotional cultures of the Middle Ages: its richness and complexity. The rood was central to medieval Christianity and its visual culture. Christ's death on the cross was understood as the means by which humankind was able to gain salvation, and depictions of the cross and Christ's death upon it were ubiquitous. This volume brings together contributions offering a new perspective on the medieval rood, understood in its widest sense as any kind of cross within the context of Britain and Ireland over a wide period of time which saw significant political and cultural change. In doing so, it crosses geographical, chronological, material, and functional boundaries which have traditionally characterised many previous discussions of the medieval rood.

Acknowledging and exploring the capacity of the rood to be both universal and specific to particular locations and audiences these contributions also tease out the ways in which roods related to one another as well as how they related to their physical and cultural surroundings often functioning in dialogue with other images and the wider devotional topography both material and mental in which they were set The chapters consider roods in a variety of media and contexts the monumental stone crosses of early medieval England twelfth century Ireland and spreading further afield late medieval Galicia the three dimensional monumental wooden roods in English monasteries Irish friaries and East Anglian parish churches roods that fit in the palm of a hand encased in precious metals those that were painted on walls drawn on the pages of manuscripts and those that appeared in visions dreams and gesture related to one another as well as how they related to their physical and cultural surroundings often functioning in dialogue with other images and the wider devotional topography both material and mental in which they were set The chapters consider roods in a variety of media and contexts the monumental stone crosses of early medieval England twelfth century Ireland and spreading further afield late medieval Galicia the three dimensional monumental wooden roods in English monasteries Irish friaries and East Anglian parish churches roods that fit in the palm of a hand encased in precious metals those that were painted on walls drawn on the pages of manuscripts and those that appeared in visions dreams and gesture related to one another as well as how they related to their physical and cultural surroundings often functioning in dialogue with other images and the wider devotional topography both material and mental in which they were set The chapters consider roods in a variety of media and contexts the monumental stone crosses of early medieval England twelfth century Ireland and spreading further afield late medieval Galicia the three dimensional monumental wooden roods in English monasteries Irish friaries and East Anglian parish churches roods that fit in the palm of a hand encased in precious metals those that were painted on walls drawn on the pages of manuscripts and those that appeared in visions dreams and gesture
