Transition Kyung-Sup Chang, 2017-07-05 South Korea has continued to impress the world in the way it has harnessed social modernization economic development political democratization and most recently multi faceted globalization Relying on both established and inventive citizenship perspectives the authors in this volume collectively show that all these diverse societal transformations and achievements can be concretely and systematically comprehended in conjunction with citizens reshaping identities rights and duties in civil society and national polity South Koreans eye catching traits and trends of educational zeal economic development civil activism nationalism and neoliberal globalization are analyzed here as diverse

yet often interconnected manifestations of citizenship politics As shown comprehensively in this volume the necessity of such citizenship focused analyses is particularly evident in recent years as South Korea has been undergoing a condensed transition from class politics to citizenship politics This book is a highly inclusive yet incisive account of modern and late modern Korea utilizing citizenship as a powerful theoretical and analytical tool Such judicious theoretical and analytical use of citizenship in respect to modern Korean history and society will in turn enable a meaningful expansion of theoretical and methodological utility of citizenship in contemporary global social sciences This book was based on a special issue of *Citizenship Studies* North Korea and the Geopolitics of Development Kevin Gray, Jong-Woon Lee, 2021-04-15 Kevin Gray and Jong Woon Lee focus on three geopolitical moments that have been crucial to the shaping of the North Korean system colonialism the Cold War and the rise of China to demonstrate how broader processes of geopolitical contestation have fundamentally shaped the emergence and subsequent development of the North Korean political economy They argue that placing the nexus between geopolitics and development at the centre of the analysis helps explain the country's rapid catch up industrialisation its subsequent secular decline followed by collapse in the 1990s and why the reform process has been markedly more conservative compared to other state socialist societies As such they draw attention to the specificities of North Korea's experience of late development but also place it in a broader comparative context by understanding the country not solely through the analytical lens of state socialism but also as an instance of post colonial national development

Development in Difficult Sociopolitical Contexts A. Ware, 2016-04-30 This edited volume explores development in the so called fragile failed and pariah states It examines the literature on both fragile states and their development and offers eleven case studies on countries ranking in the very high alert and very high warning categories in the Fund for Peace Failed States Index *North Korea's Foreign Policy* Scott A. Snyder, Kyung-Ae Park, 2022-10-25 Since Kim Jong un's assumption of power in December 2011 North Korea has undergone expanded nuclear development political isolation and economic stagnation Kim's early prioritization of the byungjin policy simultaneous economic and military or nuclear development highlighted his goal of transforming North Korea's domestic economic circumstances and strengthening its position in the world as a nuclear state The central dilemma shaping Kim Jong un's foreign policy throughout his first decade in power revolves around ensuring North Korea's prosperity and security while sustaining the political isolation and control necessary for regime survival In order to evaluate North Korea's foreign policy under Kim this volume will examine the impact of domestic factors that have influenced the formation and implementation of Kim's foreign policy Kim's distinctive use of summitry and effectiveness of such meetings as an instrument by which to attain foreign policy goals and the impact of international responses to North Korea's pursuit of nuclear capabilities on North Korea's foreign policy **North Korea** Hazel Smith, 2015-04-06 In this historically grounded richly empirical study of social and economic transformation in North Korea Hazel Smith evaluates the marketization from below that followed the devastating famine of the early 1990s estimated

to be the cause of nearly one million fatalities Smith shows how the end of the Cold War in Europe and the famine brought radical social change to all of North Korean society This major new study analyses how marketization transformed the interests expectations and values of the entire society including Party members the military women and men the young and the elderly Smith shows how the daily life of North Koreans has become alienated from the daily pronouncements of the North Korean government Challenging stereotypes of twenty five million North Koreans as mere bystanders in history Smith argues that North Koreans are neither victims nor villains but active agents of their own destiny *Engaging North Korea* Lam Peng Er,2024-09-16 This book presents a comprehensive overview of international attempts to engage North Korea diplomatically with the aim of avoiding a nuclear war It highlights the difficulty of this task concluding that the containment of North Korea currently depends more on military deterrence than on diplomatic restraint It considers the various multilateral attempts at diplomatic engagement over recent decades and explores the different approaches of different countries examining the domestic factors and the strategic interests which drive different countries different approaches It includes an account of China s growing estrangement Russia s increasing closeness and the surprising relationship between North Korea and Sweden which has been effective in providing the North Korean people with humanitarian aid Revealing the story of diplomatic frustrations and failures when engaging North Korea this book will appeal to students and scholars of Korean studies Asian politics and international relations **North Korea and the Global Nuclear Order** Edward Howell,2023-04-26 For a state that has gained a global reputation as a violator of international norms not least through its unwavering pursuit of nuclear weapons North Korea s determination to become a nuclear armed state is puzzling If nuclear weapons beget security insecurity and other costs for the state how might we understand this pursuit and the delinquent behaviour that has arisen from it In *North Korea and the Global Nuclear Order* Edward Howell offers an answer to this question focusing on North Korea s quest for status in the international system and developing the theoretical framework of strategic delinquency Featuring previously unpublished and new interviews with international negotiators with North Korea and drawing upon new academic literature Howell proffers an original theoretical framework to apply to the North Korean case Covering a time period from the 1990s to the present day and using unprecedentedly rich empirical evidence he makes the overarching argument that North Korea has strategically deployed behaviour that breaks international norms in order to reap benefits In so doing this book posits how over time North Korea has learnt that despite the low status and opprobrium that might ensue bad behaviour can pay **Diplomacy, Trade, and South Korea's Rise to International Influence** Dennis Patterson,Jangsup Choi,2019-07-31 This volume details how the diplomatic successes of South Korean presidents removed the country from the international isolation it experienced in the aftermath of the Korean War and also provided the necessary international connections for the expansions of international trade it experienced Patterson and Choi explain how diplomacy then was the primary process that allowed for the successful implementation of South Korea s export led economic

development strategy which in turn led to the rapid growth that allowed it to eventually the internationally influential actor it is today
